Mystic Reality:

Mystical Experience of Reality Keith Michael Hancock, 2019-12-10 The Mystical Experience of Reality is a well known non biological non human historical phenomena that engulfed the author as a 14 year old several times every year until his late thirties filling him with the experience of a Reality in which all things known and unknown exist at its behest guarding guiding accepting everything that exists separately personally individually It is benign and uninterested in human wants or constructs such as religions politics ideologies The author is what Buddhism would call a pratyakabuddha a silent buddha whose experience of this Reality was spontaneous without having been requested or by given human help a mystic He insists the experience of Reality is caught not taught that it cannot be evangelized or proselytized worshipped or used Reality rules Its ways are not our ways Our ways are not Reality's Jesus failed Religions are not spiritual just emotional So the book started with a Blog mysticexperiences.net for the author to examine himself and existence in accordance with the way of Reality Accordingly he found nothing in humanity worth studying This book is a summation of four years of using writing the blog to explore the awareness given him by his mystical experiences in the hope it will add to the literature on the subject which is now being more seriously studied around the world than it has ever been by physicists metaphysicists philosophers theologians psychologists even cosmologists and especially Seekers for whom the author has special messages for their unique hunger and thirst The book also seeks to pass on Reality's message to the author All is well **Martyrs, Monks, and Mystics** McClymond, Michael J., 2023 This book offers a wide angle and yet integrative approach to Christian spirituality engaging diverse historical traditions incorporating recent developments in Asian Africa Latin America and in global Pentecostalism while displaying an essential unity in this topic in relation to a number of salient themes e.g. love humility prayer servanthood etc The book is geared toward students in college courses It should also be of particular interest to practicing Christians across a very broad spectrum of traditions and denominations and engages secular Jewish and Muslim readers as well as those practicing one of the traditional Asian religions **The Mystic's Way for Regular People** James C. Alexander, 2021-04-19 Many are searching for a deeper spiritual life Yet often seekers don't really know where to begin In this short book James Alexander demystifies the mystical journey Realizing that the mystics have much to offer those searching for a richer spiritual life and yet that not everyone is called to a monastic life Alexander offers a path for everyday mystics If you have been wanting something more but don't know how to go about it this book is for you Characteristics of the mystical journey as well as practices that will deepen your spiritual life and relationships with others are presented in an inviting doable way The mystic's way is a reality for everyone This book offers a starting point for a fuller richer experience of God that will encourage you and excite you Discover a path that has enriched the life of many followers of Jesus both now and in the past The journey awaits you Now is the time to begin *The Mystic's Almanac: Exploring the Realm of Spirit, Consciousness and Beyond* Pasquale De Marco, 2025-04-26 In the realm of consciousness where the tangible and intangible

Langlitz,Alex Dymock, Anne Katrin Schlag ,Oliver Davis,2024-06-19 Psychedelics are part of a resurgence of interest in consciousness studies especially as altered states of consciousness are being re examined in the context of psychedelic assisted therapies To date discussions about psychedelics in modern medicine have been dominated by studies in biomedicine However given that cultural factors play a significant role in the subjective effects of psychedelics psychedelics can be considered a uniquely powerful point of convergence between the cultural and biomedical Writers and artists alongside psychiatrists and pharmacologists have participated in shaping the psychedelic experience by drawing on a rich set of approaches that blend narrative arts and humanities concepts to explain and interpret psychedelic experiences and explore consciousness for creative purposes Psychedelic studies past and present emphasize the importance of set and setting or the context of psychedelic consumption and its paramount importance in shaping psychedelic experiences These non pharmacological factors rely on a different set of methods and interpretations that necessarily rely on studies conducted outside of the biomedical sciences

Cosmopolitan Liberalism M. Sánchez-Flores,2010-09-13 Cosmopolitanism in the contemporary debate is firmly based in the western tradition of liberal thought which is culturally situated The liberal conception of self alienates nature and childhood and its internal logic justifies colonialism and carries patriarchal and racialized baggage Cosmopolitan Liberalism is a critique of the western tradition of liberal thought and an effort to overcome the philosophical boundaries of individualism towards a more inclusive and open conception It seeks to expand the theoretical basis of individuality beyond its own limitations towards the ideal of universal love and the moral principle of compassion which are compatible with all world cosmologies liberal and non liberal Cosmopolitan Liberalism is a reflection on what it is that all human beings owe one another in spite of the many humanly created borders that set us apart

Esotheric themes in theology Róbert Sarka,2015-05-31 During the Second Vatican Council the Catholic Church opened itself to a dialogue which became its communication tool with the world with other Christian denominations and religions At the end of the 19th century so called new religious movements and new magical movements started to appear which are still currently expanding Is it possible to lead a dialogue with new religious movements NRM 1 A dialogue is an inseparable part of the Church s mission therefore neither can the NRM be excluded However to have a dialogue with them the correct preparation is needed because a great variability exists amongst the NRM In this dialogue it is also necessary to take into account the risks from the side of the NRM s participants who may try to abuse it for their own promotion e g as happened when some of the NRM s participants showed photographs from a general audience with the pope or photographs with Mother Theresa as proof of a support of their activities Another form of abuse can be the publishing of their own doctrines in the Catholic Publishing Houses The statements of some forms of NRM concerning the possibility of double memberships thus actually remaining as a member of the Catholic Church but at the same time being a disciple of some occult community are also of a great danger² It is necessary to think about these pitfalls during the dialogue The dialogue

should also not be detached from the proclamation in this case it is about keeping fidelity to the Catholic faith I would also like to stick to this criterion in the submitted monograph about esoteric themes in theology Excerpt from the Introduction
