Satu Dekade Perjalanan Komunitas BETA-UFO Indonesia Melacak Fenomena UFO , **Roswell and the Reich** Joseph P. Farrell, 2020-03-10 Already well known for his bestselling series of exposés on secret Nazi technology and the survival of the Third Reich after the end of World War II Oxford educated historian and physicist Joseph P. Farrell here delves

ever deeper into the activities of this nefarious group In his previous works Farrell has clearly demonstrated that the Nazis were clandestinely developing new and amazing technologies toward the end of WWII and that the key scientists involved in these experiments were exported to the Allied countries at the end of the conflict mainly the United States in a move called Operation Paperclip NASA director and developer of the Saturn V rocket that sent Americans to the moon Werner von Braun was one of these scientists Farrell has traced the links between ongoing Reich activities and the newly formed CIA and other defense military industrial establishments Now Farrell has meticulously reviewed the best known Roswell research from UFO ET advocates and skeptics alike as well as some little known source material and comes to a radically different scenario of what happened in Roswell New Mexico in July 1947 and why the US military has continued to cover it up to this day Farrell presents a fascinating case sure to disturb both ET believers and disbelievers namely that what crashed may have been representative of an independent postwar Nazi power an extraterritorial Reich monitoring its old enemy America and the continuing development of the very technologies confiscated from Germany at the end of the War
