Man's World, Woman's Place Elizabeth Janeway, 1977

Man's World Woman's Place Elizabeth Janeway, 1971

A Woman's Place Shirley Morahan, 1981-06-30 A truly liberated rhetoric and reader has at last become available to courses in composition with the publication of *A Woman's Place*. This unique textbook explores the notion of writing as self definition and as a consequence the relationship between gender and writing. Convinced that writing is a meaningful process performed with commitment Dr Morahan has created a course that simultaneously sharpens writing and thinking skills and contributes to the consciousness raising of women and men in today's world. Her pedagogy for liberation creates a student centered classroom in which a spirit of collaboration replaces one of competition by means of peer editing tutorial approaches and small group activities. The literary passages of *A Woman's Place* are both stylistically and thematically tied in with the lessons directly. At the same time they function as a compact women's studies course. Research and writing are organized around a cluster of shared themes: problems that all students are addressing in their lives: power vs powerlessness, passivity vs action, identity, oppression vs freedom and the nurturance of creativity. Taken from the works of professional writers including such well known individuals as Adrienne Rich, Tillie Olsen, Joan Didion, Virginia Woolf, Margaret Mead, Mary Wollstonecraft, Jonathan Swift and Sylvia Plath, they are often accompanied by short excerpts from student essays. Useful bibliographical notes suggest further readings.

Man's World, Women's Place ELIZABETH HALL. JANEWAY, 1971

The Social Reconstruction of the Feminine Character Sondra Farganis, 1996-06-30 A classic in feminist theory *The Social Reconstruction of the Feminine Character* is a stimulating and thought provoking book that brings to light the ways in which views of women are shaped by concrete conditions. It compares feminism to other contemporary social movements that are raising questions about advanced industrial society. In this new edition Farganis includes chapters on feminist legal theory and queer theory and updates the chapters on science, reason and morality.

The Power of Femininity in the New South Anastatia Sims, 1997 *The Power of Femininity in the New South* demonstrates how the legendary strength and moral authority of the South's steel magnolias inspired turn of the century women to move from the parlor to the political arena. With a comprehensive examination of the women's voluntary associations that proliferated in North Carolina between 1880 and 1930, Anastatia Sims chronicles the emergence of women both black and white in a political terrain torn between the tyranny of white supremacy and the promise of Progressive reform. She tells how organized women, as they called themselves, came to terms with a sacred cultural icon of the antebellum South: the complex, often contradictory ideal of southern femininity, and how they explored the ideal's possibilities, discovered its limitations, and ultimately transformed it by their own actions.

The Myth of Superwoman Resa L. Dudovitz, 2019-10-01 Reviled by critics but loved by the readers, the bestseller has until recently provoked little serious critical interest. In *The Myth of Superwoman*, originally published in 1990, Resa Dudovitz looks at this international phenomenon, particularly at the origins of the bestseller system in the United States.

and France Her cross cultural study including interviews with publishers literary agents and bestselling authors gives a lively picture of the contrasting ways in which the bestseller is produced marketed and received in two countries It pays special attention to the international bestsellers of the 1980s to writers like Judith Krantz Colleen McCullough and Barbara Taylor Bradford all of whose novels are published in the United States Britain France Germany and Italy The book presents a general analysis of women s bestsellers ranging over a wide variety of novels from popular nineteenth century texts in France and the United States to the novels of today Dudovitz shows how women s bestselling fiction has over the last two hundred years kept pace with the social evolution of contemporary women culminating in the myth of superwoman in women s bestsellers of the 1980s This fascinating account of an important aspect of popular culture will be of great value to students of women s studies and cultural studies especially those interested in the myths which structure women s bestselling fiction
