Managing The Oil Wealth:

Managing the Oil Wealth Jahangir Amuzegar, 1999-12-31 Charting OPEC's rise, decline and virtual disappearance as a commercial force in the world, this text strives to unravel the puzzle of why so many countries all followed the same path to economic development and with such wretched consequences

Managing Oil Wealth Mr. Eric Le Borgne, Ms. Chonira Aturupane, Mr. Koba Gvenetadze, Mr. Niko Hobdari, Mr. John Wakeman-Linn, Mr. Stephan Danninger, 2004-04-21 Oil and gas production in Azerbaijan were projected to increase sharply in 2005 and 2006 respectively, reaching peaks of 1.3 million barrels a day in 2009 and 20 billion cubic meters a year in 2010. Although expected revenues over the next 20 years will be substantial, they are projected to return to 2004 levels by 2024. Managing this temporary windfall in a way that allows for economic diversification and increased living standards is the subject of this book, which provides extensive guidance based largely on lessons drawn from the experiences, mostly negative, of other countries

Managing the Oil Revenue Boom Mr. Mauricio Villafuerte, Mr. Rolando Ossowski, Mr. Theo Thomas, Mr. Paulo A. Medas, 2008-04-30 Oil-producing countries have benefited from rising oil prices in recent years. The increase in oil exports and oil revenues has had major implications for these countries. These developments have revealed how governments manage their fiscal policies in light of changing oil market conditions and the role of special fiscal institutions (SFIs). In this Occasional Paper, IMF experts examine the fiscal response of oil-producing countries to the recent oil boom and the role of SFIs in fiscal management; they review the experiences of selected countries and draw general lessons. In doing so, they link findings on best practice in the design of SFIs with broader fiscal management advice

Managing Guyana's Oil Wealth: Monetary and Exchange Rate Policy Considerations Ms. Rina Bhattacharya, 2022-11-11 International oil producers have discovered commercially recoverable petroleum reserves of around 11 billion barrels that promise to transform Guyana's agricultural and mining economy into an oil powerhouse while hopefully helping to diversify the non-oil economy. Oil production presents a momentous opportunity to boost inclusive growth and diversify the economy, providing resources to address human development needs and infrastructure gaps. At the same time, it presents important policy challenges relating to effective and prudent management of the nation's oil wealth. This study focusses on one of these challenges: the appropriate monetary policy and exchange rate framework for Guyana as it transitions to a major oil exporter

The Role of Fiscal Institutions in Managing the Oil Revenue Boom International Monetary Fund. Fiscal Affairs Dept., 2007-05-03 This paper examines the fiscal responses of oil-producing countries (OPCs) to the oil boom through 2005 and the role of special fiscal institutions (SFIs), oil funds, fiscal rules, and fiscal responsibility legislation (FRL) and budgetary oil prices in fiscal management in OPCs and draws some general lessons

Management of Oil Wealth Under the Permanent Income Hypothesis Alonso Segura, 2006-07 This paper documents the protracted process of shaping the rules governing oil operations in São Tomé and Príncipe. It analyzes the institutional framework for oil sector development, which applies Milton Friedman's permanent income

hypothesis to the management of oil resources So Tom and Principe is the first country in Africa to adopt this rule Finally the paper offers a preliminary quantitative analysis of the impact of oil sector development on government consumption and savings It shows that the country's oil wealth could be significant which would enable sustainable government consumption and intergenerational equity through a gradual buildup of the Permanent Fund for Future Generations

Oil Wealth in Central Africa Mr.Bernardin Akitoby,Ms.Sharmini Coorey,2012-08-16 Despite its vast oil wealth central Africa still struggles to sustain strong inclusive economic growth and to generate sufficient employment opportunities particularly for its fast growing youth population Drawing on new research Oil Wealth in Central Africa lays out the macroeconomic and growth challenges facing the region examines oil wealth management and its implications for poverty reduction and includes four case studies that exemplify lessons learned

Oil Wealth and Development in Uganda and Beyond Arnim Langer,Ukoha Ukiwo,Pamela Mbabazi,2020-01-07 Multidisciplinary perspectives to governance of oil in African countries Large quantities of oil were discovered in the Albertine Rift Valley in Western Uganda in 2006 The sound management of these oil resources and revenues is undoubtedly one of the key public policy challenges for Uganda as it is for other African countries with large oil and or gas endowments With oil expected to start flowing in 2021 the current book analyses how this East African country is preparing for the challenge of effectively efficiently and transparently managing its oil sector and resources Adopting a multidisciplinary comprehensive and comparative approach the book identifies a broad scope of issues that need to be addressed in order for Uganda to realise the full potential of its oil wealth for national economic transformation Predominantly grounded in local scholarship and including chapters drawing on the experiences of Nigeria Ghana and Kenya the book blazes a trail on governance of African oil in an era of emerging producers Oil Wealth and Development in Uganda and Beyond will be of great interest to social scientists and economic and social policy makers in oil producing countries It is suitable for course adoption across such disciplines as International Global Affairs Political Economy Geography Environmental Studies Economics Energy Studies Development Politics Peace Security and African Studies Contributors Badru Bukenya Makerere University Moses Isabirye Busitema University Wilson Bahati Kazi Uganda Revenue Authority Corti Paul Lakuma Economic Policy Research Centre Joseph Mawejje Economic Policy Research Centre Pamela Mbabazi Uganda National Planning Authority Martin Muhangi
