Greatest Military Mission Stories Ever Told Tom McCarthy, 2022-11-01 The orders to proceed were nothing more than an invitation to die and usually in unpleasant ways But the soldiers proceeded nonetheless because a higher cause was at stake This stunning collection of stories is a tribute to the courage steely resolve and discipline of men who accomplished daunting missions in the face of almost certain death Nonetheless they stepped into the breach and performed heroically That was their duty and they did not question They had a mission and they accepted Here are ten powerful stories of American soldiers and sailors that span more than 200 years of action with one common theme summed up succinctly a participant who took control of Omaha Beach on D Day 1944 We were doing the very thing that we had trained so long to do and we were fascinated and eagerly excited about it We realized that any number of things might happen to us and knew too that some things we d never dreamed of might very well be waiting for us on the beach From Marines taking Iwo Jima s Mount Suribachi or defending Khe San Navy pilots taking to the air to defend Pearl Harbor or an outnumbered American regiment in Korea defeating the Chinese at the Battle of Chipyong ni courage was the common watchword death the common consequence Such is the lot of soldiers everywhere Here is a not so gentle reminder of the price of freedom paid by American men for more than 200 years of struggle from the Revolutionary War the Spanish American War Civil War World War II Korea and Viet Nam **More Amazing True Mission Stories from Around the World** J. Sharp, 2022-07-08 Most everything in the world has changed since the age of the Greatest Missionary Generation which was an outpouring of missionaries

following World War II that lasted until around 1985 Today however missionaries are no longer welcomed in most of the world and Christian terms like evangelism church planting conversion and missions are considered pejorative outside of the Western world All this demands a reexamination of the theology of Missio Dei for today s world and a theory for change that can be validated with credible research Author and former missionary Larry Sharp believes that the era of professional missions as we ve known it is coming to an end But since God still seeks to redeem his world the future lies now with missional professionals with a new set of rules for how the gospel of Jesus Christ can be proclaimed Near the end of his life Billy Graham said The great work of God in the 21st century will be through everyday believers living out their faith in the workplace Since the first century AD there have been historical events such the persecution of the early church the Edict of Milan and the Protestant Reformation where major disruption resulted in the radical advance of the gospel We are on the cusp of another disruptive innovation Through real life narratives of international workplace professionals who have successfully integrated their faith with their work Missions Disrupted describes how this new work of missions looks today These inspiring stories come from the world of agriculture manufacturing medicine information technology education engineering music and retail It is up to the next generations to continue to share the Good News with the world wherever and however that may be
