Mystical Poetry Of Thomas Traherne:

The Mystical Poetry of Thomas Traherne Arthur L. Clements, 1969 **The mystical poetry of Thomas Traherne** A. L. Clements, *Mystical Symbolism in the Poetry of Thomas Traherne* Alison J. Sherrington, 1970 **Thomas Traherne and Seventeenth-century Thought** Elizabeth S. Dodd, Cassandra Gorman, 2016 New essays on Thomas Traherne challenge traditional critical readings of the poet Boundless Innocence in Thomas Traherne's Poetic Theology Elizabeth S. Dodd, 2016-03-16 The seventeenth century poet and divine Thomas Traherne finds innocence in every stage of existence He finds it in the chaos at the origins of creation as well as in the blessed order of Eden He finds it in the activities of grace and the hope of glory but also in the trials of misery and even in the abyss of the Fall Boundless Innocence in Thomas Traherne's Poetic Theology traces innocence through Traherne's works as it transgresses the boundaries of the estates of the soul Using grammatical and literary categories it explores various aspects of his poetic theology of innocence uncovering the boundless desire which is embodied in the yearning cry *Were all Men Wise and Innocent* Recovering and reinterpreting a key but increasingly neglected theme in Traherne's poetic theology this book addresses fundamental misconceptions of the meaning of innocence in his work Through a contextual and theological approach it indicates the unexplored richness complexity and diversity of this theme in the history of literature and theology **The Process of Creation in the Mystical Poetry of Thomas Traherne** Jane E. Barricelli, 1987 *John Donne and the Metaphysical Poets* Harold Bloom, 2010 Presents a collection of critical essays about the works of John Donne and other metaphysical poets **The Atom in Seventeenth-century Poetry** Cassandra Gorman, 2021 An investigation into the remarkable poetics of the atom in English literary texts from the mid to late seventeenth century The early modern atom understood as an indivisible particle of matter captured the poetic imagination in ways that extended far beyond the reception of Lucretius and Epicurean atomism Contrarily to fears of atomisation and materialist threat many poets and philosophers of the period sought positive spiritual motivation in the concept of material indivisibility This book traces the metaphysical import of these poetic atoms teasing out an affinity between poetic and atomic forms in seventeenth century texts In the writings of Henry More Thomas Traherne Margaret Cavendish Hester Pulter and Lucy Hutchinson both atoms and poems were instrumental in acts of creating ordering and reconstructing knowledge Their poems emerge as exquisitely self conscious atomic forms producing intimate reflections on the creative power and indivisibility of self soul and God The book begins with a survey of the imaginative possibilities surrounding the early modern atom before considering the indivisible centres of the Cambridge Platonist Henry More's cosmic Spenserian poetics The focus then turns to the lyrical bond formed between atom and soul in the writings of Thomas Traherne and from there to the experimental sequences of Margaret Cavendish and Hester Pulter whose poetic spaces create new worlds and imagine alternative lives The book concludes with a study of Lucy Hutchinson's creation poem *Order and Disorder* which anticipates the regeneration of fallen being in atomic and alchemical terms *The Spiritual Way*

Philip Sheldrake, 2019-08-08 In *The Spiritual Way Classic Traditions and Contemporary Practice* Philip Sheldrake aims to make the wisdom of Christian spirituality better known to contemporary readers After an introductory chapter on the foundations of Christian spirituality Sheldrake describes its diverse riches through the centuries in terms of five distinctive types of Christian spiritual wisdom illustrated by a rich selection of classical examples The five types are The Way of Discipline The Contemplative Mystical Way The Way of Practical Action The Way of Beauty and The Prophetic Way This book also briefly explores the contemporary interest in spirituality within and beyond conventional religion and suggests how we might engage with these five types on our spiritual journeys in today's world *Engines of the Imagination* Jonathan Sawday, 2007-11-30 At what point did machines and technology begin to have an impact on the cultural consciousness and imagination of Europe How was this reflected through the art and literature of the time Was technology a sign of the fall of humanity from its original state of innocence or a sign of human progress and mastery over the natural world In his characteristically lucid and captivating style Jonathan Sawday investigates these questions and more by engaging with the poetry philosophy art and engineering of the period to find the lost world of the machine in the pre industrial culture of the European Renaissance The aesthetic and intellectual dimension of these machines appealed to familiar figures such as Shakespeare Francis Bacon Montaigne and Leonardo da Vinci as well as to a host of lesser known writers and artists in the sixteenth and seventeenth centuries This intellectual engagement with machines in the European Renaissance gave rise to new attitudes towards gender work and labour and even fostered the new sciences of artificial life and reason which would be pursued by figures such as Descartes Hobbes and Leibniz in the seventeenth century Writers philosophers and artists had mixed and often conflicting reactions to technology reflecting a paradoxical attitude between modern progress and traditional values Underpinning the enthusiastic creation of a machine driven world then were stories of loss and catastrophe These contradictory attitudes are part of the legacy of the European Renaissance just as much as the plays of Shakespeare or the poetry of John Milton And this historical legacy helps to explain many of our own attitudes towards the technology that surrounds us sustains us and sometimes perplexes us in the modern world **The Mystical Element in the Metaphysical Poets of the Seventeenth Century** Itrat Husain, 1966 *Poetry Review* Stephen Phillips, Galloway Kyle, 1929 **English Renaissance Literature and Contemporary Theory** Paul Cefalu, 2007-08-06 This book offers the first sustained assessment of the ways in which recent contemporary philosophy and cultural theory including the work of Giorgio Agamben Alain Badiou Eric Santner Slavoj Žižek and Alenka Župancic can illuminate Early Modern literature and culture **The Ghost of Shakespeare** Anna Frajlich, 2020-11-24 This volume collects the critical prose of award winning writer Anna Frajlich The Ghost of Shakespeare takes its name from Frajlich's essay on Nobel Prize laureate Wisława Szymborska but informs her approach as a comparativist more generally as she considers the work of major Polish writers of the twentieth century including Zbigniew Herbert Czesław Miłosz and Bruno Schulz Frajlich's study of the Roman theme in Russian

Symbolism owes its origins to her stay in the Eternal City the second stop on her exile from Poland in 1969 The book concludes with autobiographical essays that describe her parents dramatic flight from Poland at the outbreak of the war her own exile from Poland in 1969 settling in New York City and building her career as a scholar and leading poet of her generation *Children of God* Edmund Newey, 2016-05-23 *Children of God* uncovers the significant but largely unnoticed place of the child as a prototype of human flourishing in the work of four authors spanning the modern period Shedding new light on the role of the child figure in modernity and in theological responses to it the book makes an important contribution to the disciplines of historical theology theology and literature and ecumenical theology Through a careful exploration of the continuities and differences in the work of Thomas Traherne Jean Jacques Rousseau Friedrich Schleiermacher and Charles P. Guy it traces the ways in which their distinctive responses to human childhood structured the broader pattern of their theology showing how they reached beyond the confines of academic theology and exercised a lasting influence on their literary and cultural context

The Johannine Renaissance in Early Modern English Literature and Theology Paul Cefalu, 2017 The volume highlights how the Fourth Gospel and First Epistle of Saint John the Evangelist were leading apostolic texts during the early modern period in England and the importance of Johannine theology to early modern religious poetry

Christian Mysticism and Australian Poetry Toby Davidson, Australian poetry is popularly conceived as a tradition founded by the wry secular and stoic strains of its late nineteenth century bush balladeers Adam Lindsay Gordon Henry Lawson and Banjo Paterson consolidated into a land based vigour in publications such as the *Bulletin* Yet this popular conception relies on not actually consulting the poetry itself which for well over one hundred and fifty years has been cerebral introspective feminine and highly even experimentally religious This book casts Australian poetry in a new light by showing how Australian Christian mystical poetics can be found in every era of Australian letters how literary hostilities towards women poets eroticism and contemplation served to stifle a critical appreciation of mystical poetics until recent decades and how in the twentieth century one Australian Christian mystical poet began to influence another and share their appreciations of Dante Donne Traherne Blake Wordsworth Brontë Rossetti Hopkins Yeats Eliot and Lowell

Poetry of Contemplation Arthur L. Clements, 1990-01-01 This is the first systematic and thorough study of mysticism or contemplation in these three seventeenth century poets and in three modern writers It not only clarifies the very confused issue of mysticism in seventeenth century poetry but also connects seventeenth century poets with modern literature and science through the contemplative tradition from the Bible and Plato and Church fathers and important mystics of the Middle Ages through Renaissance and modern contemplatives The transformative and redemptive power of contemplative poetry or holy writing regardless of genre or discipline is prominent throughout the book and the relevance indeed the vital necessity of such poetry and of the living contemplative tradition to our apocalyptic modern world is discussed in the last chapter In this chapter attention is given to modern science especially to the new physics and to philosophical and mystical writings of

eminent scientists **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1972 **Coming To** Timothy M. Harrison,2020-10-10 In **Coming To** Timothy M Harrison uncovers the forgotten role of poetry in the history of the idea of consciousness Drawing our attention to a sea change in the English seventeenth century when over the course of a half century conscience made a sudden shift to consciousness he traces a line that leads from the philosophy of Ren Descartes to the poetry of John Milton from the prenatal memories of theologian Thomas Traherne to the unresolved perspective on natality consciousness and ethics in the philosophy of John Locke Each of these figures responded to the first person perspective by turning to the origins of how human thought began Taken together as Harrison shows this unlikely group of thinkers sheds new light on the emergence of the concept of consciousness and the significance of human natality to central questions in the fields of literature philosophy and the history of science
