My Trip To California In 1849:

My Trip to California in 1849 James Carstarphen,1971-12-01 **My Trip to California in 1849** James Eula Carstarphen,1914 *My Trip to California in 1849* James Eula Carstarphen,Clayton Keith,1914 **American Burial Ground** Sarah Keyes,2023-10-24 In popular mythology the Overland Trail is typically a triumphant tale with plucky easterners crossing the Plains in caravans of covered wagons But not everyone reached Oregon and California Some 6 600 migrants perished along the way and were buried where they fell often on Indigenous land As historian Sarah Keyes illuminates their graves ultimately became the seeds of U S expansion By the 1850s cholera epidemics ordinary diseases and violence had remade the Trail into an American burial ground that imbued migrant deaths with symbolic power In subsequent decades U S officials and citizens leveraged Trail graves to claim Native ground Meanwhile Indigenous peoples pointed to their own sacred burial grounds to dispute these same claims and maintain their land These efforts built on anti removal campaigns of the 1820s and 30s which had established the link between death and territorial claims on which the significance of the Overland Trail came to rest In placing death at the center of the history of the Overland Trail American Burial Ground offers a sweeping and long overdue reinterpretation of this historic touchstone In this telling westward migration was a harrowing journey weighed down by the demands of caring for the sick and dying From a tale of triumph comes one of struggle defined as much by Indigenous peoples actions as it was by white expansion And finally from a migration to the Pacific emerges instead a trail of graves Graves that ultimately undergirded Native dispossession
