Richter,2014-05-14 This monograph is a comparative socio linguistic reassessment of the Deuteronomic idiom *leshakken shemo sham* and its synonymous biblical reflexes in the Deuteronomistic History *lashum shemo sham* and *lihyot shemo sham* These particular formulae have long been understood as evidence of the Name Theology the evolution in Israelite religion toward a more abstracted mode of divine presence in the temple Utilizing epigraphic material gathered from Mesopotamian and Levantine contexts this study demonstrates that *leshakken shemo sham* and *lashum shemo sham* are loan adaptations of Akkadian *shuma shakanu* an idiom common to the royal monumental tradition of Mesopotamia The resulting retranslation and reinterpretation of the biblical idiom profoundly impacts the classic formulation of the Name Theology *The Body as Property* Sandra Jacobs,2014-04-24 The Body As Property indicates that physical disfigurement functioned in biblical law to verify legal property acquisition when changes in the status of dependents were formalized It is based on the reality the cuneiform script in particular was developed in Sumer and Mesopotamia for the purpose of record keeping to provide legal proof of ownership where the inscription of a tablet evidenced the sale or transfer of property Legitimate property acquisition was as important in biblical law where physical disfigurements marked dependents in a similar way that the veil or the head covering identified a wife or concubine in ancient Assyrian and Judean societies This is primarily substantiated in the accounts of prescriptive disfigurements namely circumcision and the piercing of a slave's ear both of which were required only when a son or slave was acquired permanently It is further argued that legal entitlement was relevant also to the punitive disfigurements recorded in Exodus 21 22 24 and Deuteronomy 25 11 12 where the physical violation of women was of concern solely as an infringement of male property rights Old Babylonian Period (2003-1595 BC) Douglas Frayne,1990-01-01 A short introduction for each inscription gives its general contents place of origin and relative dating Also included are a detailed catalogue of exemplars a brief commentary bibliography and text in transliteration facing an English

translation [The Construction of the Assyrian Empire](#) S. Yamada,2021-10-01 In numerous ambitious expeditions Shalmaneser III of Assyria 859 824 lay the foundation of the subsequent remarkable military advance to the West of the Neo Assyrian empire While systematically scrutinizing and analyzing all accounts of these western campaigns Shigeo Yamada not only discusses the historiographical problems encountered together with their impact on the jigsaw of ninth century Ancient Near East history but also offers new results and an original historical reconstruction Ample attention is given to the campaigns economic and ideological aspects The book will serve as a useful reference for all students interested in Assyrian historiography and the history of Assyria and Syria Palestine It includes an appendix on a new edition of the Kurkh Monolith based on the author s collation **Susa and Elam. Peter Roger Stuart Moorey, 1999 This is the first systematic attempt to survey in detail the archaeological evidence for the crafts and craftsmanship of the Sumerians Babylonians and Assyrians in ancient Mesopotamia covering the period ca 8000 300 B C E As creators of some of the earliest farming and urban communities known to us these people were among the first pioneers of many crafts and skills that remain fundamental to modern ways of life Many of the raw materials for crafts had to be imported from outside the river valley of the Tigris and Euphrates providing an unusually sensitive indicator of the commercial and cultural contacts of Mesopotamia In this book Dr Moorey reviews briefly the textual evidence and then goes on to examine in detail the material evidence for a wide range of crafts using stones both common and ornamental animal products from hippopotamus ivory to ostrich egg shells ceramics glazed materials and glass metals and building materials With a comprehensive bibliography this will be a key work of reference for archaeologists and those interested in the early history of crafts and technology as well as for specialist historians of the ancient Near East *Gudea and His Dynasty* Sibylle Edzard, Dietz Otto Edzard, 1997-01-01 This volume of RIM focuses on the Second Dynasty of Lagas and concentrates mainly on the inscriptions of Cylinders A and B of the most important king of that dynasty Gudea

Homeland and Exile Gershon Galil, Markham (Mark) Geller, Alan Millard, 2009-10-23 This volume is a scholarly tribute to Bustenay Oded s distinguished career from some of the many contemporaries colleagues and former students who not only admire and keep being inspired by his achievements but who also count him as a friend The title points to the remarkable span of Bustenay Oded s research and research interests Accordingly the Festschrift s thirty original contributions deal with

a wide range of topics focusing on the Assyrian Empire as well as on the Hebrew Bible and other cultural contents

Presargonic Period Douglas Frayne, 2008-05-17 The book *Presargonic Period 2700-2350 BC* provides editions of all known royal inscriptions of kings who ruled in ancient Mesopotamia down to the advent of King Sargon of Akkad. Most of the inscriptions come from the city states of Lagash and Umma; inscriptions from other sites are rather poorly attested. The volume includes a handful of new inscriptions recently uncovered in Iraq. Information on museum numbers, excavation numbers, provenances, dimensions, and lines preserved in the various exemplars are displayed for multi-exemplar texts in an easy-to-read tabular form. Also included in several commentary sections are notes on the find spots of the inscriptions from Lagash and references about various toponyms to be discussed in a forthcoming study of the author on the geography of Lagash and Umma provinces. Indexes of museum numbers, excavation numbers, and concordances of selected publications complete the volume.

The Reign of Adad-nīrārī III Luis Robert Siddall, 2013-07-11 In *The Reign of Adad-nīrārī III* Luis Siddall examines the evidence and edits new inscriptions from the king's reign to investigate the chronology, campaigns, imperial administration, and royal ideology of the period. While historians have typically viewed this period as one of turmoil, imperial recession, political weakness, and decentralisation, Siddall shows that Adad-nīrārī's reign marked a period of imperial stability chiefly through changes to the administration. However, while politically successful, the imperial policy affected the king's ideological expression, particularly in terms of the description of the campaigns in Adad-nīrārī's inscriptions and his limited use of royal titles. Scholars working on the Neo-Assyrian period cannot afford to miss Siddall's fresh assessment of the evidence for Adad-nīrārī's reign. He offers a re-evaluation of several texts but perhaps more importantly, he proposes a few methodological innovations that shed new light on the history of Assyria in the 9th century BC.

Time Capsules William E. Jarvis, 2002-11-25 Time capsules have been used for thousands of years to store for posterity a selection of objects thought to be representative of life at a particular time. Such vessels have the dual purpose of causing participants to ponder their own cultural era and think about those to come. This work is a cultural history of five thousand years of time capsules and other related time information transfer experiences. It examines both the formal and the popular culture aspects of the time capsule from its roots in ancient Mesopotamian and Egyptian building foundation deposits to the present utilization of spacecraft probes and other extreme locations. The deposits of 3000 BCE deliberately had no definite date and time to be opened. In 1876 CE came the idea of target-dated deposits. Also discussed are how real time capsules work, notional and archaeological time capsules, the height of the time capsule's popularity from 1935 to 1982, the preservation of writings in time capsules, keeping time in a perpetual futurescape, and the turn of the century hype surrounding millennium time capsules.
