The Royal Air Force: The Trenchard Years, 1918-1929 Ian M. Philpott,2005-07-19 The inter war years between 1918 and 1939 saw the newly created Royal Air Force fighting for its very existence politically being dispatched to the remotest corners of the British Empire and its Protectorates in various policing roles and then finally engaged in a headlong rush to modernize in the face of the new German Fascist regime that was threatening British and European freedom Yet this important period in RAF history and its effect on political and military rationale during the period has never been completely documented This exhaustive and comprehensive reference is the most detailed work to be published on the subject The author gives full information on the changing structure of the Force during the period squadron operations political machinations and their effects the airplanes and their equipment the personnel technical advances in navigation and breakthroughs achieved in engine performance The book is cross referenced throughout extremely well illustrated and contains an abundance of location maps and other diagrams This book will become a Bible for anyone interested in the history of the RAF This work has been reviewed by personnel at the RAF Historical Branch who praise it **Royal Air Force** Continuum International Publishing Group, Limited,1999-05 **The Territorial Air Force** Frances Louise Wilkinson,2020-11-23 What is almost certainly the definitive account of the Auxiliary Air Force the Special Reserve and the Royal Air Force Volunteer Reserve Paul Nixon Army Ancestry Research To date little has been written about the Territorial Air Force as a voluntary military organization and no sustained analysis of its recruitment and social composition undertaken Made up of three different parts the Auxiliary Air Force the Special Reserve and the Royal Air Force Volunteer Reserve these three separate and different groups have not featured significantly in existing literature Along with a history of the Territorial Air Force this book includes an analysis of how the volunteers joined and what kinds of men were accepted into the organizations as both pilots and officers The influences class and social status had on recruitment in the run up to the Second

World War are also discussed There is an exploration of the key differences between the Auxiliary squadrons and the SR squadrons as well as the main reasons for the idea of merging the SR squadrons into the AAF squadrons Briefly discussed are the newly formed University Air Squadrons that were set up to promote air mindedness and to stimulate an interest and research on matters aeronautical Military voluntarism continued to play a key role in the defense of twentieth century Britain and class ceased to be the key determining factor in the recruitment of officers as the organizations faced new challenges Within both the AAF and the RAFVR the pre war impression of a gentlemen s flying club finally gave way to a more meritocratic culture in the post war world The Illustrated History of the Air Forces of World War I & World War II

The Price of Victory: A Naval History of Britain: 1815-1945 N. A. M. Rodger, 2025-05-13 The final installment of N A M Rodger s definitive authoritative trilogy on Britain s naval history Across two acclaimed volumes preeminent naval historian N A M Rodger has traced the progress of naval warfare in Britain from the seventh century through to Trafalgar combining decades of scholarship with original insights and analysis In this final volume N A M Rodger delivers a magisterial history of the Royal Navy beginning after its defeat of Napoleon and concluding in 1945 with the Second World War At the end of the French and Napoleonic Wars British sea power was at its apogee But by 1840 as one contemporary commentator put it the Admiralty was full of intellects becalmed in the smoke of Trafalgar How the Royal Navy reformed and reinvigorated itself in the course of the nineteenth century is just one thread in this magnificent book which refuses to accept standard assumptions and analyses Rodger s comprehensive narrative goes beyond the conduct of war at sea to tell a sprawling story of naval warfare as a national endeavor As in previous volumes the social history of officers and men and now also women has a prominent place Along the way he describes the development and strategic significance of submarine and navy air forces and the rapid evolution of weapons and ships from classic Nelsonian type to hybrid steam sail ships then armor clad and the fully armored Dreadnoughts and beyond He assesses the character and importance of leading admirals Beatty Fisher Cunningham together with the roles of other less famous but no less consequential figures Rodger sets all this in the essential context of politics and geo strategy Based on a lifetime s learning The Price of Victory is a masterful culmination of one of the most significant British historical works in recent decades Naval specialists will find much that is new and will be invigorated by the originality of Rodger s judgments but everyone who is interested in one of the central threads in British history will find it rewarding

Illustrated History of the RAF Roy Conyers Nesbit, 1991-01-15 Retells the story of the Royal Air Force from the early days of balloons and experimental flying machines through the two World Wars to the Falklands campaign **The History of Air Intercept Radar & the British Nightfighter 1935-1959** Ian White, 2007-05-30 This detailed history of Air Intercept radar traces the development of this vital military technology with the Royal Air Force during WWII In the years after World War I the United Kingdom was desperate to develop some form of protection from an enemy air strike As early as 1923 the British Army had devised sound mirrors that could detect aircraft up to twelve miles away This technical history traces the development of military radar technology from this early experimental phase to the creation of the first air to air radar systems and their uses in battle Historian Ian White sets this fascinating narrative within the larger political military economic and technological context of the era Through World War II Air Intercept radar was a vital asset in protecting RAF bomber forces as well as the country itself But developing the technology required the tireless work of physicists and engineers in the Air Ministry Research Establishment particularly members of the Establishment's Airborne Group working under Dr Edward Bowen Their Airborne Interception radars such as the AI Mk IV were used in Blenheim night fighters during the winter Blitz and by Mosquito during the Baedeker Raids This in depth history covers the introduction of centimetric technology at the Telecommunications Research Establishment the creation of centimetric AI and their installation in the Beaufighter and later marks of the Mosquito It describes the creation of the Radiation Laboratory at MIT and concludes with a section on further developments during the Cold War **Review of Current Military Literature**, 1937 *Australian National Bibliography*, 1978 *Reckless Fellows* Edward Bujak, 2015-09-25 The Royal Flying Corps later the Royal Air Force was formed in 1912 and went to war in 1914 where it played a vital role in reconnaissance supporting the British Expeditionary Force as air cavalry and also in combat establishing air superiority over the Imperial German Air Force Edward Bujak here combines the history of the air war including details of strategy tactics technical issues and combat with a social and cultural history The RFC was originally dominated by the landed elite in Lloyd George's phrase from the stateliest houses in England and its pilots were regarded as knights of the air Harlaxton Manor in Lincolnshire seat of landed gentry became their major training base Bujak shows how within the circle of the RFC the class divide and unconscious superiority of Edwardian Britain disappeared absorbed by common purpose technical expertise and by an influx of pilots from Canada Australia New Zealand and South Africa He thus provides an original and unusual take on the air war in World War I combining military social and cultural history
