Rosenborg Castle: Catalogue, pt. 2 Jørgen Hein, 2009 *Anna of Denmark* Jemma Field, 2020-06-11 Approaching the
Stuart courts through the lens of the queen consort Anna of Denmark this study is underpinned by three key themes
translating cultures female agency and the role of kinship networks and genealogical identity for early modern royal women
Illustrated with a fascinating array of objects and artworks the book follows a trajectory that begins with Anna s exterior
spaces before moving to the interior furnishings of her palaces the material adornment of the royal body an examination of
Anna s visual persona and a discussion of Anna s performance of extraordinary rituals that follow her life cycle Underpinned
by a wealth of new archival research the book provides a richer understanding of the breadth of Anna s interests and the
meanings generated by her actions associations and possessions **The Deformation** Susanna Berger, 2025-07-29 A
fascinating account of the use and meaning of visual and spatial distortions in seventeenth century art and architecture
During the Catholic Reformation patrons artists architects and viewers especially in Rome were strongly drawn to visual and
spatial distortions or deformations works of art and architecture that were designed to be visually incomprehensible at least
initially From Borromini s San Carlo alle Quattro Fontane in Rome to the attention grabbing prospettiva in the city s Palazzo
Spada and the anamorphoses that define the corridors and walls of Minim and Jesuit buildings The Deformation explores
what this intriguing phenomenon reveals about contemporary religious belief optics and the natural sciences as well as wider
questions about attention and discernment Failing to conform to an established ideal deformations required a reformation to
achieve that ideal Anamorphic deformations for example could only be reformed into clarity when viewed from a particular
angle or through a special mirror Susanna Berger examines how deformations were experienced by beholders and how they
were embraced or opposed by critics The book shows how deformations and related works whether altar tabernacles
ephemeral religious architecture churches monumental sundials colonnades with accelerated perspective illusionistic
frescoes turned ivories or painted anamorphoses focused observers attention on theological mysteries and the social power
and sophistication of patrons The book s rich illustrations include two gatefolds and some anamorphic images that can be
seen without distortion by using an included reflective insert as a mirror Looking at writings as well as visual works in
multiple artistic media not typically considered in relation to each other The Deformation offers a new interpretation of
deformation that highlights the delay between perception and discernment *Fragile Diplomacy* Maureen

This book focuses on early examples of women who may be said to have anticipated in one way or another modern professional and or career oriented women The contributors to the book discuss women who may at least in some respect be seen as professionally ambitious unlike the great majority of working women in the past In order to improve their positions or to find better business opportunities the women discussed in this book invested in developing their qualifications and professional skills took economic or other kinds of risks or moved to other countries Socially they range from elite women to women of middle class and lower middle class origin In terms of theory the book brings fresh insights into issues that have been long discussed in the field of women s history and are also debated today However despite its focus on women the book is conceptually not so much focused on gender as it is on profession business career qualifications skills and work By applying such concepts to analyzing women s endeavours the book aims at challenging the conventional ideas about them
