Fantastic Creatures in Mythology and Folklore Juliette Wood,2018-08-23 Drawing on historical sources myth and folklore Fantastic Creatures in Mythology and Folklore explores the roles of fantastical beasts particularly the unicorn the mermaid and the dragon in a series of thematic chapters organised according to their legendary dwelling place be this land sea or air Through this original approach Juliette Wood provides the first study of mythical beasts in history from the medieval period to the present day providing new insights into the ways these creatures continue to define our constantly changing relationship to both real and imagined worlds It places particular emphasis on the role of the internet computer games and the cyberspace community and in doing so demonstrates that the core medieval myth surrounding these creatures remains static within the ever increasing arena of mass marketing and the internet This is a vital resource for undergraduates studying fantastic creatures in history literature and media studies

"Curiouser and Curiouser" Maggs Bros,1932 *Her Husband was a Woman!* Alison Oram,2013-01-11 Tracking the changing representation of female gender crossing in the press this text breaks new ground to reveal findings where both desire between women and cross gender identification are understood *Her Husband was a Woman* exposes real life case studies from the British tabloids of women who successfully passed as men in everyday life perhaps marrying other women or fighting for their country Oram revises assumptions about the history of modern gender and sexual identities especially lesbianism and transsexuality This book provides a fascinating resource for researchers and students grounding the concepts of gender performativity lesbian and queer identities in a broadly based survey of the historical evidence *Operation Freak*

Christian Flaugh, 2012-06-01 *In Operation Freak* Christian Flaugh embarks upon an exploration of the intricate connection between the physical bodies and narratives that subjected to all manner of operations generate identity. The author spotlights such voluntary and involuntary acts to show how discourses of ability, disability, and bodily manipulation regularly influence the production in and of various Francophone texts. Flaugh's foundation is the critical examination of mutually informing narratives: Francophone novels that hyperbolically signal normative discourses through quintessential freaks, monstres such as the Siamese twin, the bearded lady, and the exotic witch, and the related sociocultural master narratives from North America, North Africa, and the Caribbean. Employing disability and freak culture theories alongside studies of identification and narrative, Flaugh's close readings move beyond polarized discussions of disabled and non-disabled bodies. They expand such discussions to articulate how ability, like identity and narrative, is impermanent. It passes, and it is passed throughout a spectrum at the same time that it intersects regularly with various narratives of identity, like citizenship, gender, and race. Each chapter reveals how operation is a profit-driven identification process informed by abilities and constantly reproduced by surgeons, slave masters, writers, and the freak protagonists themselves. An unflinching look at such manipulation, *Operation Freak* illustrates the undeniably visceral relation between bodily ability, identity, narrative, and normality carved onto the body of the freak of culture, *monstre de la culture*. [The Two-headed Boy, and Other Medical Marvels](#)

Jan Bondeson, 2004-09 A successor to his popular book *A Cabinet of Medical Curiosities*, this new collection of essays by Jan Bondeson illustrates various anomalies of human development, the lives of the remarkable individuals concerned, and social reactions to their extraordinary bodies. Bondeson examines historical cases of dwarfism, extreme corpulence, gigantism, conjoined twins, dicephaly, and extreme hairiness; his broader theme, however, is the infinite range of human experience. The dicephalous Tocci brothers and Lazarus Colloredo, from whose belly grew his malformed conjoined twin, the Swedish giant, and the king of Poland's dwarf. Bondeson considers these individuals not as freaks but as human beings born with sometimes appalling congenital deformities. He makes full use of original French, German, Dutch, Polish, and Scandinavian sources and explores elements of ethnology, literature, and cultural history in his diagnoses. Heavily illustrated with woodcuts, engravings, oil paintings, and photographs, *The Two-headed Boy and Other Medical Marvels* combines a scientist's scrutiny with a humanist's wonder at the endurance of the human spirit. Contents: *The Two Inseparable Brothers* and a *Preface*; *The Hairy Maid at the Harpsichord*; *The Stone child*; *The Woman Who Laid an Egg*; *The Strangest Miracle in the World*; *Some Words about Hog-faced Gentlemen*; *Horned Humans*; *The Biddenden Maids*; *The Tocci Brothers and Other Dicephali*; *The King of Poland's Court Dwarf*; *Daniel Cajanus the Swedish Giant*; *Daniel Lambert the Human Colossus*; *Cat eating Englishmen and French Frog swallows*.
