Royal Warriors A Military History Of The British Monarchy

Kenneth J. Panton

Royal Warriors A Military History Of The British Monarchy:

Royal Warriors Charles Carlton,2014-09-11 War is the trade of kings John Dryden War and monarchy are two of the most important and resonant topics in British History This exciting new book explores the role that kings and queens have played in war and how war has shaped the monarchy Aimed explicitly at the general reader the book delves into the truth behind the myths and uncovers some fascinating facts about our iconic soldier kings and queens

Royal Warriors Charles Carlton,2014-09-11 War is the trade of kings John Dryden War and monarchy are two of the most important and resonant topics in British History This exciting new book explores the role that kings and queens have played in war and how war has shaped the monarchy Aimed explicitly at the general reader the book delves into the truth behind the myths and uncovers some fascinating facts about our iconic soldier kings and queens

Historical Dictionary of the British Monarchy Kenneth J. Panton,2023-10-15 The foundations of the British monarchy date from the era more than a millennium ago when Anglo Saxon Celtic and Viking peoples competed for dominance Early sovereigns exercised near absolute power but over time that authority dwindled as the changing role of women the democratization of society dynastic intermarriage financial demands religious convictions struggles for economic and political control and territorial aggrandizement combined to promote change The strengths and weaknesses of rulers such as William the Conqueror Henry VIII Elizabeth I and Mary Queen of Scots and Queen Elizabeth also contributed to the evolution of the monarchy and are documented here Historical Dictionary of the British Monarchy Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 800 cross referenced entries that cover significant events places institutions and other aspects of British culture economics politics and society This book is an excellent resource for students researchers and anyone wanting to know more about the British monarchy

For King and Country Heather Jones,2021-09-23 This is a ground breaking history of the British monarchy in the First World War and of the social and cultural functions of monarchism in the British war effort Heather Jones examines how the conflict changed British cultural attitudes to the monarchy arguing that the conflict ultimately helped to consolidate the crown s sacralised status She looks at how the monarchy engaged with war recruitment bereavement gender norms as well as at its political and military powers and its relationship with Ireland and the empire She considers the role that monarchism played in military culture and examines royal visits to the front as well as the monarchy s role in home front morale and in interwar war commemoration Her findings suggest that the rise of republicanism in wartime Britain has been overestimated and that war commemoration was central to the monarchy s revered interwar status up to the abdication crisis

A Cumulative Bibliography of Medieval Military History and Technology, Update 2003-2006 Kelly DeVries,2008-01-31 This is the second update of A Cumulative Bibliography of Medieval Military History and Technology which appeared in 2002 It is meant to do two things to present references to works on medieval military history and technology not included in the first two volumes and to present references to all

books and articles published on medieval military history and technology from 2003 to 2006 These references are divided into the same categories as in the first two volumes and cover a chronological period of the same length from late antiquity to 1648 again in order to present a more complete picture of influences on and from the Middle Ages It also continues to cover the same geographical area as the first and second volume in essence Europe and the Middle East or again influences on and from this area The languages of these bibliographical references reflect this geography

The Orders of Knighthood and the Formation of the British Honours System, 1660-1760 Antti Matikkala, 2008 Sheds considerable new light on the nature development and functions of the orders in a key phase of their history and goes a long way to explaining how such archaic institutions could flourish in a culture that is commonly thought anti traditional and especially hostile to the middle ages Professor JONATHAN BOULTON University of Notre Dame This is the first comprehensive study to set the British orders of knighthood properly into the context of the honours system by analysing their political social and cultural functions from the Restoration of the monarchy to the end of George II s reign It examines the revival of the Order of the Garter and the proposals to establish the Orders of the Royal Oak and the Esquires of the Martyred King at the Restoration the foundation 1687 and the revival 1703 4 of the Order of the Thistle as well as the foundation of the Order of the Bath 1725 It establishes just how central a part the orders played in the British high political life and its comprehensive and multidimensional approach carefully contrasts the idealistic discourse of virtue and honour to the real workings of the honours system it also makes the case for the Chivalric Enlightenment The orders over the water the Garter and the Thistle conferred by the Jacobite claimants are discussed for the first time in the context of the established British honours system Overall the comparison between the socially very restricted British and the increasingly meritocratic Continental orders highlights the isolation of the British honours system from the European tendencies

Victoria Catherine Reef, 2017 A captivating biography about Queen Victoria 1819 1901 one of England s most fascinating royals Her long reign was filled with drama death intrigue and passion and took place during a time of great transformation an era that bears her name the Victorian period Full color 8 x 10

Ulwencreutz's The Royal Families in Europe V Lars Ulwencreutz, 2013-10-30

Ulwencreutz s Royal Families in Europe V A brief history of the ruling houses during the last 2000 years From the house of La Tour d Auvergne to the house of Zahringen

The Hanoverians Jeremy Black, 2007-01-20 A detailed critique of the eighteenth century German family and their reign on the British throne includes coverage of such topics as the language barrier that impacted George I s controversial rule George III s loss of the American colonies and bouts with mental instability and George IV s scandalous marriage and attempted divorce

Memories of War in Early Modern England Susan Harlan, 2016-09-23 This book examines literary depictions of the construction and destruction of the armored male body in combat in relation to early modern English understandings of the past Bringing together the fields of material culture and militarism Susan Harlan argues that the notion of spoiling or the sanctioned theft of the arms and armor of the vanquished in

battle provides a way of thinking about England's relationship to its violent cultural inheritance. She demonstrates how writers reconstituted the spoils of antiquity and the Middle Ages in an imagined military struggle between male bodies. An analysis of scenes of arming and disarming across texts by Christopher Marlowe and William Shakespeare and tributes to Sir Philip Sidney reveals a pervasive militant nostalgia, a cultural fascination with moribund models and technologies of war. Readers will not only gain a better understanding of humanism but also a new way of thinking about violence and cultural production in Renaissance England.

The Man in the Brown Suit James Parris, 2019-11-06 On 16 July 1936 a man in a brown suit stepped from the crowd on London's Constitution Hill and pointed a loaded revolver at King Edward VIII as he rode past. The monarch was moments from death. But MI5 and the Metropolitan Police Special Branch had known for three months an attack was planned: the man in the brown suit himself had warned them. This mysterious man lost to history was George McMahon, a petty criminal with a record of involvement with the police. He was also an MI5 informant providing intelligence on Italian and possibly German espionage in Britain. Dismissed by the rest of the world as a drunken loser and fantasist, he saw his life as an epic drama. Why did MI5 and the police fail to act? Was it a simple blunder on the part of the security services or was something far more sinister involved? In this first full-length study of the threat to the life of Edward VIII, James Parris uses material from MI5 and police files at the National Archives to reach explosive conclusions about the British Establishment's determination to remove Edward from the throne.

Journal of Medieval Military History John France, Kelly DeVries, Clifford J. Rogers, 2021-06-18 The leading academic vehicle for scholarly publication in the field of medieval warfare.

Medieval Warfare Making History Now and Then D. Cannadine, 2008-06-17 Collects twelve previously unpublished essays by one of Britain's most eminent historians, David Cannadine, including his inaugural and valedictory lectures at the Institute of Historical Research. A unique volume discussing the study and nature of History itself and a range of key topics and periods in British and Imperial History.

Military History, 2008-03

The North Carolina Historical Review, 2005

George II Jeremy Black, 2007 Following closely on the heels of his recent biography of George III, Jeremy Black turns to the reign of his grandfather, George II, to set the record straight. In his new book, he sets out to demonstrate the unfairness of charges that George II was a puppet king overshadowed by towering politicians such as Walpole and later Pitt. For a king who ruled for so long, 1727-60, the neglect shown by historians to George II is surprising. He was the last British king to lead an army into battle at Dettingen in 1743, and his rule included the drama of Culloden in 1746, the culmination of the war over British succession. The neglect is due chiefly to the lack of easily accessible source material. George II left no diaries and was not a great letter writer. Black has instead exploited rich archival resources to piece together a figure who was the pivot in an often finely balanced and sometimes dangerously unbalanced fledgling political system. In the process of revealing George II to us, Black goes further than biography, telling us much about the society and system within which the King functioned. In an era of successive wars between European states in which George, as Elector of

Hanover was keen to ensure that Britain played a part there is much here also relating to Britain's role within Europe

Shakespeare and the Royal Actor Sally Barnden, 2024 Explores the extent to which members of the royal family have appropriated the creative legacy of Shakespeare from the mid eighteenth century to the mid twentieth century in order to shore up royal and national ideologies and to assert the legitimacy of the monarchy

The Oxford Handbook of Modern British Political History, 1800-2000 David Brown, Robert Crowcroft, Gordon Pentland, 2018-03-29 The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written about Britain's past politics This Handbook shows the ways in which political historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain's political past and a thought provoking long view for those interested in current political challenges

War, Identity and the Liberal State Victoria Basham, 2013-07-24 This book critically examines the significance of gender race and sexuality to wars waged by liberal states Drawing on original field research with British soldiers it offers insights into how their everyday experiences are shaped by and shape a politics of gender race and sexuality that not only underpins power relations in the military but the geopolitics of wars waged by liberal states Linking the politics of daily life to the international is an intervention into international relations IR and security studies because instead of overlooking the politics of the everyday this book insists that it is vital to explore how geopolitical events and practices are co constituted reinforced and contested by it By utilising insights from Michel Foucault the book explores how shared and collectively mediated knowledge on gender race and sexuality facilitates certain claims about the nature of governing in liberal states and about why and how such states wage war against illiberal ones in pursuit of global peace and security The book also develops post structural work in international relations by urging scholars interested in the linguistic construction of geopolitics to consider the ways in which bodies objects and architectures also reinforce particular ideas about war identity and statehood

Queen Victoria Charles V. Reed, 2025-01-07 Queen Victoria was until the 21st century the longest reigning monarch in British history and reigned over an empire on which the sun never set While countless volumes have been written about the Great Queen recent scholarly work has meaningfully explored the queen's and the monarchy's place and role in Britain's global empire as well as the place of the monarchy and the queen in the complex and often brutal history of British imperialism The long story of Victoria is the

story of multiple Victorias over the course of a long reign who was employed as a symbol of benevolent British rule who engaged some of her colonial subjects with interest and even empathy but who also supported and advocated for the worst excesses of British warfare and expansion Queen Victoria A Reference Guide to Her Life and Works explores the queen as well as the people events and ideas that shaped the life of the second longest reigning monarch in British history It features a chronology an introduction a bibliography and over 100 cross referenced dictionary entries It gives particular attention to the imperial and global impact of the queen s rule and her engagement with various colonial subjects across the globe

Adopting the Tune of Term: An Mental Symphony within **Royal Warriors A Military History Of The British Monarchy**

In some sort of used by displays and the ceaseless chatter of instant communication, the melodic splendor and psychological symphony produced by the published term usually diminish in to the backdrop, eclipsed by the constant sound and interruptions that permeate our lives. Nevertheless, located within the pages of **Royal Warriors A Military History Of The British Monarchy** a marvelous literary prize brimming with fresh thoughts, lies an immersive symphony waiting to be embraced. Constructed by a wonderful musician of language, that captivating masterpiece conducts readers on a mental journey, skillfully unraveling the hidden tunes and profound influence resonating within each cautiously crafted phrase. Within the depths with this poignant review, we will investigate the book is central harmonies, analyze their enthralling publishing style, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
