Griffith Hunte,2014-06-10 The social probability theories and historical natural observations contained in this book were developed over many years and others are based on observations and current events in history I have also included two new

products I discovered while living in my native country of Saint Lucia. Additionally, I review the world, its beauty, and its history. Humanity has reached a milestone. While in Saint Lucia, I noted several alien sightings and have shared my observations of these sightings through this book. I reviewed many natural and historical observations, have looked at the world, and saw the wonder it contains. The reader will see references to Mind Probe technology. This technology is used by governments with the technology to conduct systematic checks on people of interest. I became aware of the technology while living in Saint Lucia because of the alien sightings I witnessed and the conclusions I drew from those sightings. It is imperative that as a society, we do not perceive these alien visitors as a threat. It is my summation that they can be the harbingers of great technology and enhanced medical care that will benefit humanity. I hope that with the writing of this book, the scientific community and committee that discusses these phenomena will welcome me as a member because I believe I can contribute greatly to their investigation of the alien presence that I surmise have been visiting earth for thousands, if not millions, of years.

Steven Jackson was raised in England on the wrong side of the tracks, the Black Country, where there's no right side. After a convoluted journey through life, he's content to bask in the Arizona sun and in his wife's attentions. His only contact with England is via the Internet or his infrequent visits to the British and Dominion Club near Long Beach. His English fix. Into this idyll comes a letter from the British Embassy inviting him to discuss a matter of some delicacy. Steven allows his wife Pamela to persuade him to respond to the letter only because the consulate is on the way to the beach at Santa Monica. Fish and chips at the Kings Head, a visit with friends, and maybe even some cricket. The news is not what he expects; he learns that he has a twenty-two-year-old daughter named Judith, a potential son-in-law, and some very distinguished in-laws. He finds himself embroiled in the preparations for a royal wedding and suddenly in conflict with two of his least favorite institutions: the British government and the media.
