**Comparative Mysticism** Steven T. Katz, 2013

This collection of primary texts introduces readers to the mystical literature of the world's great religious traditions. Beginning with an introduction by Steven T. Katz, a leading scholar of mysticism, the anthology comprises poetry, prayer, narrative, and other writings from Jewish, Christian, Muslim, Hindu, Buddhist, Taoist, Confucianist, and Native American traditions. This collection provides readers not only with the primary mystical texts from each religious tradition but with an explanation of the context of the source and tradition. *Comparative Mysticism* shows how the great mystical traditions of the world are deeply rooted in the religious traditions from which they originated. The contextual, methodological approach taken throughout the anthology also addresses the critical question of what these mystical traditions at their highest level have in common. Despite the prevailing view that mystical traditions throughout the world are essentially similar, the presentation of the sources in this volume suggests that in fact the various traditions have distinct teachings and different metaphysical goals. The writings collected in *Comparative Mysticism* address the most fundamental and important methodological, epistemological, and hermeneutical questions regarding the study and interpretation of mysticism and mystical sources across cultures. This anthology will be an invaluable resource to students and scholars of mystic tradition for years to come.

Sanctity and Mysticism in Medieval Egypt Richard J. A. McGregor, 2012-02-01

Using the original writings of two Egyptian Sufis, Mu'ammad Waf and his son Al, this book shows how the Islamic idea of sainthood developed in the medieval period. Although without a church to canonize its saints, the Islamic tradition nevertheless debated and developed a variety of ideas concerning miracles, sanctity, saintly intermediaries, and pious role models. In the writings of the Waf's, a complete mystical worldview unfolds, one with a distinct doctrine of sainthood and a novel understanding of the apocalypse. Using almost entirely unedited manuscript sources, author Richard J. A. McGregor shows in detail how Mu'ammad and Al Waf drew on earlier philosophical and gnostic currents to construct their own mystical theories and notes their debt to the Sufi order of the Shadhiliyya, the mystic al-Tirmidhi, and the great Sufi thinker Ibn Arabi. Notably, although located firmly within the Sunni tradition, the Waf's felt free to draw on Shi'ite ideas for the construction of their own theory of the final great saint.

**Sufis in Medieval Baghdad** Atta Muhammad, 2023-10-19. This book examines the political and social activities of Sufis in Baghdad in the period 1000-1258. It argues that Sufis played an important role in creating a public sphere that existed between ordinary subjects and the government. Drawing on Arabic sources and secondary literature, it explores the role of Sufis and their institutions, including their ribats or lodge houses, from the use of Sufis as political ambassadors to their role in redistributing charity to the poor. The book reveals the role of Sufism in structuring a wide range of social and political arrangements in this period. It also reveals the role of ordinary, non-elite actors who, by taking part in Sufi-affiliated religious or professional associations, were able to take part in public life in late Abbasid Baghdad.
