Luncheons on the Grass Jeffrey Deitch, Aruna D'Souza, Marina Molarsky-Beck, Thomas E. Crow, 2024-04-09 Thirty five contemporary artists create their own version of Le D jeuner sur l herbe douard Manet s Le D jeuner sur l herbe 1863 is generally cited as the first modern painting The entry slide in art history lectures about modernism the work remains among the most audacious painting s ever seen in France as Ross King described it in *The Judgement of Paris* 2006 As Manet did with Le D jeuner sur l herbe the most provocative painters today collapse the historical and the contemporary onto one plane Jeffrey Deitch invited a group of these influential artists to create their own versions combined here with historical responses to Manet s painting The slim volume features these often biting and satirical works alongside essays discussing Le D jeuner sur l herbe s enduring influence on contemporary figurative painting **Monet** Christoph Heinrich, 2000 Monet was the most typical and the most individual Impressionist painter But while the painter was faithful and persevering in the pursuit of his motifs his personal life followed a more restless course Parisian by birth he discovered painting as a youth in the provinces where one of his homes Argenteuil has come to represent the artistic flowering and official establishment of Impressionism as a movement **Manet's Modernism** Michael Fried, 1996-07 Fried put forward a highly original beholder centered account of the evolution of a central tradition in French painting from Chardin to Courbet P 4 of cover [Origins of Impressionism](#) Gary Tinterow, Henri Loyrette, 1994 This handsome publication which accompanies a major exhibition at The Metropolitan Museum of Art is a lively and engaging account of the artistic scene in Paris in the 1860s the years that witnessed the beginnings of Impressionism For the first time the interactions and relationships among the group of painters who became known as the Impressionists are examined without the overworn art historical polarities commonly evoked academic versus avant garde classicist versus romantic realist versus impressionist A host of strong personalities contributed to this history and their style evolved into a new way of looking at the world These artists wanted above all to give an impression of truth and to have an impact on or even to shock the public And they wanted to measure up to or surpass their elders This complex and rich environment is presented here the grand old men and the young turks encounter each other the Salon pontificates and the new generation moves fitfully ahead benignly but always with determination Origins of

Impressionism gives a day by day year by year study of the genesis of an epoch making style Bibliographies and provenances are provided for each of the almost two hundred works in the exhibition and there is an illustrated chronology With more than two hundred superb colorplates this informative survey is an essential work for both the general reader and the scholar

BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Le Déjeuner sur l'herbe* Isolde Pludermacher,2025-09-04 *The Judgment of Paris* Ross King,2012-01-11 Another fascinating book by the author of Brunelleschi's Dome and Michelangelo and the Pope's Ceiling a saga of artistic rivalry and cultural upheaval in the decade leading to the birth of Impressionism If there were two men who were absolutely central to artistic life in France in the second half of the nineteenth century they were Edouard Manet and Ernest Meissonier While the former has been labelled the Father of Impressionism and is today a household name the latter has sunk into obscurity It is difficult now to believe that in 1864 when this story begins it was Meissonier who was considered the greatest French artist alive and who received astronomical sums for his work while Manet was derided for his messy paintings of ordinary people and had great difficulty getting any of his work accepted at the all important annual Paris Salon Manet and Meissonier were the Mozart and Salieri of their day one a dangerous challenge to the establishment the other beloved by rulers and the public alike for his painstakingly meticulous oil paintings of historical subjects Out of the fascinating story of their parallel careers Ross King creates a lens through which to view the political tensions that dogged Louis Napoleon during the Second Empire his ignominious downfall and the bloody Paris Commune of 1871 At the same time King paints a wonderfully detailed and vivid portrait of life in an era of radical social change When Manet painted *Dejeuner sur l'herbe* or *Olympia* he shocked not only with his casual brushstrokes but with his subject matter top hatted white collar workers and their mistresses were not considered suitable subjects for Art Ross King shows how benign as they might seem today these paintings changed the course of history The struggle between Meissonier and Manet to see their paintings achieve pride of place at the Salon was not just about artistic competitiveness it was about how to see the world Full of fantastic tidbits of information and a colourful cast of characters that includes Baudelaire Courbet and Zola with walk on parts for Monet Renoir Degas and Cezanne *The Judgment of Paris* casts new light on the birth of Impressionism and takes us to the heart of a time in which the modern French identity was being forged

The Harlequin Eaters Janet Beizer,2024-04-02 How representations of the preparation sale and consumption of leftovers in nineteenth century urban France link socioeconomic and aesthetic history The concept of the harlequin refers to the practice of reassembling dinner scraps cleared from the plates of the wealthy to sell repasted to the poor in nineteenth century Paris In *The Harlequin Eaters* Janet Beizer investigates how the alimentary harlequin evolved in the nineteenth and early twentieth centuries from the earlier similarly patchworked *Commedia dell'arte* Harlequin character and can be used to rethink the entangled place of class race and food in the longer history of modernism By superimposing figurations of the edible harlequin taken from a broad array of popular and canonical novels newspaper

articles postcard photographs and lithographs Beizer shows that what is at stake in nineteenth century discourses surrounding this mixed meal are representations not only of food but also of the marginalized people the harlequin eaters who consume it at this time when a global society is emerging She reveals the imbrication of kitchen narratives and intellectual aesthetic practices of thought and art presenting a way to integrate socioeconomic history with the history of literature and the visual arts The Harlequin Eaters also offers fascinating background to today s problems of food inequity as it unpacks stories of the for profit recycling of excess food across class and race divisions
