Mystical-prophetic Thought of Simone Weil and Gustavo Gutierrez Edward Alexander Nava, 1997

The Mystical and Prophetic Thought of Simone Weil and Gustavo Gutiérrez Alexander Nava, 2001-11-01 Brings together the thought of liberation theologian Gustavo Gutiérrez and Christian philosopher Simone Weil to present a unique vision that can speak of both the reality of suffering and the desire for mystical experience

Simone Weil Maria Clara Bingemer, 2015-08-31 The present book reflects on the life work and legacy of an exceptional and enigmatic woman the philosopher and French Jewish mystic Simone Weil It constitutes a testimony so unique that it is impossible to ignore In a Europe where authoritarian regimes were dominant and heading in a sinister manner toward World War II this woman of fragile health but indomitable spirit denounced the contradictions of the capitalist system the brutality of Nazism and the paradox of bourgeois thought At the same time her spiritual journey was one of zeal and sorrow that of a true mystic but her radical intransigence and passion for freedom kept her from actually approaching the institutional church Curious and insatiable she wanted to experience in the flesh the suffering of society's least fortunate and the truths of other religions The reader will need to develop a discerning empathy for Simone Weil's sensibility beyond her particular passion and zeal in order to appreciate her in depth But undeniable are this truly singular woman's authenticity her capacity to suffer her identification with the other her inner passion her almost magical perception of the depths of the human spirit And that is why her story merits being told as one of the great witnesses of our age

Resurrection City Peter Heltzel, 2012-11-23 In *Resurrection City* Peter Heltzel paints a prophetic picture of an evangelical Christianity that eschews a majority mentality and instead fights against racism inequality and injustice embracing the concerns of the poor and marginalized just as Jesus did Placing society's needs front and center Heltzel calls for radical change and collective activism modeled on God's love and justice In particular Heltzel explores the social forms that love and justice can take as religious communities join together to build beloved cities He proclaims the importance of improvising for justice likening the church's prophetic ministry to jazz music and develops a biblical theology of shalom justice His vision draws inspiration from the black freedom struggle and the lives of Sojourner Truth Howard Thurman and Martin Luther King Jr Pulsing with hope and beauty *Resurrection City* compels evangelical Christians to begin a global movement for love and justice that truly embodies the kingdom of God

The Cry of the Poor Alexandre A. Martins, 2019-11-21 This book offers an interdisciplinary effort to address global health issues grounded on a human rights framework seen from the perspective of those who are more vulnerable to be sick and die prematurely the poor Combining his scholarship and service in impoverished communities the author examines the connection between poverty and health

inequalities from an ethical perspective that considers contributions from different disciplines and the voices of the poor

The Religious Philosophy of Simone Weil Lissa McCullough, 2014-07-23 The French philosopher Simone Weil 1909-1943 a contemporary of Simone de Beauvoir and Jean Paul Sartre remains in every way a thinker for our times She was an outsider in multiple senses defying the usual religious categories at once atheistic and religious mystic and realist sceptic and believer She speaks therefore to the complex sensibilities of a rationalist age Yet despite her continuing relevance and the attention she attracts from philosophy cultural studies feminist studies spirituality and beyond Weil's reflections can still be difficult to grasp since they were expressed in often inscrutable and fragmentary form Lissa McCullough here offers a reliable guide to the key concepts of Weil's religious philosophy good and evil the void gravity grace beauty suffering and waiting for God In addressing such distinctively contemporary concerns as depression loneliness and isolation and in writing hauntingly of God's voluntary nothingness Weil's existential paradoxes continue to challenge and provoke This is the first introductory book to show the essential coherence of her enigmatic but remarkable ideas about religion **The Teachings**

of Modern Roman Catholicism on Law, Politics, and Human Nature John Witte (Jr.), John Witte, Frank S. Alexander, 2007 This landmark three volume series examines how modern Catholic Protestant Orthodox thinkers have responded to the most pressing political legal ethical questions of our time *Theosemiotic* Michael L. Raposa, 2020-10-06 In *Theosemiotic* Michael Raposa uses Charles Peirce's semiotic theory to rethink certain issues in contemporary philosophical theology and the philosophy of religion He first sketches a history that links Peirce's thought to that of earlier figures both within the tradition of American religious thought and beyond as well as to other classical pragmatists and to later thinkers and developments Drawing on Peirce's ideas Raposa develops a semiotic conception of persons selves emphasizing the role that acts of attention play in shaping human inferences and perception His central Peircean presuppositions are that all human experience takes the form of semiosis and that the universe is perfused with signs Religious meaning emerges out of a process of continually reading and re-reading certain signs Theology is explored here in its manifestations as inquiry therapy and praxis By drawing on both Peirce's logic of vagueness and his logic of relations Raposa makes sense out of how we talk about God as personal and also how we understand the character of genuine communities An investigation of what Peirce meant by musement illuminates the nature and purpose of prayer *Theosemiotic* is portrayed as a form of religious naturalism broadly conceived At the same time the potential links between any philosophical theology conceived as *theosemiotic* and liberation theology are exposed **Spiritual Innovators** Ira

D. Hansen,2008-02-01 Higher education has not escaped the imperative of transformation which has marked the post apartheid South African landscape The nature of the changes at universities however is open to critique Fundamental questions concerning the ideological moorings of knowledge and the politics of the curriculum have not yet been satisfactorily addressed During the apartheid era theology faculties played influential roles at traditional universities and

were often characterised by unsettling exclusion of non Christian religions non Calvinist denominations and marginalised voices This volume of essays evidences a process at the University of the Free State s Faculty of Theology to reflect seriously about the need for transformation at the fundamental level that is of knowledge The challenge for theology at a public university is framed in terms of epistemological transformation A number of outstanding public intellectuals such as Jonathan Jansen Crain Soudien and Lis Lange have been invited to present papers to clarify the conceptual challenge and what this might entail for theology Well known theologians such as Conrad Wethmar Allan Boesak and Martin Prozesky reflect on the nature of theology and religion at universities amidst social exigencies Two international theologians Harold Attridge from the prestigious Yale Divinity School and Bram van de Beek from the Free University of Amsterdam share their experiences of institutions that exemplify excellence and ecumenical openness Theologians from the Departments of Practical Theology and Systematic Theology at the University of the Free State writing from the inside articulate the challenges they envision for theology in a post apartheid dispensation The essays represent a variety of perspectives but all attest to a commitment to rethink the nature and task of theology at a public university accepting the challenge of knowledge and power of plurality and otherness and of restorative intellectual justice These timely essays make a unique contribution to the discourses on transformation and on theology at a public university

love and creativity of God Critical Theology **The Oxford Handbook of Mystical Theology** Edward Howells, Mark Allen McIntosh, 2020 This collection provides a guide to the mystical element of Christianity as a theological phenomenon Part I offers a historical overview Part II considers sources and practices of mystical theology Part III examines conceptualities of mystical thought Part IV explores contributions of mystical teaching to theology and metaphysics **Beyond the Analogical Imagination** Barnabas Palfrey, Andreas Telser, 2023-10-12 David Tracy is arguably the most influential Roman Catholic theologian writing in English of the past fifty years both internationally and beyond confessional borders His generous and ever expanding conversations says contributor Willemien Otten make the future of theology now Tracy himself says that they lead him like Dante to the love that moves the sun and the other stars Tracy's most famous book *The Analogical Imagination* is now over four decades old Yet in two volumes of his essays published in 2020 Tracy emphasises the ground breaking new work that he did in the 2010s His mature theological and cultural vision is in need of fresh assessment which this book provides An international cohort of experts introduces the core themes of Tracy's thought critically exploring their relevance for theology today Tracy offers a short response of his own as well as the edited text of a previously unpublished and recent lecture **Rewriting the Word "God"** Romana Huk, 2025 Innovative poetry philosophy theology and new sciences converge in the project of rewriting the word God In *Rewriting the Word God* Romana Huk examines the substantive connections between innovative poetry of the last century and contemporary theology and philosophy Along the way we encounter ten poets who have without abandoning their inherited or chosen faith traditions radically rethought conceptualizations of divinity human ontology and the real From the startlingly proto phenomenological encounters with nature by Gerard Manley Hopkins to the post deconstructive pursuit of oracular speech in Fanny Howe these poets have found inspiration in a wide range of sources from ancient religious texts to modern philosophical movements But what unites them is their willingness to continually change experiment and challenge the status quo both in their religious beliefs and their poetic practice Huk shows how these poets have used their work to explore ultimate questions of life and death meaning and purpose and the relationship between humans and materiality humans and other humans which for these poets sheds light on humanity's relationship with the divine She also highlights the ways in which they have engaged with social and political issues in their poetry to speak out against injustice and oppression *Rewriting the Word God* is a thought provoking and inspiring work that will challenge current perceptions of both religion and poetry from new positions at the intersection of faith art philosophy science literary theory and culture **Emmanuel Levinas' Conceptual Affinities with Liberation Theology** Alain Mayama, 2010 Emmanuel Levinas *Conceptual Affinities with Liberation Theology* analyzes Levinas work in relation to two important liberation theologians Gustavo Guti rrez and Jon Sobrino whose scholarship like his needs to be brought into greater contemporary debate about the subject's encounter with the other More specifically this book argues that for Levinas Guti rrez and Sobrino commitment to the neighbor is the necessary context for understanding

God They posit the human other as the possibility of the subject's subjectivity To be human is to act with love toward one's neighbor Thus the author articulates the possibility of reading Levinas philosophy as a revalidation of one of the truths of Christianity the concern for the humanity of every human person as expressed in Christian theology in general and liberation theology in particular In order to show the relevance of Levinas philosophy for Christian theology in general the author discusses three Christian scholars Enrique Dussel Jean Luc Marion and Michael Purcell Although they challenge some aspects of Levinas philosophy they nevertheless see its significance for Christian theological anthropology The discussion concludes by proposing Levinas philosophy and liberation theology's turn to the neighbor as significant for addressing contemporary socio political and ethnic conflicts in sub Saharan Africa Dictionary of Christian Spirituality
