Macfarlane,2019-10-31 The Royal Dragoon Guards have a long and distinguished history dating from 1685 Originally raised as regiments of horse and dragoons they were subsequently designated as the 4th 5th and 7th Dragoon Guards and the 6th Inniskilling Dragoons They fought in all of Britain's major wars from the late 17th century onwards charging at Blenheim with Marlborough's cavalry at Waterloo with the Union Brigade and at Balaklava with the Heavy Brigade In the 19th century they also saw service in India and Africa All four regiments served in France and Flanders during the First World War and one regiment fired the first British shot on the Western Front They were then amalgamated into two regiments the 4th 7th Royal Dragoon Guards and the 5th Royal Inniskilling Dragoon Guards Both regiments were mechanised shortly before the Second World War in which they played a leading role in the D Day landings In 1992 the two regiments amalgamated again to form the Royal Dragoon Guards Recent conflicts have taken the regiment to Iraq and Afghanistan continuing a record of

operational service covering more than three centuries This regimental history of the Dragoons tells their story as it played out across the centuries exploring their role in both major and minor conflicts of the last 300 years The title examines the development of the regiment up to the present day and highlights key figures across its history The text is supported throughout with photographs and illustrations

**Bloodline** Iain Gordon, 2020-01-24 A guide to the history of each of the British Army's regular formations from their origins to their development over time Using easy to follow family tree type tables Bloodline shows the origins and development of every regular formation in the British Army including the latest amalgamations and changes brought about within the Future Army Structure The charts illustrate clearly how in some cases up to twenty five original regiments of the line have over the centuries by successive disbandments and amalgamations been reduced to a single regiment in today's superb but shamefully overstretched army The Battle Honours of each post Cardwell constituent are recorded separately so the progress of each of the original regiments and the theatres in which it was involved may be examined individually The pedigrees and Honours of disbanded units are also recorded so their contribution will not be lost to posterity A chronological summary of Battle honours provides an overview of the British Army's campaigns over the past 300 years and notes on the origins of each formation place its original purpose within the political and historical perspective of the time A robust editorial platform throughout applauds the Army as the Nation's most dependable and trustworthy institution and castigates government neglect and public indifference for the unnecessary blood and sacrifices which successive generations of soldiers have had to make as a result of inadequate investment and preparation Bloodline is a splendid record of achievement and will provide an invaluable work of reference for anyone who has dealings with or simply an interest in or affection for the British Army

Praise for Bloodlines I know of no other resource that contains such a wealth of information about the History of the Regiments of the British Army This will be a very useful addition to my shelf of military reference books
