## Round Dance:

The Round Dance Book Lloyd Shaw, 1948 Century of waltzing with over a hundred old time American round dances and circle mixers      **The Gnostic Bible** Willis Barnstone, Marvin W. Meyer, 2006 The most comprehensive collection of gnostic literature ever published this volume is the result of a unique collaboration between a renowned poet translator and a leading scholar of early Christian texts      *Art and Performance in Oceania* Barry Craig, Bernie Kernot, Christopher Anderson, 1999-12-01 The Fifth International Symposium of the Pacific Arts Association titled Art Performance and Society called for papers in sessions dealing with Production and Performance Social and Cultural Context The Record and the Remainder and The Mission of Museums In all some sixty papers were presented twenty four of which have been included in this book The first two topics elicited several papers that explored the creative process including the description and analysis of performance and the taxonomy of objects used the transmission of cultural knowledge and the identity and work of individual artists The second two topics provided the opportunity for papers on some significant early museum collectors and collections various methods of documenting cultural material such as photography how cultural material has been and can be exhibited and the role of museums and cultural centers in Pacific Island countries      *The round dance book* Lloyd Shaw, 1950 Century of waltzing with over a hundred old time American round dances and circle mixers      Round Dancing Melvin Ballou Gilbert, 1890-01-01 The 1890s book on round dances by M B Gilbert a well known American dancing master containing instructions for numerous variations on waltzes polkas galops redowas mazurkas schottisches and other dances Somewhat unusually for the era it does not include any notes on dances other than round dances like quadrilles or on etiquette This edition is a modern reformatting of the early digitized version made by the Library of Congress for the American Ballroom Companion collection itself now considerably antiquated Formatting has been reworked to be both practically useful and considerably closer to the original text and errors in the LoC digitization have been corrected when found while errors in the original text have been preserved GV1755 G46      Music as Concept and Practice in the Late Middle Ages Reinhard Strohm, Bonnie J. Blackburn, 2001 Music as Concept and Practice in the Late Middle Ages is an entirely new addition to the New Oxford History of Music series rather than a revision of the volume's predecessor published in 1960 It takes account not only of the developments in late medieval music scholarship during the latter decades of the twentieth century but also of the experience gained through significant changes in the performance practice of the late medieval repertory witnessed during this period All the chapters include areas of discussion whose coverage in the series hitherto has been either wholly lacking or at best marginal Muslim and Jewish musical traditions of the Middle Ages late medieval office chant medieval dance music musical instruments in society music in Central and Eastern Europe music theory of the fourteenth and fifteenth centuries music and early Renaissance humanism The first chapter and the last three present the conceptualization of music in speculative theory philosophy compositional and didactic practice and musical historiography

Four chapters and part of the first illustrate important musical repertoires and genres as they were developed within diverse societies. The eight authors, all of them with a long standing interest in their respective subjects, have created through their collaboration a blend of mature scholarship and original investigation. The volume's novelty of approach and content is complemented by a firm anchorage in the specialist literature and documentary source material. Today no single view of the Middle Ages can be acceptable to the musician or to the historian. The present volume, which addresses itself to both, provides solid information on formerly marginal themes and advocates further exploration of the other Middle Ages.

Wovoka and the Ghost Dance Don Lynch, 1997-01-01. The religious fervor known as the Ghost Dance movement was precipitated by the prophecies and teachings of a northern Paiute Indian named Wovoka (Jack Wilson). During a solar eclipse on New Year's Day 1889, Wovoka experienced a revelation that promised harmony, rebirth, and freedom for Native Americans through the repeated performance of the traditional Ghost Dance. In 1890, his message spread rapidly among tribes, developing an intensity that alarmed the federal government and ended in tragedy at Wounded Knee. While the Ghost Dance phenomenon is well known, never before has its founder received such full and authoritative treatment. Indispensable for understanding the prophet behind the messianic movement, Wovoka and the Ghost Dance addresses for the first time basic questions about his message. This expanded edition includes a new chapter and appendices covering sources on Wovoka discovered since the first edition, as well as a supplemental bibliography.

The Biology of the Honey Bee Mark L. Winston, 1987. **Waltzing Through Europe: Attitudes towards Couple Dances in the Long Nineteenth-Century** Egil Bakka, Theresa Jill Buckland, Helena Saarikoski, Anne von Bibra Wharton, 2020-09-10. From folk devils to ballroom dancers, Waltzing Through Europe explores the changing reception of fashionable couple dances in Europe from the eighteenth century onwards. A refreshing intervention in dance studies, this book brings together elements of historiography, cultural memory, folklore, and dance across comparatively narrow but markedly heterogeneous localities. Rooted in investigations of often newly discovered primary sources, the essays afford many opportunities to compare sociocultural and political reactions to the arrival and practice of popular rotating

couple dances such as the Waltz and the Polka Leading contributors provide a transnational and affective lens onto strikingly diverse topics ranging from the evolution of romantic couple dances in Croatia and Strauss's visits to Hamburg and Altona in the 1830s to dance as a tool of cultural preservation and expression in twentieth century Finland *Waltzing Through Europe* creates openings for fresh collaborations in dance historiography and cultural history across fields and genres It is essential reading for researchers of dance in central and northern Europe while also appealing to the general reader who wants to learn more about the vibrant histories of these familiar dance forms

**The Body's**

**Recollection of Being** David Michael Levin, 2002-01-04 This is a unique study containing the work of Merleau Ponty and Heidegger and using the techniques of phenomenology against the prevailing nihilism of our culture It expands our understanding of the human potential for spiritual self realization by interpreting it as the developing of a bodily felt awareness informing our gestures and movements The author argues that a psychological focus on our experience of well being and pathology as embodied beings contributes significantly to a historically relevant critique of ideology It also provides an essential touchstone in experience for a fruitful individual and collective response to the danger of nihilism Dr Levin draws on Merleau Ponty's phenomenology to clarify Heidegger's analytic of human beings through an interpretation that focuses on our experience of being embodied He reconstructs in modern terms the wisdom implicit in western and semitic forms of religion and philosophy considering the work of Freud Jung Foucault and Nietzsche as well as that of American educational philosophers including Dewey In particular he draws on the psychology of Freud and Jung to clarify our historical experience of gesture and movement and to bring to light its potential in the fulfilment of Selfhood Throughout the book the pathologies of the ego and its journey into Selfhood are considered in relation to the conditions of technology and the powers of nihilism

**Ethnomusicology of the Flathead Indians** Alan Merriam, 2017-09-29 All people in no matter what culture must be able to place their music firmly in the context of the totality of their beliefs experiences and activities for without such ties music cannot exist This means that there must be a body of theory connected with any music system not necessarily a theory of the structure of music sound although that may be present as well but rather a theory of what music is what it does and how it is coordinated with the total environment both natural and cultural in which human beings move The Flathead Indians of Western Montana just over 26 000 in number as of the 2000 census inhabit a reservation consisting of 632 516 acres of land in the Jocko and Flathead Valleys and the Camas Prairie country which lie roughly between Evaro and Kalispell Montana The reservation is bounded on the east by the Mission Range on the west by the Cabinet National Forest on the south by the Lolo National Forest and on the north by an arbitrary line approximately bisecting Flathead Lake about twenty four miles south of Kalispell The area is one of the richest agricultural regions in Montana and fish and game are abundant The Flathead are engaged in stocking timbering and various agricultural enterprises For the Flathead the most important single fact about music and its relationship to the total world is its origin in the supernatural sphere All true and proper songs particularly in the past owe their origin to a variety of contacts experienced by humans with beings which though a part of this world are superhuman and the source of both individual and tribal powers and skills Thus a sharp distinction is drawn by the Flathead between what they call make up and all other songs Merriam's pioneering work in the relationship of ethnography and musicology remains a primary source in this field in anthropology

**Greek Festivals, Modern and Ancient** Evy Johanne Håland, 2017-06-20 This volume represents a multifaceted cross period product of fieldwork conducted in contemporary Greece in combination with ancient sources Based on a

comparative analysis of important religious festivals and life cycle rituals the book investigates the importance of cults connected with the Greek female sphere and its relation to the official male dominated ideology Within these festivals are encountered supplementary complementary or competing ideologies connected with men and women and it is shown that there is not a one way power structure or male dominance within Greek culture but rather competing powers linked to the two sexes and their respective spheres In addition to gender the book also explores the relationship between the great and little societies in the form of official and popular religion As such it will serve to broaden the reader s knowledge of ancient but also modern society because it concerns the relationship between various spheres of life which each possess their own competing and overlapping but also co existing value systems

*Hoedowns, Reels, and Frolics* Phil Jamison,2015-07-15 In *Hoedowns Reels and Frolics* old time musician and flatfoot dancer Philip Jamison journeys into the past and surveys the present to tell the story behind the square dances step dances reels and other forms of dance practiced in southern Appalachia These distinctive folk dances Jamison argues are not the unaltered jigs and reels brought by early British settlers but hybrids that developed over time by adopting and incorporating elements from other popular forms He traces the forms from their European African American and Native American roots to the modern day On the way he explores the powerful influence of black culture showing how practices such as calling dances as well as specific kinds of steps combined with white European forms to create distinctly American dances From cakewalks to clogging and from the Shoo fly Swing to the Virginia Reel *Hoedowns Reels and Frolics* reinterprets an essential aspect of Appalachian culture
