Just War and International Order Nicholas Rengger, 2013-04-04 At the opening of the twenty first century while obviously the world is still struggling with violence and conflict many commentators argue that there are many reasons for supposing that restrictions on the use of force are growing The establishment of the International Criminal Court the growing sophistication of international humanitarian law and the rebirth of the just war tradition over the last fifty years are all taken as signs of this trend This book argues that on the contrary the just war tradition allied to a historically powerful and increasingly dominant conception of politics in general is complicit with an expansion of the grounds of supposedly legitimate force rather than a restriction of it In offering a critique of this trajectory Just War and International Order also seeks to illuminate a worrying trend for international order more generally and consider what if any alternative there might be to it

Reconstruction of Urban Forests Joe R. McBride,Judith Stilgenbauer,Igor Lacan,Sheauchi Cheng,Scot Medbury,Deborah L. McBride,2021-01-16 This book will address the destruction of urban forest in nine cities by bombing during World War II and the Bosnian War and their reconstruction in the post war years After reviewing the general objectives and results of aerial bombing the book explores the effects of bombing and the reconstruction of urban forest in London Coventry Hamburg Dresden St Petersburg Stalingrad Tokyo Hiroshima and Sarajevo Sarajevo stands out among these cities because the destruction of its urban forest was the result of citizens cutting down trees for firewood during the siege of the city Most of the cities studied developed plans for reconstruction either during or after the war These plans often addressed the planning and re establishment of the urban forest that had been destroyed Urban planners often planned for infrastructure improvements such as new boulevards and parks where trees would be planted After the war many of these plans were abandoned or significantly modified Cost resistance by property owners control of reconstruction by authorities outside of the cities and the lack of planting stock were factors contributing to the failure of many of the plans Exceptions occurred in Hiroshima and Coventry where the destroyed cities became symbols of national reconstruction and every effort was made to redesign the destroyed portions of these cities as memorials to those who lost their lives and to demonstrate the rebirth of the cities In several of the cities studied individual citizens undertook on their own the replanting of street and

park trees Their ingenuity hard work and dedication to trees in their cities was remarkable A common factor limiting efforts to replant street and park trees was the lack of nursery stock During and immediately after the wars nearly all nurseries that had supplied trees for city planting had been converted to vegetable gardens to produce food for the urban populations The slow return to the production of trees for urban planting was a common factor in the time required in many cities to restore their street and park trees There are lessons to be learned by urban planner urban forester and landscape architects from this book that will be useful in the future destruction of urban forest either by natural or man made causes *Man of Seven Shadows* Richard Theodor Kusiolek, 2020-08-06 It is an ancient time on Earth The Korka Clan led by a giant man are generational members of the Stone Age tribe Tiger Claw As they begin a historical journey through seven portals of time the clan has no idea of the challenges that lie ahead As members of the Korka Clan obtain their warrior credentials through battles with the Mongols in 1237 their village is burned to the ground by the Mongol hordes Over the next seven centuries the Korka Clan must endure forced migration and slave labor while working communal agricultural lands After they eventually resist the clan becomes foundational pillars of kingship Through the brutality of their historical roots the family becomes immersed in rebellions against economic and religious exploitation while engaging in military espionage to gain economic and political security As their journey leads them onward the Korka Clan influence the outcome of battles that ultimately guide future generations into the country of Ukraine and Washington D C to neutralize the existing Deep State

Understanding Non-State Actors Eran Zohar, 2023-10-24 Understanding Non State Actors aims to reduce the scarcity of academic literature on armed non state actors NSAs that have always been a part of world politics and wars This monograph offers possibly for the first time a systematic historical review as well as a substantive theory of NSAs and their arming efforts The world has been astonished by the ability of the well armed Hamas to inflict heavy losses on the powerful Israel Thus from the Jewish rebellion against Rome to the war between the Ukrainian separatists and the Ukrainian government NSAs weapons acquisition has been vital for the build up of their force enabling both the employment of that force and its sustainability While weapons are not necessarily the most important factor in military build up NSAs need weapons to fight and revolts usually erupt after the organizers have acquired a certain number of weapons Conversely many revolts lose momentum and operations are not carried out or turn ineffective due to shortages of arms and ammunition A major theme of this monograph is that in spite of dramatic political and technological changes armed NSAs in different periods have employed similar methods to acquire weapons Self production looting and stealing external support and the arms trade were always the major ways for NSAs to acquire weapons though the importance of each method and the type of arms has changed remarkably over time Understanding Non State Actors discusses the factors political social cultural technological and organizational that have both facilitated and constrained the ability of NSAs to acquire arms Especially lecturers and students of Military Terrorism Conflict studies War and peace studies will benefit from this study **Lybeaus**

Desconus Eve Salisbury, James Weldon, 2014-01-01 Lybeaus Desconus the Fair Unknown is the mid fourteenth century Middle English version of the classic narrative of the handsome and mysterious young outsider who comes to the court of King Arthur to prove himself worthy of joining Arthur's knights. The young knight is tested in a variety of ways and in the course of this testing he learns both chivalric codes of conduct and the truth of his parentage. Six extant manuscripts of the poem attest to its popularity, placing it in company with Guy of Warwick, Bevis of Hampton and Sir Isumbras among the most popular of Middle English Romances. The current edition offers readers a chance to compare two manuscript versions of the poem: one preserved in Lambeth MS 306 and the other in the Biblioteca Nazionale in Naples. *Handbook of Medieval Culture. Volume 3* Albrecht Classen, 2015-08-31 A follow-up publication to the Handbook of Medieval Studies, this new reference work turns to a different focus: medieval culture. Medieval research has grown tremendously in depth and breadth over the last decades. Particularly, our understanding of medieval culture of the basic living conditions and the specific value system prevalent at that time has considerably expanded to a point where we are in danger of no longer seeing the proverbial forest for the trees. The present innovative handbook offers compact articles on essential topics: ideals, specific knowledge and concepts defining the medieval world as comprehensively as possible. The topics covered in this new handbook pertain to issues such as love and marriage, belief in God, hell and the devil, education, lordship and servitude, Christianity versus Judaism and Islam, health, medicine, the rural world, the rise of the urban class, travel, roads and bridges, entertainment, games and sport activities, numbers, measuring, the education system, the papacy, saints, the senses, death and money. A History of the Late Medieval Siege, 1200-1500 Peter Fraser Purton, 2009 The first book of a two-volume history of siege warfare and techniques in Europe and the Middle and Far East covering the period 450-1500.
