It discusses significant travel, tourism and hospitality events while referring to tourism-related notions and theories that have been developed since the beginnings of tourism. This textbook aspires to enhance readers' comprehension of the perplexed system of tourism, promoting decision making and even the development of new theories. This book will be of great interest to academics, practitioners and students from a wide variety of disciplines including tourism, hospitality events, sociology, psychology, philosophy, history and human geography **London: Business, Travel, Culture** Nicolae Sfetcu, 2014-08-10 Revision 1.1
 London is the most important political, financial, cultural and artistic center of the United Kingdom and one of the most important cities of the world. In London, there are many institutions and corporate headquarters of global importance, many important buildings, palaces, museums, theaters, concert halls, airports, railway stations, numerous embassies and consulates. London is a huge engine of the world economy. City is the largest financial center of London, home to banks, securities companies, insurance companies, law and accounting. A second financial district is developing: Canary Wharf. More than half of the top 100 British companies have their headquarters in central London and more than 70% in the metropolitan area of London. 31% of the world's monetary transactions take place in London. Here are selling and buying more dollars than in New York and more euros than in all other European cities. Tourism is one of the most important industries of the United Kingdom: over 350,000 people worked in tourism in 2003, only in London. With a number of universities, colleges and schools, London has a population of about 378,000 students, making it an important center of research and development **British and Irish Paintings in Public Collections** Christopher Wright, Catherine May Gordon, 2006-01-01
 This book sets a new standard as a work of reference. It covers British and Irish art in public collections from the beginning of the sixteenth century to the end of the nineteenth and encompasses nearly 9,000 painters and 90,000 paintings in more than 1,700 separate collections. The book includes as well pictures that are now lost, some as a consequence of the Second World War and others because of deaccessioning, mostly from 1950 to about 1975, when Victorian art was out of fashion. By listing many tens of thousands of previously unpublished works, including around 13,000 which do not yet have any form of attribution, this book becomes a unique and indispensable work of reference, one that will transform the study of British and Irish painting British Archives Janet Foster, Julia Sheppard, 1995-09-27
 Since it was first published in 1982, British Archives has established itself as the premier reference work to holdings of archives and manuscript collections throughout the UK. The 3rd edition has been extensively revised and enlarged with more than 150 new entries, further widening the range of the book. Entries are structured to show the archives of the organisation as distinct

from deposited collections and significant non manuscript material and additional details of fax number and conservation provision are included for the first time All the existing entries have been significantly updated together with the select bibliography and list of useful addresses of various organisations involved in the care and custody of archives The introduction provides an invaluable guide to researchers using archives including a summary of the relevant legislation and a detailed description of the usual holdings of county and other local authority record offices **The Rough Guide to**
