Maneras De Hacer Mundos:

Maneras de hacer mundos Nelson Goodman, 2015-07-17 Quisiera ilustrar y comentar algunos de los procesos que entran a formar parte de la construcción de un mundo sin afán alguno de instruir a dioses o a otros demiurgos y sin intentar que la investigación sea completa o sistemática Más que el hecho que algunos mundos en particular estén contruidos a partir de otros y el cómo es así me preocupan algunas de las relaciones que se dan entre esos mundos Entre lo que genéricamente suele denominarse filosofía analítica la obra de Goodman ocupa un lugar singular Su interés por los problemas de estética por los lenguajes del arte y por la representación artística son en este sentido determinantes Goodman escribe a propósito de *Maneras de hacer mundos* Hay pocas etiquetas filosóficas que le puedan valer cumplidamente a un libro que se opone tanto al empirismo como al racionalismo al materialismo y al idealismo como al dualismo al esencialismo como al existencialismo al mecanicismo y al vitalismo al misticismo y cientifismo por no mencionar otras ardientes teorías El resultado podrá tal vez describirse como un relativismo radical bajo rigurosas restricciones y que termina siendo algo parecido al irrealismo

Actuación, pensamiento y resistencia Carla Pessolano, 2025-05-23 Este libro busca pensar algunos aspectos de la escena contemporánea de Buenos Aires Actuación pensamiento y resistencia son los tres ejes conceptuales que habilitan la entrada a zonas muchas veces indescriptibles de la materialidad escénica Sin pretensión de exhaustividad este estudio se ocupa de un tipo de teatro particular aquel que se conforma por una constelación de creadores y creadoras que llamamos de resistencia Una escena resistente porque en su origen reconoce la centralidad de un cuerpo de actuación en tiempos en que predominaban los textos porque su búsqueda estética tiene una impronta antihegemónica fuera de formatos de actuación extranjeros prefijados exteriores o metódicos y porque condensa en su praxis una reflexión acerca de esa misma praxis Es decir piensa la actuación en la propia actuación y también produce nuevos contextos teóricos que no existían previamente El deseo y objetivo de este libro es compartir con los lectores y con los propios creadores esas teorías originales que solo germinan en el interior reflexivo del ensayo la práctica la escena
