Conflicted American Landscapes David E. Nye, 2021-04-27

How conflicting ideas of nature threaten to fracture America's identity Amber waves of grain purple mountain majesties American invest much of their national identity in sites of natural beauty And yet American lands today are torn by conflicts over science religion identity and politics Creationists believe that the Biblical flood carved landscapes less than 10 000 years ago environmentalists protest pipelines Western states argue that the federal government's land policies throttle free enterprise Native Americans demand protection for sacred sites In this book David Nye looks at Americans irreconcilably conflicting ideas about nature A landscape is conflicted when different groups have different uses for the same location for example when some want to open mining sites that others want to preserve or when suburban development impinges on agriculture Some landscapes are so degraded from careless use that they become toxic anti landscapes Nye traces these conflicts to clashing conceptions of nature ranging from pastoral to Native American to military industrial that cannot be averaged into a compromise Nye argues that today's environmental crisis is rooted in these conflicting ideas about land Depending on your politics global warming is either an inconvenient truth or fake news America's contradictory conceptions of nature are at the heart of a broken national consensus

Music in American Life Jacqueline Edmondson,2013-10-03 A fascinating exploration of the relationship between American culture and music as defined by musicians scholars and critics from around the world Music has been the cornerstone of popular culture in the United States since the beginning of our nation s history From early immigrants sharing the sounds of their native lands to contemporary artists performing benefit concerts for social causes our country s musical expressions reflect where we as a people have been as well as our hope for the future This four volume encyclopedia examines music s influence on contemporary American life tracing historical connections over time **Music in American Life An Encyclopedia of the Songs Styles Stars and Stories That Shaped Our Culture** demonstrates the symbiotic relationship between this art form and our society Entries include singers composers lyricists songs musical genres places instruments technologies music in films music in political realms and music shows on television *American Heritage* ,1996 **Global West, American Frontier** David M. Wrobel,2013-10-15 This thoughtful examination of a century of travel writing about the American West overturns a variety of popular and academic stereotypes Looking at both European and American travelers accounts of the West from de Tocqueville s *Democracy in America* to William Least Heat Moon s *Blue Highways* David Wrobel offers a counter narrative to the nation s romantic entanglement with its western past and suggests the importance of some long overlooked authors lively and perceptive witnesses to our history who deserve new attention Prior to the professionalization of academic disciplines the reading public gained much of its knowledge about the world from travel writing Travel writers found a wide and respectful audience for their reports on history geography and the natural world in addition to reporting on aboriginal cultures before the advent of anthropology as a discipline Although in recent decades western historians have paid little attention to travel writing Wrobel demonstrates that this genre in fact offers an important and rich understanding of the American West one that extends and complicates a simple reading of the West that promotes the notions of Manifest Destiny or American exceptionalism Wrobel finds counterpoints to the mythic West of the nineteenth century in such varied accounts as George Catlin s *Adventures of the Ojibbeway and Ioway Indians in England France and Belgium* 1852 Richard Francis Burton s *The City of the Saints* 1861 and Mark Twain s *Following the Equator* 1897 reminders of the messy and contradictory world that people navigated in the past much as they do in the present His book is a
