John Ralston Saul Reimagines Canada (4-Book Bundle) John Ralston Saul, 2017-05-16 Canada has no greater interpreter and champion than John Ralston Saul who for years has been challenging our common notions of Canada These four books examine our history and myths our relationships and modern reality and together brilliantly portray a unique and remarkable country *Reflections of a Siamese Twin* In *Reflections of a Siamese Twin* Saul turns his eye to an examination of Canada itself Caught up in crises political economic and social Canada continues to flounder unable to solve or even really identify its problems Instead we assert absolute differences between ourselves we are English or we are French Natives or Europeans early immigrants or newly arrived from the east or from the west Or we bow

to ideologies and deny all differences in the name of nationalism unity or equality In a startling exercise in reorientation John Ralston Saul makes sense of Canadian myths real false denied and reconciles them with the reality of today s politics culture and economics A Fair Country In this startlingly original vision of Canada John Ralston Saul argues that Canada is a M tis nation heavily influenced and shaped by Aboriginal ideas Egalitarianism a proper balance between individual and group and a penchant for negotiation over violence are all Aboriginal values that Canada absorbed An obstacle to our progress Saul argues is that Canada has an increasingly ineffective elite a colonial non intellectual business elite that doesn t believe in Canada It is critical that we recognize these aspects of the country in order to rethink its future The Comeback Historic moments are always uncomfortable Saul writes in this impassioned argument calling on all of us to embrace and support the comeback of Aboriginal peoples This he says is the great issue of our time the most important missing piece in the building of Canada The events that began late in 2012 with the Idle No More movement were not just a rough patch in Aboriginal relations with the rest of Canada What is happening between Aboriginals and non Aboriginals is not about guilt or sympathy or failure or romanticization of the past It is about citizens rights It is about rebuilding relationships that were central to the creation of Canada These relationships are just as important to its continued existence Wide in scope but piercing in detail The Comeback presents a powerful portrait of modern Aboriginal life in Canada illustrated by a remarkable selection of letters speeches and writings by Aboriginal leaders and thinkers showcasing the extraordinarily rich moving and stable indigenous point of view across the centuries Louis Hippolyte LaFontaine and Robert Baldwin Here Saul argues that modern Canada did not begin in 1867 rather its foundation was laid years earlier by two visionary men Louis Hippolyte LaFontaine and Robert Baldwin Opposites in temperament and driven by intense experiences of love and tragedy together they developed principles and programs that would help unite the country After the 1841 union the two leaders of Lower and Upper Canada worked to create a reformist movement for responsible government run by elected citizens instead of a colonial governor During the Great Ministry of 1848 to 1851 despite violent opposition they set about creating a more equitable nation They revamped judicial institutions established a public education system made bilingualism official and designed a network of public roads Writing with verve and deep convictions Saul restores these two extraordinary Canadians to rightful prominence [The Conspiracy of Modern Art](#) Luiz Renato Martins,2017-03-06 In The Conspiracy of Modern Art the Brazilian critic and art historian Luiz Renato Martins presents a new account of modern art from David to Abstract Expressionism The once vibrant debate on these touchstones of modernism has gone stale Viewed from the Sao Paulo megalopolis the art of Paris and New York embodying Revolution Thermidor Bonapartism and Bourgeois Triumph once more pulsates in tragic key Equally attentive to form and politics Martins invites us to look again at familiar pictures In the process modern art appears in a new light These essays largely unknown to an English speaking audience may be the most important contribution to the account of modern painting since the important debates of the 1980s **The Story of Looking Mark**

Cousins, 2020-01-16 The acclaimed author and filmmaker's investigation into the human gaze through history, art, and science paints an illuminating portrait of our culture. Looking can be an act of empathy or aggression. It can provoke desire or express it. And from the blurry, edgeless world we inhabit as infants to the landscape of screens we grow into, looking can define us. In *The Story of Looking*, filmmaker and writer Mark Cousins takes us on a tour in words and images through the development of the human gaze over the course of a lifetime and the ways that looking has changed through the centuries. From great works of art to tourist photographs, from cityscapes to cinema, through science and protest, propaganda and refusals to look, the false mirrors and great visionaries of looking, this book illuminates how we construct as well as receive the things we see. *The Story of Looking* is a photo album and an art gallery, a road movie and a visual grammar. Once you've read it, you'll never see things the same way again. Shortlisted for the Saltire Society Non-Fiction Award. A wide-ranging history of looking, you will gaze at it in wonder. Ian Sansom, *The Guardian*, UK
