Another Murder in the Inn Barbara Fox, 2024-01-19 Sandy, the owner of a bed and breakfast inn in Washington DC, plans a fitness getaway week at the inn. The teachers and students arrive and classes begin, but a murder interrupts the program and Sandy is once again in the middle of a murder investigation. The suspects include the perky exercise teacher, a meddling matchmaker, a nervous bride, a belly dancer, and other equally suspicious characters. In the middle of the investigation, Sandy's twin sister Allison, a casting director for a movie studio, arrives and says her studio is filming a movie and wants to shoot one of the scenes at the inn. Between the exercise classes, the movie, and a possible romance for Allison, Sandy, her housekeeper Noah, and stepdaughter Janie help with the investigation and find some answers. She again reports her progress in nightly telephone conversations with her husband, Joey.

Young for a Very Long Time Barbara Fox, 2023-06-23 Age is mind over matter; if you don't mind it, it doesn't matter. So no one in this book is old; they like the author have just been young for a very long time. This collection of articles, poems, plays, and questions and answers from the real experts—people who are 60 and beyond—covers topics such as: How to answer people when they ask, "How old are you?" What did you do before you retired? Why buy that you won't live long enough to enjoy it? Can you jump? The pros and cons of retirement homes. Dating and meeting new friends. Exercise. Living alone and being comfortable doing it. You will meet several real older people who are actively working in their careers and a few fictional people from the plays *Snowbirds* and *Duo* who won't let age prevent them from living full active lives. You will read articles such as "Complaints from a Crabby formerly nice person," "Still in the game," "Computers and me," "Simplify your life." Mini views and quotes are advice and sayings scattered throughout the book. Friends with benefits, friends who can drive at night. As soon as I think I'm too old to do something, I immediately do it. He let's run upstairs and make love. She Honey, I can't do both. *Young for a Very Long Time* offers light-hearted, practical, informative, and sometimes funny information about getting older. After all, the book asks, what is the alternative?

Critical Approaches to Food in Children's Literature Kara K. Keeling, Scott T. Pollard, 2012-03-20 *Critical Approaches to Food in Children's Literature* is the first scholarly volume on the topic, connecting children's literature to the burgeoning discipline of food studies. Following the lead of historians like Mark Kurlansky, Jeffrey Pilcher, and Massimo Montanari, who use food as a fundamental node for understanding history, the essays in this volume present food as a multivalent signifier in children's literature and make a strong argument for its central place in literature and literary theory. Written by some of the most respected scholars in the field, the essays between these covers tackle texts from the nineteenth century (Rudyard Kipling's *Kim*) to the contemporary (Dave Pilkey's *Captain Underpants* series), the U.S. multicultural (Asian American) to the international (Ireland, Brazil, Mexico). Spanning genres such as picture books, chapter books, popular media, and children's cookbooks, contributors utilize a variety of approaches, including archival research, cultural studies, formalism, gender studies, post-

colonialism post structuralism race studies structuralism and theology Innovative and wide ranging Critical Approaches to Food in Children s Literature provides us with a critical opportunity to puzzle out the significance of food in children s literature

The New Menu That Began My Mother's Recovery from

COPD & Emphysema W. G. Miller, 2011-12-31 A detailed description of the restrictive diet that I used in reversing my mother's emphysema. This diet was developed by Dr. Kenneth Hunter, a Microbiologist and Cancer Researcher at the University of Nevada. Dr. Hunter has used this diet in his research and states that it starves cancer by taking away its food supply. This diet not only starves cancer but it also starves all pathogens that have invaded the body, including the mycobacteria I believe is causing emphysema and the other COPD diseases.
