Carolina's Golden Fields Hayden R. Smith, 2019-10-31 The basis for this book began twenty years ago when I enrolled in the College of Charleston's summer archaeological field school After spending the first half of the semester honing our technique by digging five foot by five foot units identifying soil stratigraphy and collecting artifacts at the Charleston Museum's Stono Plantation the archaeologists reoriented us students to a new site For the remainder of the field school we investigated Willtown Bluff on the Edisto River an early eighteenth century township surrounded by plantations My interest in inland rice cultivation grew from our work at the James Stobo site a 1710 plantation located on the edge of the Willtown township and one mile from the tidal river For three archaeological seasons between 1997 and 1999 I participated in excavations of the Stobo Plantation house foundation located on a hardwood knoll surrounded by a sea of low lying Cypress wetlands During this time I had a unique opportunity

to walk off the dry terra firma and explore miles of inland rice embankments sprawling to the east and to the south of the house site Major embankments traverse the wetlands on a magnetic north south and east west axis intersected by smaller check banks and drainage canals as far as the eye can see under the dense cypress and hardwood canopy

Kelly,2020-12-30 This volume draws together richly textured and deeply empirical accounts of rice and how its cultivation in the Carolina low country stitch together a globe that maps colonial economies displacement and the creative solutions of enslaved people conscripted to cultivate its grain If sugar fueled the economic hegemony of North Europe in the 18th and 19th century rice fed it Nowhere has this story been a more integral part of the landscape than Low Country of the coasts of Georgia South and North Carolina Rice played a key role in the expansion of slavery in the Carolinas during the 18th century as West African captives were enslaved in part for their expertise in growing rice Contributors to this volume explore the varied genealogies of rice cultivation in the Low Country through archaeological anthropological and historical research This multi sited volume draws on case studies from Guinea Sierra Leone and South Carolina the Caribbean and India to both compare and connect these disparate regions Through these studies the reader will learn how the rice cultivation knowledge of untold numbers of captive Africans contributed to the development of the Carolinas and by extension the United States and Europe The chapters in this book were originally published as a special issue of Atlantic Studies Town House Bernard L. Herman,2012-12-01 In this abundantly illustrated volume Bernard Herman provides a history of urban dwellings and the people who built and lived in them in early America In the eighteenth century cities were constant objects of idealization often viewed as the outward manifestations of an organized civil society As the physical objects that composed the largest portion of urban settings town houses contained and signified different aspects of city life argues Herman Taking a material culture approach Herman examines urban domestic buildings from Charleston South Carolina to Portsmouth New Hampshire as well as those in English cities and towns to better understand why people built the houses they did and how their homes informed everyday city life Working with buildings and documentary sources as diverse as court cases and recipes Herman interprets town houses as lived experience Chapters consider an array of domestic spaces including the merchant family s house the servant s quarter and the widow s dower Herman demonstrates that city houses served as sites of power as well as complex and often conflicted artifacts mapping the everyday negotiations of social identity and the display of sociability A Measure of the Earth Nicholas R. Bell,2013-10-01 A Measure of the Earth provides an unparalleled window into an overlooked corner of recent American history the traditional basketry revival of the past fifty years Steve Cole and Martha Ware amassed a remarkable collection using the most stringent guidelines baskets made from undyed domestic materials

that have been harvested by the maker An essay by Nicholas Bell details the long standing use of traditional fibers such as black ash and white oak willow and sweetgrass and the perseverance of a select few to claim these elements the land itself for the enrichment of daily life As they trek through woods fields farm and shore in the quest for the right ingredients for a basket these men and women cultivate an enviable knowledge of the land Each basket crafted from this knowledge provides not only evidence of this connection to place but also a measure of the earth Drawing on conversations with the basketmakers from across the country and reproducing many of their documentary photographs Bell offers an intimate glimpse of their lifeways motivations and hopes Lavish illustrations of every basket convey the humble tactile beauty of these functional vessels

The Crucible of Carolina Michael Montgomery, 1994 The ten essays in *The Crucible of Carolina* explore the connections between the language and culture of South Carolina s barrier islands West Africa the Caribbean and England Decades before any formal scholarly interest in South Carolina barrier life outsiders had been commenting on and documenting the African qualities of the region s black inhabitants These qualities have long been manifest in their language religious practices music and material culture Although direct contact between South Carolina and Africa continued until the Civil War the era of Caribbean contact was briefer and ended with the close of the American colonial period Throughout this volume though the contributors look beyond the cultural motivations and political appeal of strengthening the links between coastal Carolina and Africa and examine the cost of a diminished recognition of this important Caribbean influence Not surprisingly the influence of the pioneering linguist Lorenzo Dow Turner is reflected in many of these essays The work presented in this volume however moves beyond Turner in dealing with the discourse and stylistic aspects of Gullah in relating patters of Gullah to other Anglophone creoles and to various processes of creolization and in questioning the usefulness of retention survival and continuity as operational concepts in comparative research Within this context of furthering and challenging Turner s work in the barrier islands and in seeking a truer measure of both African and Caribbean influences there the contributors cover such topics as names and naming the language of religious rituals basket making traditions creole discourse patterns and the grammatical morphology of Gullah and related creole and pidgin languages Other contributors consider the substrate contributions and African continuities to be found in New World language patterns into new patterns adapted to the various situations in the New World Opening new and advancing previous areas of research *The Crucible of Carolina* also contributes to a further appreciation of the richness and diversity of South Carolina s cultural heritage

Many Thousands Gone Ira Berlin, 2009-07-01 Today most Americans black and white identify slavery with cotton the deep South and the African American church But at the beginning of the nineteenth century after almost two hundred years of African American life in mainland North America few slaves grew cotton lived in the deep South or embraced Christianity *Many Thousands Gone* traces the evolution of black society from the first arrivals in the early seventeenth century through the Revolution In telling their story Ira Berlin a leading historian of southern and African

American life reintegrates slaves into the history of the American working class and into the tapestry of our nation Laboring as field hands on tobacco and rice plantations as skilled artisans in port cities or soldiers along the frontier generation after generation of African Americans struggled to create a world of their own in circumstances not of their own making In a panoramic view that stretches from the North to the Chesapeake Bay and Carolina lowcountry to the Mississippi Valley Many Thousands Gone reveals the diverse forms that slavery and freedom assumed before cotton was king We witness the transformation that occurred as the first generations of creole slaves who worked alongside their owners free blacks and indentured whites gave way to the plantation generations whose back breaking labor was the sole engine of their society and whose physical and linguistic isolation sustained African traditions on American soil As the nature of the slaves labor changed with place and time so did the relationship between slave and master and between slave and society In this fresh and vivid interpretation Berlin demonstrates that the meaning of slavery and of race itself was continually renegotiated and redefined as the nation lurched toward political and economic independence and grappled with the Enlightenment ideals that had inspired its birth *Low Country Gullah Culture, Special Resource Study*, 2003 **Hiking South Carolina** Josh Kinser, 2023-05-01 Hiking South Carolina covers the best hiking throughout the entire state This book has the reader traversing from the mountains to the sea in one of the most beautiful and diverse states in the US No matter where you are in the state it is likely that this book will have a trail for you to explore nearby Detailed maps and trail descriptions make navigating these wonderful trails easy and interesting information about the environment and history of each trail gives hikers a unique insight into the trail that they are exploring South Carolina Women Marjorie Julian Spruill, Valinda W.
