Managing Public Lands In The Public Interest Environmental Regeneration:

Managing Public Lands in the Public Interest Benjamin C. Dysart, Marion Clawson, 1988-10-06 This collection of essays thoroughly discusses the controversies surrounding public land management Leading academics and policy makers examine various uses of public lands and the views of those who use these national resources The articles convey the varied interests and experiences of the authors in the field of land management yet all convey a number of crucial themes the impossibility of terminating public land use the necessity of continuing private use and multiple use the need for sound policies to ensure the land s productivity and the need for public involvement in land management This sweeping examination will interest land resource managers academics in environmental engineering and government policy makers **A Public Utility Model for Managing Public Land Recreation Enterprises** Thomas Paul Quinn, 2002 **Management Practices on Public Lands** United States. Congress. Senate. Committee on Interior and Insular Affairs. Subcommittee on Public Lands, 1971 **Public Interest in the Use of Private Lands** Benjamin C. Dysart, Marion Clawson, 1989-11-20 This third volume in the Environmental Regeneration Series sponsored by the Rene Dubos Center brings together original work by distinguished scholars and policy makers on the management of the nation s land resources As the editors note at the outset almost all questions of environmental quality or resource use ultimately focus upon the land And they argue because most food and energy production toxic waste storage resource use and other activities take place on privately owned land socially responsible resource related tradeoffs and good stewardship are at least as important for our private lands as for our public lands In their examination of the bases for public interest and control of privately owned lands the contributors consider the rights and obligations of the private owner the different natural resource situations regional variations and the sometimes conflicting goals of different interest groups The contributors pay particular attention to interrelationships in land use the linkages among all the components of resource systems and the necessity of expanding system boundary definitions beyond traditional technically oriented definitions Among the specific issues addressed are maintaining agricultural productivity siting concerns cross media environmental problems and multiple use considerations Individual chapters are devoted to such topics as effective toxics management biotechnology acid rain waste management the location of industrial facilities and nuclear waste packaging Taken together these essays will provide students of land management and policy makers in local and national government with a better understanding of the complex issues involved an understanding that should lead to better informed decision making about the responsible use of our nation s private lands **General Technical Report NE**, 1980 APAIS 1994: Australian public affairs information service , **Management Practices on Public Lands: Atlanta, Ga., July 23, 1971** United States.
