Clarke,Anngret Simms,2017-07-14 This volume is based on possibly the biggest single Europe wide project in urban history In 1955 the International Commission for the History of Towns established the European historic towns atlas project in accordance with a common scheme in order to encourage comparative urban studies Although advances in urban archaeology since the 1960s have highlighted the problematic relationship between the oldest extant town plan and the actual origins of a town the large scale cadastral maps as they have been made available by the European historic towns atlas project are still necessary if we want to understand the evolution of the physical form of our towns By 2014 the project consisted of over 500 individual publications from over 18 different countries across Europe Each atlas comprises at least a core map at the scale of 1:2500 analytical maps and an explanatory text The time has come to use

this enormous database that has been compiled over the last 40 years This volume itself based on a conference related to this topic that was held in the Royal Irish Academy in Dublin in 2006 takes up this challenge The focus of the volume is on the question of how seigneurial power influenced the creation of towns in medieval Europe and of how this process in turn influenced urban form Part I of the volume addresses two major issues the history of the use of town plans in urban research and the methodological challenges of comparative urban history Parts II and III constitute the core of the book focusing on the dynamic relationship between lordship and town planning in the core area of medieval Europe and on the periphery In Part IV the symbolic meaning of town plans for medieval people is discussed Part V consists of critical contributions by an archaeologist an art historian and an historical geographer By presenting case studies by leading researchers from different European countries this volume combines findings that were hitherto not available in English A comparison of the English and German bibliographies attached to this volume reveals some interesting insights as to how the focus of research shifted over time The book also shows how work on urban topography integrates the approaches of the historian archaeologist and historical geographer The narrative of medieval urbanization becomes enriched and the volume is a genuine contribution to European studies *European Cities and Towns* Peter Clark,2009-01-30 Since the Middle Ages Europe has been one of the most urbanized continents on the planet and Europe s cities have firmly stamped their imprint on the continent s economic social political and cultural life This study of European cities and towns from the fall of the Roman Empire to the present day looks both at regional trends from across Europe and also at the widely differing fortunes of individual communities on the roller coaster of European urbanization Taking a wide angled view of the continent that embraces northern and eastern Europe as well as the city systems of the Mediterranean and western Europe it addresses important debates ranging from the nature of urban survival in the post Roman era to the position of the European city in a globalizing world The book is divided into three parts dealing with the middle ages the early modern period and the nineteenth and twentieth centuries with each part containing chapters on urban trends the urban economy social developments cultural life and landscape and governance Throughout the book addresses key questions such as the role of migration including that of women and ethnic minorities the functioning of competition and emulation between cities as well as issues of inter urban cooperation the different ways civic leaders have sought to promote urban identity and visibility the significance of urban autonomy in enabling cities to protect their interests against the state and not least why European cities and towns over the period have been such pressure cookers for new ideas and creativity whether economic political or cultural **The 50 Greatest Castles and Palaces of the World** Gilly Pickup,2019-03-07 Castles and palaces around the world are structures of grandeur might and beauty From the flamboyance of Germany s fairy tale Neuschwanstein Castle to the gothic Dracula inspiring Bran Castle perched high in the craggy peaks of Romania s Carpathian Mountains Tokyo s Imperial Palace previously home to samurai warriors to Ireland s Blarney Castle where the gift of the gab will be granted to any who kiss its stone the world s castles and

palaces are steeped in history and stories to tell Travel writer and journalist Gilly Pickup shares these stories providing a tour of 50 of the world's greatest castles and palaces filled with humour interesting facts and tips on how best to visit them

Seats of Power in Europe during the Hundred Years War Anthony Emery, 2015-12-31 The Hundred Years War between England and France is a story of an epic conflict between two nations whose destinies became inextricably entwined throughout the later Middle Ages During that time the balance of architectural power moved from religious to secular domination the Gothic form continued to grow and the palace fortress was in the ascendancy Seats of Power in Europe is a major new study of the residences of the crowned heads and the royal ducal families of the countries involved in the Hundred Years War Though they were the leading protagonists and therefore responsible for the course of the war do their residences reflect an entirely defensive purpose a social function or the personality of their builders As well as the castles of England and France it also looks at rulers residences in other European countries who supported one of the protagonists They include Scotland Castile Aragon Navarre Portugal the Low Countries the imperial territories of Bohemia and the papacy in Avignon and then Rome The study concentrates on sixty properties extending from the castles at Windsor and Denilworth to those at Saumur and Rambures and from the palaces at Avignon and Seville to the manor houses at Germolles and Launay A number of subsidiary or associated properties are also considered in more broad based sections Each region and its residences are prefaced by supporting historical and architectural surveys to help position the properties against the contemporary military financial and aesthetic backgrounds Extensively illustrated in full color with over 120 photographs and over 70 plans this is an attractive and accessible overview of how architecture both shaped and was influenced by events during this tumultuous period in the history of Europe Essential reading for students of architecture architectural historians historians and those interested in Medieval Europe The Hundred Years War between England and France is a story of an epic conflict between two nations whose destinies became inextricably entwined throughout the later Middle Ages During that time the balance of architectural power moved from religious to secular domination the Gothic form continued to grow and the palace fortress was in the ascendancy Seats of Power in Europe is a major new study of the residences of the crowned heads and the royal ducal families of the countries involved in the Hundred Years War Though they were the leading protagonists and therefore responsible for the course of the war do their residences reflect an entirely defensive purpose a social function or the personality of their builders As well as the castles of England and France it also looks at rulers residences in other European countries who supported one of the protagonists They include Scotland Castile Aragon Navarre Portugal the Low Countries the imperial territories of Bohemia and the papacy in Avignon and then Rome The study concentrates on sixty properties extending from the castles at Windsor and Denilworth to those at Saumur and Rambures and from the palaces at Avignon and Seville to the manor houses at Germolles and Launay A number of subsidiary or associated properties are also considered in more broad based sections Each region and its residences are prefaced by supporting historical and

Franz Heinrich Ungewitter,1854 Peter the Great Paul

Bushkovitch,2001-09-27 A narrative of the fifty years of political struggles at the Russian court 1671 1725 This book shows how Peter the Great was not the all powerful tsar working alone to reform Russia but that he colluded with powerful and contentious aristocrats in order to achieve his goals After the early victory of Peter s boyar supporters in the 1690s Peter turned against them and tried to rule through favourites an experiment which ended in the establishment of a decentralized aristocratic administration followed by an equally aristocratic Senate in 1711 The aristocrats hegemony came to an end in the wake of the affair of Peter s son Tsarevich Aleksei in 1718 After that moment Peter ruled through a complex group of favourites a few aristocrats and appointees promoted through merit and carried out his most long lasting reforms The outcome was a new balance of power at the centre and a new European conception of politics *The Sketch* ,1901

Staging Authority Eva Giloi,Martin Kohlrausch,Heikki Lempa,Heidi Mehrkens,Philipp Nielsen,Kevin Rogan,2022-10-24 Staging Authority Presentation and Power in Nineteenth Century Europe is a comprehensive handbook on how the presentation embodiment and performance of authority changed in the long nineteenth century It focuses on the diversification of authority what new forms and expressions of authority arose in that critical century how traditional authority figures responded and adapted to those changes and how the public increasingly participated in constructing and validating authority It pays particular attention to how spaces were transformed to offer new possibilities for the presentation of authority and how the mediatization of presence affected traditional authority The handbook s fourteen chapters draw on innovative methodologies in cultural history and the aligned fields of the history of emotions urban geography persona studies gender studies media studies and sound studies **Europe** Peter Rietbergen,2020-12-30 Fully revised updated and extended to include the momentous developments of 2020 this fourth edition of Peter Rietbergen s highly acclaimed Europe A Cultural History is a major and original contribution to the study of Europe The book examines the structures of culture in this part of Eurasia from the beginnings of human settlement on to the genesis of agricultural society of greater polities of urban systems and the slow transitions that resulted in a post industrial society and the individualistic mass culture of the present Using both economic and socio political analytical concepts the volume outlines cultural continuity and change in Europe through the lenses of literature the arts science technology and music to show the

continent's ever changing identities In a highly readable style it expertly contextualizes such diverse and wide ranging topics as Celtic society the Roman legal system the oppositions between elite and popular culture in pre industrial Europe Michelangelo's world view the interaction between the Enlightenment and Romanticism the growth of a society of time and money the appeal of fascism and other totalitarian ideologies and the ways the songs of Sting express late twentieth century thinking Structured both chronologically and thematically the text is distinctive in the attention consistently paid to the many ways Europe has been formed through its contacts with non European cultures especially those of Asia and the Americas This edition concludes with an epilogue that discusses the ways Europe's recent past including the long term efforts at further unification and the various forms of opposition against it has been both interpreted and misinterpreted the importance of globalization and the major challenges facing Europe in the present amongst which are the consequences of the pandemic of 2020 With a wide selection of illustrations maps excerpts from primary sources and even lyrics from contemporary songs to support its arguments the text remains the definitive cultural history of Europe for both the general reader and students of European history and culture Europe, Past and Present Franz Heinrich Ungewitter, 1850
