Women Behind the Wheel Nancy A. Nichols,2024-03-05 From the adolescent thrill of getting a driver's license to the dreaded commutes of adulthood from vintage muscle cars to electric vehicles this groundbreaking book reveals the outsized impact the car has had and will continue to have on the lives of women Since their inception cars have defined American culture but until quite recently car histories were largely written by and about men with little attention given to the fascinating story of women and cars In this engaging non fiction narrative Nancy A Nichols the daughter of a used car salesman uses the cars her father sold and the ones her family drove to tell a larger story about how the car helped to define modern womanhood From her sister's classic Mustang to her mother's Chevy Convertible to her own Honda minivan Nichols tells a personal story in order to shed light on a universal one Cars helped women secure the right to vote changed the nature of romance and influenced both fashion and child rearing customs In the just over 100 years since their inception cars have created possibilities for commerce and romance even as they exposed women to new kinds of danger Women Behind the Wheel explores the uniquely gendered landscape of the automobile detailing the many reasons why cars are both more expensive and more dangerous for women drivers The automobile is on the cusp of momentous change As we advance into the era of electric connected and autonomous vehicles Nichols shows us why we should hit the brakes and look back in the rear view mirror at this long and fascinating history What is the role of the car in our lives Should we be more skeptical of technology in our society In Women Behind the Wheel Nichols argues convincingly that only by understanding the many ways the car has changed us can we hope to prepare ourselves for this brave new era

The Allotment MARK YOUNG,2014-07-11 Everyone thought the four pensioners were being stubborn in their refusal to leave their allotment The local Councillor had good reason to reuse the space for a top class shopping mall with a coffee shop on every floor Hooray The allotment was a perfect space for a development that paid top dollar Councillor Renshaw was very determined to get the deal done and make a killing He was about however to underestimate the power of four equally determined pensioners each one with a reason to make sure their allotment stayed intact

Will California build on success and invest 5 billion more in stem cell research We have the momentum says author Don C Reed We dare not stop short Chronic disease threatens everyone we are fighting for your family and mine *The All-American Girls After the AAGPBL* Kat D. four decades I have visited over sixty countries in six continents but this book will take you some interesting places which I missed writing about along the way I especially loved the little country of Wales which most travelers seem to miss along their way In thinking back about those fun places I especially liked California and the Hearst Castle and I would invite anyone who can take the time to visit there Yes it is true that it is not in the main stream of places to see but if you have traveled to the many popular places of the world take a few extra days and try to see the Hearst magical home Swing Shift Sherrie Tucker,2000 The story based on extensive individual interviews of the women s swing bands that toured extensively during World War II and after a kind of League of their Own for jazz **Labor Information Bulletin** United States.
