## **Roswell The Aliens Attack:**

*Enemies Within* Robert Alan Goldberg, 2008-10-01  
divdiv There is a hunger for conspiracy news in America. Hundreds of Internet websites, magazines, newsletters, even entire publishing houses disseminate information on invisible enemies and their secret activities, subversions, and coverups. Those who suspect conspiracies behind events in the news: the crash of TWA Flight 800, the death of Marilyn Monroe, join generations of Americans from the colonial period to the present day who have entertained visions of vast plots. In this enthralling book, Robert Goldberg focuses on five major conspiracy theories of the past half century, examining how they became widely popular in the United States and why they have remained so. In the post-World War II decades, conspiracy theories have become more numerous, more commonly believed, and more deeply embedded in our culture. Goldberg contends. He investigates conspiracy theories regarding the Roswell UFO incident, the Communist threat, the rise of the Antichrist, the assassination of President John Kennedy, and the Jewish plot against black America, in each case taking historical, social, and political environments into account. Conspiracy theories are not merely the products of a lunatic fringe, the author shows. Rather, paranoid rhetoric and thinking are disturbingly central in America today. With media validation and dissemination of conspiracy ideas and federal government behavior that damages public confidence and faith, the ground is fertile for conspiracy thinking. DIV DIV

**Attack of the Killer Facts!** Eric Gryzymkowski, 2011-04-18  
Factoid Attack: Inherent sadistic streak in dentists confirmed. The electric chair was invented by a dentist, Dr. Alfred Southwick. Not surprising, dentists have been perfecting torture devices for centuries. Factoid Attack: Galaxy at risk. Intelligent life in short supply. In 1961, astronomer Frank Drake estimated the number of probable intelligent civilizations inhabiting our galaxy. Using conservative numbers, that estimate came to 10,000. Unfortunately, we are not included in that total. Factoid Attack: Colorblind bulls hate all matadors equally. The color of a matador's cape or muleta is traditionally red, which is widely believed to irritate the bull. In reality, bulls are colorblind, so it is irrelevant what color cape a matador uses to antagonize them. Shot in the dark, but maybe it's the being stabbed with swords bit that pisses them off. Forget Fringe Warehouse 13 and The X-Files. In this book, you'll find more weird and wacky truths than in all those combined. From golden poison dart frogs with enough venom to kill ten grown humans to cockroaches that can survive radiation 15 times stronger than what kills people, scary and strange, just got scarier and stranger.

**Atomic Bomb Cinema** Jerome F. Shapiro, 2013-05-13 Unfathomably merciless and powerful the atomic bomb has left its indelible mark on film In Atomic Bomb Cinema Jerome F Shapiro unearths the unspoken legacy of the bombing of Nagasaki and Hiroshima and its complex aftermath in American and Japanese cinema According to Shapiro a Bomb film is never simply an exercise in ideology or

paranoia He examines hundreds of films like Godzilla Dr Strangelove and The Terminator as a body of work held together by ancient narrative and symbolic traditions that extol survival under devastating conditions Drawing extensively on both English language and Japanese language sources Shapiro argues that such films not only grapple with our nuclear anxieties but also offer signs of hope that humanity is capable of repairing a damaged and divided world [www atomicbombcinema com](http://www.atomicbombcinema.com)
