Managing Police Work Issues Analysis:

Managing Police Work Jack R. Greene, 1982-02 Seven articles explore defining and measuring the police role human resources planning professionalism internal communications and police citizen interactions A model for assessing police crime control effectiveness emphasizes organizational and environmental factors affecting crime prevention goals Urban police agencies should consider adopting a social planning perspective measuring effectiveness by how well police serve the actual users of their services rather than the abstract public An analysis of police personnel planning finds that external factors e g labor supply economic trends affecting data collection should be incorporated into any planning effort An examination of professionalism concludes that police meet few of the criteria for professional standing and that it would be dangerous to award police professional privileges such as confidentiality A discussion of citizen complaints against urban police suggests that minorities particularly blacks assessments of police performance are negatively affected by police practices Analyses based on the Managerial Grid and Johari Window measures help synthesize current thinking about police managers leadership and communication styles Examining internal communications from the perspective of the individual officer researchers find a moderate to weak association between officers assessments of communications and job satisfaction These findings are consistent with ethnographic interpretations and cast doubt on administrative assumptions derived from organizational and motivation theory The articles include references and study data Managing Criminal Justice Organizations Richard R.E. Kania, Richards P. Davis, 2014-09-19 This book studies the formal and informal nature of the organizations involved in criminal justice It will acquaint readers with the historical developments and application of managerial theories principles and problems of managing criminal justice organizations Covers management positions in criminal justice historical antecedents decisionmaking and planning staffing and personnel training and education

Interpreting Policework Roger Grimshaw, Tony Jefferson, 2023-03-31 In the 1980s there existed wide and often acrimonious disagreement over the purposes and objectives of police organizations the ways in which their activities were structured and their relations with the wider society Interpreting policework requires a rounded conception of policing based on both a thorough critique of the main theoretical trends in police sociology and close familiarity with actual patterns of policing on the streets in the stations and inside the police headquarters where key policies are formulated Originally published in 1987 the achievement of this book is that it combines rigorous theoretical analysis with a wealth of descriptive material drawn from first hand observation of policing and decision making at all levels and thus relates sociological theory to practice and political debate at the time The introduction provides a careful analysis of central theoretical and political strands in police sociology and proposes a new general conception of policework The authors go on to provide vivid illustrations of this conception from the worlds of uniformed unit beat patrols and resident beat officers and from the fora in which policy for operational practice is considered A final section draws the wider lessons of these concrete analyses for

sociological theory and for our understanding of past policy shifts from one form of beatwork to another and spells out the radical implications of the study for the political debate on the future of policing Interpreting Policework thus had relevance to students and researchers in police studies sociology public policy and the law at the time and will still be of historical interest today The authors are experienced researchers practised in investigating a wide range of criminological and social control issues

Leadership and Management in Police Organizations Matthew J. Giblin, 2016-09-16 Addresses the different management styles that are applicable to large as well as small police agencies Dr Michael Wigginton Jr University of Mississippi Built on a foundation of nearly 1 200 references *Leadership and Management in Police Organizations* is a highly readable text that shows how organizational theory and behavior can be applied to improve the operations leadership and management of law enforcement Author Matthew J Giblin emphasizes leadership and management as separate skills in successful police supervisors and executives illustrating to students how the two skills combine to improve individual and organizational efficacy in policing Readers will come away with a stronger understanding of why organizational decisions matter and the impact research can have on police departments

Encyclopedia of Police Science Jack Raymond Greene, 2006-10-23 In 1996 Garland published the second edition of the *Encyclopedia of Police Science* edited by the late William G Bailey The work covered all the major sectors of policing in the US Since then much research has been done on policing issues and there have been significant changes in techniques and in the American police system Technological advances have refined and generated methods of investigation Political events such as the terrorist attacks of September 11 2001 in the United States have created new policing needs while affecting public opinion about law enforcement These developments appear in the third expanded edition of the *Encyclopedia of Police Science* 380 entries examine the theoretical and practical aspects of law enforcement discussing past and present practices The added coverage makes the *Encyclopedia* more comprehensive with a greater focus on today's policing issues Also added are themes such as accountability the culture of police and the legal framework that affects police decision New topics discuss recent issues such as Internet and crime international terrorism airport safety or racial profiling Entries are contributed by scholars as well as experts working in police departments crime labs and various fields of policing
