Michael A. Cusumano, 2012-07-19 As we continue in an era of simultaneous innovation and commoditization enabled by digital technologies managers around the world are asking themselves how can we both adapt to rapid changes in technology and markets and still make enough money to survive and thrive To provide answers to these important and urgent questions MIT Sloan School of Management Professor Michael Cusumano draws on nearly 30 years of research into the practices of global corporations that have been acknowledged leaders and benchmark setters including Apple Intel Google Microsoft Toyota Sony Panasonic and others in a range of high technology services and manufacturing industries These companies have also encountered major challenges in their businesses or disruptions to their core technologies If we look deeply enough he contends we can see the ideas that underpin the management practices that make for great companies and drive their strategic evolution and innovation capabilities From his deep knowledge of these organizations Cusumano distills six enduring principles that he believes have been in various combinations crucial to their strategy innovation management practices and ability to deal with change and uncertainty The first two principles platforms not just products and services especially for product firms are relatively new and broader ways of thinking about strategy and business models based on Cusumano s latest research The other four capabilities not just strategy or positioning the pull concept not just push economies of scope not just scale and flexibility not just efficiency all contribute to agility which is a mix of flexibility and speed Many practices associated with these ideas such as dynamic capabilities just in time production iterative or prototype driven product development flexible design and manufacturing modular architectures and component reuse are now commonly regarded as standard best practices These six enduring principles are essential in a new world dominated by platforms and technology enabled services **The State of Civil Society in Japan** Frank J. Japanese Targeting Jon Woronoff, 1992-06-18 A study of how industrial policy and targeting accelerated Japanese economic development and affected the rest of the world This book considers who targeted industries how they were chosen and what techniques were used to support them It examines both theory and practice of targeting **Mirror of Modernity** Stephen Vlastos, 1998-05 This collection of essays challenges the notion that Japan s present cultural identity is the simple

legacy of its pre modern and insular past Scholars examine age old Japanese cultural practices and show these to be largely creations of the modern era *Big Business and the Wealth of Nations* Alfred D. Chandler, Franco Amatori, Takashi Hikino, 1997 Written in nontechnical terms *Big Business and the Wealth of Nations* explains how the dynamics of big business have influenced national and international economies in the twentieth century A path breaking study it provides the first systematic treatment of big business in advanced emerging and centrally planned economies from the late nineteenth century when big businesses first appeared in American and West European manufacturing to the present These essays written by internationally known historians and economists help one to understand the essential role and functions of big businesses past and present Corporate Governance and Managerial Reform in Japan D. Hugh Whittaker, Simon F. Deakin, 2009-10-29 This book examines recent changes in Japanese corporate governance It is based on detailed field work in large Japanese companies and interviews with investors civil servants and policy makers in the period after the significant corporate law reforms in the early 2000s up to the months just before the global financial crisis of 2008 **A Companion to Japanese History** William M. Tsutsui, 2009-07-20 A Companion to Japanese History provides an authoritative overview of current debates and approaches within the study of Japan s history Composed of 30 chapters written by an international group of scholars Combines traditional perspectives with the most recent scholarly concerns Supplements a chronological survey with targeted thematic analyses Presents stimulating interventions into individual controversies
