The Eisenhower Years: a Social History of the 1950'S Richard T. Stanley,2012-06-15 The Fabulous Fifties were America s Happy Days The Eisenhower Years produced amazing contributions to our American culture and to other cultures around the world In so many ways Americans innovated and the world imitated from Elvis Presley and rock n roll to the Salk anti polio vaccine America s contributions to the world included motion pictures and the Broadway stage radio and television amateur and professional sports jazz the blues country and Western music traditional ballads and popular songs and rock n roll domestic and international business and trade public and private educational opportunities and a rich and varied literature While Americans did not invent all these categories they nevertheless took each to new heights during the Eisenhower Years and shared their bounty with the world The Eisenhower Years generally speaking were happier more stable more prosperous more optimistic and simpler times then the preceding decades of the 1930 s and 40 s and the increasingly turbulent 1960 s and 70 s that followed In fact America s exuberance in so many areas of the arts and everyday life was omnipresent As for political and military achievements President Eisenhower kept us safely out of war and was wise enough to stay out of the way of Americas artists and entrepreneurs As a result the Eisenhower Years should forever be remembered as those Happy Days

Motion Picture Biographies John Cones,2015-04-01 Hollywood movies are famous for promoting negative stereotypes of

all kinds especially against minorities women Southerners and Christians To what extent are biographical films selected for production according to certain biases conscious or unconscious among the Hollywood elite An expert on the U S film industry gives readers brief synopses of Hollywood biopics produced and or released from 1912 through 1994 This survey provides the basis for discussion and analysis Tracking these one sided depictions over a longer period of time the patterns of bias and the source of the problem become more clear The problem appears to be that most of the people who have green light authority in the U S film industry for either the production and or distribution of a motion picture share a common ethnic religious cultural background Thus the stories of their own cohort and those of all other ethnic religious and or cultural groups whose members seldom achieve positions of power in Hollywood are being filtered through the cultural sensibilities of a single group John Cones suggests that the solution could lie in increasing diversity at the highest levels in the U S film industry
