**Screening Modernism** András Bálint Kovács, 2007 Casting fresh light on the renowned productions of auteurs like Antonioni Fellini and Bresson and drawing out from the shadows a range of important but lesser known works *Screening Modernism* is the first comprehensive study of European art cinema's postwar heyday Spanning from the 1950s to the 1970s András Bálint Kovács's encyclopedic work argues that cinematic modernism was not a unified movement with a handful of styles and themes but rather a stunning range of variations on the core principles of modern art Illustrating how the concepts of modernism and the avant garde variously manifest themselves in film Kovács begins by tracing the emergence of art cinema as a historical category He then explains the main formal characteristics of modern styles and forms as well as their intellectual foundation Finally drawing on modernist theory and philosophy along the way he provides an innovative history of the evolution of modern European art cinema Exploring not only modernism's

Smith, 2024-05-31 Since the time of Aristotle the making of knowledge and the making of objects have generally been considered separate enterprises Yet during the late sixteenth and early seventeenth centuries the two became linked through a new philosophy known as science In *The Body of the Artisan* Pamela H Smith demonstrates how much early modern science owed to an unlikely source artists and artisans From goldsmiths to locksmiths and from carpenters to painters artists and artisans were much sought after by the new scientists for their intimate hands on knowledge of natural materials and the ability to manipulate them Drawing on a fascinating array of new evidence from northern Europe including artisans objects and their writings Smith shows how artisans saw all knowledge as rooted in matter and nature With nearly two hundred images *The Body of the Artisan* provides astonishingly vivid examples of this Renaissance synergy among art craft and science and recovers a forgotten episode of the Scientific Revolution an episode that forever altered the way we see the natural world [Some More Thusettes](#) Eudorus Catlin Kenney, 1905 *Reflections* Monica Schuster, 2022-05-04 Kat and Rhina two straight women instantly fall in love leaving them with a desire to know how this could happen Their quest takes them on a journey through the past lives in which their souls had previously joined together They find that there is a very good reason for them to feel the way they do toward each other The characters they find in the past are entwined deeply with their present ones Rhina has had experience with this other world but Kat is shaken to the core on all levels In fact her transformation is the true crux of the story Rhina follows her own trail of discovery but Kat without deterrent seeks what she's never known She must use the knowledge of her own soul's past to help her find who she truly is in her present one This is a story of love discovery and trust with a whole mess of otherworldly palpable intangible matter thrown in Their journey crosses all boundaries in this world and others yet their love is only the lovely vessel in which the real story of courage and triumph unfold [Harvard and the Weatherhead Center for International Affairs \(WCFIA\)](#) Howard J.
