

The background of the cover is a photograph of a cave interior. The cave walls are made of layered, reddish-brown rock. In the center, a group of people and horses are walking away from the viewer towards a bright opening at the end of the cave. The floor is dark and reflective, mirroring the scene above. The overall atmosphere is one of exploration and discovery.

The Green Travel Guide Greg Neale, 2019-03-12 This book suggests ways in which we can enjoy our holidays and our travel even more by becoming green travellers It also suggests different types of green holidays and encourages some of the better examples of good environmental practice in holidaymaking around the world *Practical Field Ecology* C. Philip Wheeler, James R. Bell, Penny A. Cook, 2011-04-12 This book introduces experimental design and data analysis interpretation as well as field monitoring skills for both plants and animals Clearly structured throughout and written in a student friendly manner the main emphasis of the book concentrates on the techniques required to design a field based ecological survey and shows how to execute an appropriate sampling regime The book evaluates appropriate methods including the problems associated with various techniques and their inherent flaws e.g. low sample sizes large amount of field or laboratory work high cost etc This provides a resource base outlining details from the planning stage into the field guiding through sampling and finally through organism identification in the laboratory and computer based data analysis and interpretation The text is divided into six distinct chapters The first chapter covers planning including health and safety together with information on a variety of statistical techniques for examining and analysing data Following a chapter dealing with site characterisation and general aspects of species identification subsequent chapters describe the techniques used to survey and census particular groups of organisms The final chapter covers interpreting and presenting data and writing up the research The emphasis here is on appropriate wording of interpretation and structure and content of the report *Tropical Rain Forest: A Wider Perspective* F.B. Goldsmith, 2012-12-06 The international perspective for this book is the unprecedented level of concern over deforestation recognized by the meeting of world leaders at the 1992 Earth Summit in Rio de Janeiro and culminating in the appointment of the Intergovernmental Panel on Forests IPF under the auspices of the UN Commission on Sustainable

Development The wide range of issues covered by the authors in this volume reflects the breadth of the international debate from national policies and activist campaigning through economic and social objectives to the sustainable management of forest and soil resources Since the conservation campaigns of the 1980s the focus of international concern has widened from tropical rain forests to all forest formations in all regions with increased recognition of global values and common responsibilities However while forest cover in some temperate countries is increasing irrational deforestation at historically unprecedented levels of damage to biodiversity and to other environmental values remains most acute in tropical countries where the need to use the natural resources for sustainable development is greatest and the capability weakest While accepting the urgency of the situation and the need for greater coherence of action at a global level the 1997 report of the IPF to the UN Commission emphasized the powers and responsibilities of national governments and the importance of National Forest Programmes but with the fuller participation of local communities and with enhanced access to international assistance
