Manila Workers Unions 1900-1950:

Manila Workers' Unions, 1900-1950 Melinda Tria Kerkvliet, 1992 **Asian Labor in the Wartime Japanese Empire** Paul H. Kratoska, 2014-12-18 During the Pacific War the Japanese government used a wide range of methods to recruit workers for construction projects throughout the occupied territories. Mistreatment of workers was a major grievance both in widely publicized cases such as the use of prisoners of war and forced Asian labor to construct the Thailand-Burma Death Railway and in a very large number of smaller projects. In this book an international group of specialists on the Occupation period examine the labor needs and the recruitment and use of workers whether forced military or otherwise throughout the Japanese empire. This is the first study to look at Japanese labor policies comparatively across all the occupied territories of Asia during the war years. It also provides a graphic context for examining Japanese colonialism and relations between the Japanese and the people living in the various occupied territories. **American Workers, Colonial Power** Dorothy B. Fujita-Rony, 2003-03-04 An immensely ambitious book. American Workers Colonial Power is a regional history with ever widening spatial and social circles each one layered and complex. Filipina o Seattle this study shows reflects and exemplifies much of the American West and U.S. and affirms the mutually influential relationship especially in terms of culture between the U.S. and the Philippines. This is a work of deep scholarship and broad significance. Gary Y. Okihiro author of *Common Ground: Reimagining American History*. **U.S. Imperialism and Revolution in the Philippines** E. San Juan, Jr., 2007-09-03 Please note this is a Palgrave to Order title. PTO Stock of this book requires shipment from an overseas supplier. It will be delivered to you within 12 weeks. This book offers the first history of the Filipinos in the United States focusing on the significance of the Moro people's struggle for self-determination. **Transnational Labour History** Marcel van der Linden, 2017-07-05 There has been a growing recognition amongst scholars that labour historians need to look beyond national borders in order to place the history of the working classes into a much broader context than has hitherto been the case. Whilst studies focused on individual countries are essential it is only by comparing and contrasting the experiences across time and space that a true understanding of the subject can be attempted. Professor Marcel van der Linden has contributed much to the debate on cross-border processes and comparisons. This volume makes available in English a collection of twelve of his most important essays on the theme of transnational labour history. Previously published in a range of journals and volumes with two original contributions *Transnational Labour History* brings them together in a single convenient collection together with a new introduction. This work will undoubtedly provide an invaluable resource for all students of European labour history. **Workers of the World** Marcel van der Linden, 2008-10-02 The studies offered in this volume integrate the history of wage labor of slavery and of indentured labor. They contribute to a Global Labor History freed from Eurocentrism and methodological nationalism. **Law and Labour Market Regulation in East Asia** Sean Cooney, Tim Lindsey, Richard Mitchell, Zhu Ying, 2003-08-29 This edited collection examines the labour laws of seven

industrializing East Asian societies China Indonesia Malaysia South Korea Taiwan the Philippines and Vietnam and discusses the variation in their impact across the whole region Leading scholars from each country consider both laws pertaining to working conditions and industrial relations and those that regulate the labour market as a whole Legislation concerning migrant labour gender equality employment creation and skills formation is also examined Adopting their own distinct theoretical perspectives the authors trace the historical development of labour regulation and reveal that most countries in the region now have quite extensive frameworks This book will be particularly useful to people interested in the place of labour law and law in general in contemporary East Asian societies *Menace to Empire* Moon-Ho Jung, 2023-12-12 *Menace to Empire* is a profoundly original and ambitious book a history of race and empire that traces both the colonial violence and the anticolonial rage that the United States spread across the Pacific between the Philippine American War and World War II Author Moon Ho Jung argues that the US national security state as we know it was born out of attempts to repress and silence colonized subjects from the Philippines and Hawai i to California and beyond whose anticolonial aspirations challenged US claims to sovereignty Jung examines how the contradictions of race nation and empire generated waves of revolutionary movements spanning the Pacific anticolonial antiracist and labor movements that exposed and confronted the US empire In response the US state closely monitored and brutally suppressed those movements by racializing particular politics and distinct communities as seditious exaggerating fears of pan Asian solidarities and sowing anti Asian racism under the guise of national security *Menace to Empire* transforms familiar themes in American history to highlight the critical role of colonial violence in the formation of radical movements and the antiradical origins of anti Asian racism Radicalized by their opposition to the US empire and racialized as threats to US security peoples in and from Asia pursued a revolutionary politics that gave rise to the national security state the heart and soul of the US empire ever since Provided by publisher

Freedom Incorporated Colleen Woods, 2020-05-15 *Freedom Incorporated* demonstrates how anticommunist political projects were critical to the United States expanding imperial power in the age of decolonization and how anticommunism was essential to the growing global economy of imperial violence in the Cold War era In this broad historical account Colleen Woods demonstrates how in the mid twentieth century Philippines US policymakers and Filipino elites promoted the islands as a model colony In the wake of World War II as the decolonization movement strengthened those same political actors pivoted and after Philippine independence in 1946 lauded the archipelago as a successful postcolonial democracy Officials at Malaca ang Palace and the White House touted the 1946 signing of the liberating Treaty of Manila as a testament to the US commitment to the liberation of colonized people and celebrated it under the moniker of Philippine American Friendship Day Despite elite propaganda from the early 1930s to late 1950s radical movements in the Philippines highlighted US hegemony over the new Republic of the Philippines and in so doing threatened American efforts to separate the US from sordid histories of empire imperialism and the colonial racial order Woods finds that in order to justify US intervention in an ostensibly

independent Philippine nation anticommunist Filipinos and their American allies transformed local political struggles in the Philippines into sites of resistance against global communist revolution By linking political struggles over local resources like the Hukbalahap Rebellion in central Luzon to a war against communism American and Filipino anticommunists legitimized the use of violence as a means to capture and contain alternative forms of political economic and social organization Placing the post World War II history of anticommunism in the Philippines within a larger imperial framework in Freedom Incorporated Woods illustrates how American and Filipino intelligence agents military officials paramilitaries state bureaucrats academics and entrepreneurs mobilized anticommunist politics to contain challenges to elite rule in the Philippines
