Greek Islander Migration to Australia since the 1950s Melissa N. Afentoulis, 2021-11-23 Illuminating the experiences of immigrants to Australia in the late twentieth century this book uses oral history to explore how identity and belonging are shaped through migration Between the 1950s and the 1970s many inhabitants from the small Greek island of Limnos travelled to Australia to flee post war devastation and economic disaster With an emphasis on the lived experiences and memories of Limnians the book sheds light on the emotional pain and trauma they felt as they were separated from their families and homeland Moving away from more traditional outlooks on migration studies this book emphasises the significance of ethno regional identity and analyses how it can bring strength and longevity to a constructed community Both the roles of men and women within the Greek diaspora are examined in the way that they made the difficult decision to leave their homeland and subsequently how they came to nurture and build families within a new evolving community Looking beyond first generation migration the author analyses the pattern of return visits to Limnos by the descendants of migrants Acting as a form of identity consolidation for second generation migrants this journey to the ancestral homeland highlights the fluidity of what it means to belong somewhere and redefines the notion of home The author provides an alternative perspective to traditional migration studies and reaffirms the importance of transnational identity A unique and important addition to research this book combines memory studies and oral narrative to analyse how identity and belonging can be shaped across borders rather than within them

Immigrant Experiences Paul H. Elovitz, Charlotte Kahn, 1997 This book gives powerful testimony to the possibilities of success even as it attests to the psychological costs of emigration and the struggles of immigration The necessity of creating a new cultural or national identity is a recurring theme as the authors of articles immigrants themselves and Americans sensitive to their families immigrant experiences address what has become an urgent question How can we facilitate the immigrants passage The U S culture has been forged by the influence of immigrant cultures too numerous to mention their representatives have made recognizable significant contributions while struggling to create a viable place for themselves in their adopted land
