A Functioning Society Peter F. Drucker, 2017-07-05 Peter F Drucker may be best known as a writer on business and management but these subjects were not his foremost intellectual concern Drucker s primary concerns were community in which the individual has status and society in which the individual has function Here he has assembled selections from his vast writings on these subjects This collection presents the full range of Drucker s thought on community society and political structure and constitutes an ideal introduction to his ideas The volume is divided into seven parts The selections in parts 1 and 2 were mostly written during World War Two and in the wake of the Great Depression Part 3 deals with the limits of governmental competence in the social and economic realm It contains some of Drucker s most influential writings concerned with the difference between big government and effective government The chapters in part 4 explore autonomous centers of power outside government and within society Part 5 contains chapters from Drucker s path breaking work on the corporation as a social organization rather than merely an economic one The rise of the so called knowledge industries forms the background for part 6 The concluding part 7 is devoted entirely to Drucker s long essay The Next Society Drucker examines the emergence of new institutions and new theories arising from the information revolution and the social changes they are helping to bring about In organizing these representative writings Drucker chose to be topical rather than chronological with each excerpt presenting a basic theme of his life s work As is characteristic of his efforts *A Functioning Society* appeals both the general reader as well as a cross disciplinary scholarly readership

Dreaming of Justice, Waking to Wisdom Laurence D. Cooper, 2023-03-14 A surprising look at how Rousseau defended the philosophic life as the most natural and best of lives *Dreaming of Justice Waking to Wisdom* reveals what could be thought of as the capstone of Rousseau s thought even if that capstone has been nearly invisible to readers Despite criticizing philosophy for its corrosive effects on both natural goodness and civic virtue Rousseau argues Laurence D Cooper held the philosophic life as an ideal Cooper expertly unpacks Rousseau s vivid depiction of the philosophic life and the case for that life as the most natural the freest or in short the best or most choice worthy of lives Cooper focuses especially on a single feature arguably the defining feature of the philosophic life the overcoming of the ordinary moral consciousness in favor of the cognitivist view of morality Cooper shows that Rousseau with his particular understanding and embrace of the philosophic life proves to be a kind of latter day Socratic Thorough and thought provoking *Dreaming of Justice Waking to Wisdom* provides vital insight into Rousseau

Overcoming Tradition And Modernity Robert D. Lee,2018-02-12 Authenticity has begun to rival development as a key to understanding the political aspirations of the Islamic world Almost everywhere modernity has laid waste to tradition those habits and practices deemed to be timeless and true Imperialism carried European notions of progress into Muslim dominated parts of the globe and subsequently Muslims themselves espoused Western practices techniques and philosophies Regimes calling themselves liberal socialist and Arab nationalist all embraced modernity as their principal objective Most of these regimes failed to create the promised better lives their citizens desired Moreover ordinary Muslims felt despair as modernity ripped apart families exposed youngsters to the materialism and hedonism of Western entertainments heightened social expectations and undermined religious belief Even though tradition has proved itself incapable of staving off modernity the promises and premises of modern development literature have been called into question Where is the truth around which Muslims can rally Does modernity require a rejection of tradition Does the embrace of Islamic ideas necessitate turning away from modernity Robert D Lee explores these compelling questions by presenting four contemporary Muslim writers Muhammad Iqbal Sayyid Qutb Ali Shari ati and Mohammed Arkoun all of whom have refused to bow to such a dichotomy of modernity and tradition This study examines their efforts deeply influenced by European thinking to find a truth beyond tradition and modernity an authentic understanding of Islam upon which Muslims can build a future All four thinkers believe such an authentic understanding can serve as the foundation for a new politics Lee argues however that each of these versions of authenticity suffers shortcomings and falters in its efforts to move from the particularity of culture onto a grander scale of political organization appropriate for the modern world
