My Valley The Kananaskis:

My Valley the Kananaskis Ruth Oltmann,1997 Relates the fascinating history of the valley from Neolithic peoples to present day tourists The area was controlled by the Stoney Indians in the mid 1800 s when James Sinclair and Captain John Palliser travelled the valley in search of a pass across the Rocky Mountains In the early 1900 s trapper surveyors and gold seekers set the stage for the commercial exploitation of the 1940 s and 50 s when the valley became a source of lumber coal and power for the rapidly growing City of Calgary Nowadays the Kananaskis Valley is the heart of Kananaskis Country a multi use recreation area developed for Albertans in 1977 *Alberta Backcountry Equestrian One-Day Trail Guide* Pam Asheton,2011-02-01 Everything you need to know to explore on horseback Packed with interpretive notes on wildlife plants geology local history and horse language this book tells you where to go how to get there and what to do to have a successful one day ride **Lizzie Rummel** Ruth Oltmann,1983-05 Elizabeth von Rummel born into aristocracy in turn of the century Germany came with her family to live on a ranch in the Alberta foothills when working on it became the alternative to life in her World War One ravaged homeland Then when most people were settling into middle age Lizzie struck out on another challenge for 32 years she ran backcountry lodges like Skoki and Assiniboine for which she received the Order of Canada and the friendship of hundreds of people whose lives were enhanced by her special charm **Ghost Town Stories of Alberta** Johnnie Bachusky,2011-02-01 Today many of the historic coal mining communities of the Rocky Mountains are uninhabited ghost towns Yet behind the crumbled ruins are tales of perseverance danger and romance A devastating mine explosion on Halloween shatters the lives of mining families in Nordegg The miners of Mountain Park build a hockey rink still celebrated in local lore A young immigrant couple in Mercoal establishes a successful business only to have their love story sadly cut short These 11 dramatic and poignant ghost town tales are sure to fascinate all who love pioneer history **Integrated Resource and Environmental Management** ,2004 Integrated Resource and Environmental Management IREM can be defined as both a management process and a philosophy that takes into account the many values associated with natural resources within a particular area This book presents an overview and history of natural resource management from a global perspective It discusses the challenges facing IREM by examining issues such as conflict property rights and the role of science in the management of natural resource It also addresses the definition and application of IREM from several different contexts including real world applications planning frameworks and complex systems It provides a comprehensive aid in natural resource decision making within the context of the real world *Mountains Figured and Disfigured in the English-Speaking World* Françoise Besson,2020-06-01 The essays in this book written by poets novelists mountain climbers and academics from all over the world evoke the representation of mountains in the English speaking world as artists writers philosophers or mountain climbers have represented them from the sixteenth to the twenty first centuries From the Alps to the Pyrenees from Mount Fuji to Mount Shasta from the Himalayas to the Scottish Highlands from Ikere in Nigeria to Devil s

Tower in the United States from Uluru in Australia to the most northern mountain of the Arctic the shapes of the world speak the same language and tell the world its own story This interdisciplinary book weaving together mountaineering literature philosophy painting cinema ecology history palaeontology geography geopolitics toponymy law religion and myth invites people to an innovative reading of mountains it reveals the close relationship existing between the shapes of the world and all forms of writing and at the same time it shows how the representations of the imagination may be instrumental in protecting the natural world The story told by the landscape inscribes a broken line in the shapes of the world tearing the landscape like a fragile page whenever historical and political events wars mining or deforestation leave scars in the landscape but writers and artists representations of mountains constitute a path to awareness as they are not only a painting of beauty but an image of our link to nature and a warning as well For centuries the image of the mountain has conveyed a symbolism telling the story of human thought and this book shows to what extent literature and art play an essential part in our awareness of nature

Brink,Stephen R. Bown,2011-02-01 Traversing the historic trails of the Rockies today is done in much the same manner as it was two centuries ago primarily on foot with heavy packs with little better defence against mosquitoes or the elements Although accurate maps are available and modern technology such as global positioning systems stand as a bulwark to a complete wilderness experience in many cases it is as difficult and challenging to cross these mountain passes or even more so than it was two centuries ago Routes such as Athabasca Pass are far less travelled today than they were in the golden era of the fur trade If our society has become so rich that we continually seek out physical and mental challenges in the wilderness adventure and eco travel perhaps it would be a sign of respect to follow at least for a while in the footsteps of those who in many ways paved the way for generations to come We began to form the idea of hiking all the significant historical trails to see what we could learn from the early pathfinders about the difficulty of wilderness life and travel What window would be opened to times past in a land where the terrain has remained essentially unchanged from the authors introduction **The Diva & the Rancher** Jennifer Hamblin,David Finch,2006 Big dreams dashed hopes and romance are at the heart of this biography of Norma and George Pocatererra The story begins in 1903 when George Pocatererra left Italy and came to the Canadian Rockies with hopes of striking it rich George is best known for establishing the Buffalo Head Ranch in the foothills of Alberta He developed a close friendship with members of the Stoney Indians and was one of the first non Natives to explore much of what is now called Kananaskis Country In 1933 he returned to Italy where he met and fell in love

with Norma Piper a young Calgary singer who had moved to Italy to study opera They eventually married and George took over the management of Norma s rising operatic career World War II forced a return to Canada in 1939 In Calgary Norma became part of the local music scene giving concerts and teaching singing at Mount Royal College In 1955 she started her own studio and over the next 25 years became one of Calgary s most loved music teachers George meanwhile continued with his coal mining ventures although he suffered bitter disappointments Drawing on personal diaries and correspondence the authors have created an intimate portrait of these remarkable Albertans who became each in their own way legends in their lifetimes
