Dancing with Mystery Raymond H. Dressler,2022-08-03 This book is about mysteries the mysteries which confront and confound every one of us They come into focus when we ponder how to respond successfully to the proverbial speed bumps in the road of our lives There are no quick or certain answers The challenge is in the process of dealing with them The author asserts that we have essentially three choices When encountering these mysteries we can choose to 1 wrestle with them 2 dance with them or 3 wrestle with them while we dance This is Ray Dressler s first and only book New to this endeavor and enthusiastically encouraged by his children to write it because they want their children and grandchildren to learn about his interesting career he accepted the challenge After seventeen years his work is complete He begins where else with his earliest childhood recollections Having no idea whatsoever where his journey will take him he invites his reader to walk along with him through his life s adventures to the day when he retires from his naval career aboard the historic USS Constitution Old Ironsides in Boston Harbor His career is unique because he begins his professional studies in electrical engineering and architectural design In his second year of college however called by God he switches to philosophy and theology and begins his studies for the pastoral ministry His theme is as the title declares Dancing With Mystery His conviction is Mysteries remain mysteries until God is brought into the mix As he pursues his dream he becomes aware of an additional truth that coincidence is God s way of remaining anonymous *Religion, Revelation & Reason* Eric Rust,1981 This book begins with a general consideration of religious experience and moves to a defense of the Christian revelation as the normative one for all other divine disclosures This means that increasingly the book moves towards a defense of theistic

thought as contrasted with other religious systems This emphasis on the approach to the understanding of God typical of the Judaeo Christian and Islamic traditions has meant a preoccupation with issues particularly significant for this way of thinking the nature of man the understanding of the creative process the problem of human survival beyond death and the mystery of evil I have however brought in the views of other religious systems and offered a critique of their relationship to the theistic position Wherever thought has moved to the specific content of the Christian disclosure in Jesus Christ I have stopped short Philosophy of religion and theistic philosophy in particular are only prolegomena to the task of the Christian theologian
