Romantic Egypt Elizabeth A. Fay,2021-04-07 *Romantic Egypt* Abyssal Ground of British Romanticism traces the historical cultural and intellectual affiliations between Ancient Egypt and Romantic period Britain and Germany including the influences contributed by European thought politics and interventions such as Napoleon s 1799 Egyptian Campaign Until the contributions of Napoleon s expedition to scientific knowledge of Ancient Egyptian monuments and ruins Egypt had been largely swathed in mystical explanations of its past its achievements its beliefs and its cultural importance however the increased knowledge about Ancient Egypt competed with the allure of a more mythically imbued antiquity in the Romantic imagination *Romantic Egypt* argues that this balance between knowing and not knowing between deciphering and imagining a golden age Egypt between enlightened thought and mysticism was essential to the development of the Romantic imaginary because for the Romantics western philosophy and art had their birth in the all but lost wisdom of Ancient Egypt

Reference Catalogue of Current Literature ,1928 **Heidegger and Kabbalah** Elliot R. Wolfson,2019-10-01 While many scholars have noted Martin Heidegger s indebtedness to Christian mystical sources as well as his affinity with Taoism and Buddhism Elliot R Wolfson expands connections between Heidegger s thought and kabbalistic material By arguing that the Jewish esoteric tradition impacted Heidegger Wolfson presents an alternative way of understanding the history of Western philosophy Wolfson s comparison between Heidegger and kabbalah sheds light on key concepts such as hermeneutics temporality language and being and nothingness while yielding surprising reflections on their common philosophical ground Given Heidegger s involvement with National Socialism and his use of antisemitic language these innovative readings are all the more remarkable for their juxtaposition of incongruent fields of discourse Wolfson s

entanglement with Heidegger and kabbalah not only enhances understandings of both but more profoundly serves as an ethical corrective to their respective ethnocentrism and essentialism Wolfson masterfully illustrates the redemptive capacity of thought to illuminate common ground in seemingly disparate philosophical traditions
