as introduced by the Monotheistic religions with the same foundations and principles at their core The second period examines the arguments that justify interest bearing debt and particularly how the stance of major religions has been translated into a basis of support for these transactions And the final part offers a linear report of the development of interest bearing debt and its disruptive impact throughout the history of economics from medieval times to the modern era Initially the book presents a conceptual framework of terms applicable to the discussions and then examines the consistency and reliability of the theological and philosophical arguments on the restrictions imposed upon the practice of interest and debt including rigid prohibition While the book is grounded in research that relies heavily on historical sources it offers a contribution to the literature on economics as well since the historical findings are analyzed in the context of economic terms and theories An interdisciplinary effort the book will attract the attention of those who have an interest in finance economics history religion and sociology

**Interpretive Trajectories in Judaism, Christianity, and Islam from the First to the Twenty-First Century** Anders Runesson, Karin Hedner Zetterholm, 2023-11-27 This book charts the shifting boundaries of Judaism from antiquity to the modern period in order to bring clarity to what scholars mean when they claim that ancient texts or groups are within Judaism as well as exploring how rabbinic Jews Christians and Muslims have negotiated and renegotiated what Judaism is and is not in order to form their own identities Belief in Jesus as the Messiah was seen as part of first century Judaism but by the fourth or fifth century the boundaries had shifted and adherence to Jesus came to be seen as outside of Judaism Resituating New Testament texts within first or second century Judaism is an historical exercise that may broaden our view of what Judaism looked like in the early centuries CE but normatively these texts remain within Christianity because of their reception history The historical within Judaism perspective however has the potential to challenge and reshape the theology of contemporary Christianity while at the same time the long held consensus that belief in Jesus cannot belong within Judaism is again challenged by the modern Messianic Jewish movement
