Royal Britain from the Air Aerial Images,1996-12-12 **A - Airports** British Library,2012-05-21 No detailed description available for A Airports **Air University Library Index to Military Periodicals** ,1965 **Britain's War At Sea, 1914-1918** Greg Kennedy,2016-04-20 In Britain memory of the First World War remains dominated by the trench warfare of the Western Front Yet in 1914 when the country declared war the overwhelming expectation was that Britain s efforts would be primarily focussed on the sea As such this volume is a welcome corrective to what is arguably an historical neglect of the naval aspect of the Great War As well as reassessing Britain s war at sea between 1914 and 1918 underlining the oft neglected contribution of the blockade of the Central Powers to the ending of the war the book also offers a case study in ideas about military planning for the next war Questions about how next wars are thought about planned for and conceptualised and then how reality actually influences that thinking have long been and remain key concerns for governments and military strategists The essays in this volume show what realities there are to think about and how significant or not the change from pre war to war was This is important not only for historians trying to understand events in the past but also has lessons for contemporary strategic thinkers who are responsible for planning and preparing for possible future conflict Britain s pre war naval planning provides a perfect example of just how complex and uncertain that process is Building upon and advancing recent scholarship concerning the role of the navy in the First World War this collection brings to full light the dominance of the maritime environment for Britain in that war and the lessons that has for historians and military planners **The Journal of the Royal Anthropological Institute of Great Britain and Ireland** ,1875 **Kent Britain's Frontline County** Clive Holden,2017-04-15 A fascinating insight into Kent s long and distinguished military defence heritage *The Royal Navy's Air Service in the Great War* David Hobbs,2017-09-30 In a few short years after 1914 the Royal Navy practically invented naval air warfare not only producing the first effective aircraft carriers but also pioneering most of the techniques and tactics that made naval air power a reality By 1918 the RN was so far ahead of other navies that a US Navy observer sent to study the British use of aircraft at sea concluded that any discussion of the subject must first consider their methods Indeed by the time the war ended the RN was training for a carrier borne attack by torpedo bombers on the German fleet in its bases over two decades before the first successful employment of this tactic against the Italians at Taranto Following two previously well received histories of British naval aviation David Hobbs here turns his attention to the operational and technical achievements of the Royal Naval Air Service both at sea and ashore from 1914 to 1918 Detailed explanations of operations the technology that underpinned them and the people who carried them out bring into sharp focus a revolutionary period of development that changed naval warfare forever Controversially the RNAS was subsumed into the newly created Royal Air Force in 1918 so as the centenary of its extinction approaches this book is a timely reminder of its true significance **Proceedings of the Royal Philosophical Society of Glasgow** Royal

Philosophical Society of Glasgow,1895 The Official Index to The Times ,1916 **The Royal Flying Corps, the Western Front and the Control of the Air, 1914-1918** James Pugh,2017-05-12 By the middle of 1918 the British Army had successfully mastered the concept of all arms warfare on the Western Front This doctrine integrating infantry artillery armoured vehicles and crucially air power was to prove highly effective and formed the basis of major military operations for the next hundred years Yet whilst much has been written on the utilisation of ground forces the air element still tends to be studied in isolation from the army as a whole In order to move beyond the usual aircraft and aces approach this book explores the conceptual origins of the control of the air and the role of the Royal Flying Corps RFC within the British army In so doing it addresses four key themes First it explores and defines the most fundamental air power concept the control of the air by examining its conceptual origins before and during the First World War Second it moves beyond the popular history of air power during the First World War to reveal the complexity of the topic Third it reintegrates the study of air power during the First World War specifically that of the RFC into the strategic operational organisational and intellectual contexts of the era as well as embedding the study within the respective scholarly literatures of these contexts Fourth the book reinvigorates an entrenched historiography by challenging the usually critical interpretation of the RFC s approach to the control of the air providing new perspectives on air power during the First World War This includes an exploration of the creation of the RAF and its impact on the development of air power concepts *Royal Artillery Glossary* Philip Jobson,J B A Bailey,2016-09-02 Since its creation in 1716 the Royal Artillery has been a cornerstone of the British Armed Forces as their motto Ubique Everywhere implies In this book Philip Jobson has collated the enormous and complex artillery lexicon which has accumulated since that day as dynamic as its subject to keep pace with technical and tactical innovation The development of indirect fire counter battery anti tank and anti aircraft fire all required a novel vocabulary as did advances in survey and locating Changes in communication from shouts to flags to line to radio to compressed data transmission all left their mark on the language Epic in scope and detail even the most expert Gunner would be likely to fail an unseen test based on this work It will therefore be a pleasure to those who think themselves expert to browse this volume and will serve as an invaluable reference for historians and researchers to ensure that they use the correct term and understand its true meaning

Faces of HMS Royal Oak Dilip Sarkar,2023-12-30 On 14 October each year a White Ensign is placed on the stern of an upturned warship by Royal Navy divers This act commemorates the 835 men of HMS Royal Oak who died in 1939 when the battleship was sunk at anchor in Scapa Flow by the German U boat U 47 The sinking of the veteran First World War Revenge class Royal Oak shocked not only the Admiralty but the whole nation Though Scapa Flow was far from being impregnable as a base for the Royal Navy s Home Fleet it was surrounded by a ring of islands separated by shallow channels subject to fast racing tides While it was recognized that it was not impervious to enemy submarines measures had been put in place to minimize any such threat Blockships had been sunk at potentially vulnerable points and anti submarine booms deployed

across the wider channels The outbreak of war in September 1939 saw additional anti submarine measures put in hand Despite these increased precautions German aerial reconnaissance had spotted weaknesses which were exploited on the night of 13 14 October 1939 by Kapit nleutnant G nther Prien in U 47 The German submarine was able to slip into Scapa Flow undetected and fire three torpedoes towards Royal Oak Only one torpedo found its mark A second salvo was fired and this time all three hit the battleship igniting a magazine causing massive damage Within thirteen minutes HMS Royal Oak had turned over and sank In Faces of HMS Royal Oak Dilip Sarkar not only reveals the tragic and moving stories of many of those who died but also some of the 399 who survived the sinking of the first Royal Navy battleship lost in the Second World War Through their photographs and in some cases words the horrors of those fateful few minutes as Royal Oak rolled and slid into the cold dark waters of Scapa Flow are relived in startling clarity [Professional Journal of the United States Army](#),1939-06

British Naval Aviation in World War II Gilbert S. Guinn,G. H. Bennett,2007-07-20 On the outcome of the Battle of the Atlantic from 1939 to 1945 depended Britain s survival in the midst of a global war The need to control the sealanes to Britain was mirrored by a need to control the skies above Carrier based aircraft and seaplanes would play an important role in defeating the German submarine menace and in combating her surface fleet However at the start of World War II Britain possessed neither the training or industrial establishment necessary to develop this arm of warfare From 1940 onwards the United States provided answers to the problem firstly in the form of American built aircraft then American built aircraft carriers and finally American trained pilots Even before the Japanese attack on Pearl Harbor Royal Air Force and Fleet Air Arm pilots were being trained in the United States under a scheme set up by the United States Navy as part of the Lend Lease agreement In the safer skies over the United States American Navy pilots would train British aviation cadets how to fly and to fight This process is examined from a variety of different perspectives including the military diplomatic educational and cultural For many young British aviation cadets the journey across the Atlantic and across America was as surprising as it was lengthy Many would find themselves caught up with issues such as segregation in the American South of which they had little understanding The book is based on interviews and correspondence with hundreds of former cadets who trained in the United States in the 1940s together with material from the British and American archives **Australia's Few and the Battle of Britain** Kristen Alexander,2015-04-30 During the summer and autumn of 1940 the Germans launched their Luftwaffe campaign to gain superiority over the RAF especially Fighter Command They were not successful and this defeat marked a turning point in the Allies favour This is the story of eight Australian fighter pilots engaged in the Battle of Britain the first major battle of World War II or any war fought entirely in the air Jack Kennedy Stuart Walch Dick Glyde Ken Holland Pat Hughes Bill Millington John Crossman and Des Sheen only one of them came home A story we take for granted here told afresh with insight and empathy Professor Peter Stanley UNSW CanberraIn telling the stories of some of the Australians who flew in the Battle of Britain Kristen Alexander has combined academic rigour with compelling personal detail

She has demonstrated that the unknowns of the Battle are as fascinating as those who gained celebrity status This is a book for those who know much about what happened in 1940 and those who don't Geoff Simpson Trustee Battle of Britain Memorial Trust The lives of eight Australian fighter pilots from backyard to cockpit and beyond lovingly and expertly told Andy Wright Aircrew Book Review *Journal of the Royal United Service Institution* Royal United Services Institute for Defence Studies, 1924 *Current Catalog* National Library of Medicine (U.S.), 1968 First multi year cumulation covers six years 1965-70 Quarterly Journal of the Royal Meteorological Society Royal Meteorological Society (Great Britain), 1904 Vols 10-11 include Meteorology of England by James Glaisher as separately paged section at end **World War I** Spencer C. Tucker, 2019-05-10 Offers detailed coverage of every country that played a significant role in World War I from key participants including France Germany Great Britain the Ottoman Empire and the United States to smaller nations such as Bulgaria Montenegro and New Zealand World War I A Country by Country Guide is a comprehensive reference exploring the role various nations played in this devastating conflict Each of the 22 country sections provides detailed background information the reasons behind the country's entry into the war a summary of its combat effort in the war a discussion of the home front experience and a description of the war's impact on that nation Illuminating sidebars offer an interesting war anecdote involving each country while essays survey each country's military branches and key military and political leaders Finally a timeline for each nation covers all of the important events involving that country during World War I In addition to the country coverage a battles section offers entries on 18 of World War I's most important engagements and a separate section on weapons and tactical changes is included The book also features dozens of maps and images throughout the text that serve as important visual aids that help readers to understand all aspects of the conflict **Flight**, 1927
