Mysticism And Politics:

Between the 'Mysticism of Politics' and the 'Politics of Mysticism' David Ranson, 2013-08-31 Between the Politics of Mysticism and the Mysticism of Politics traces the dialectic of the mystical and the political from both a theological and an historical perspective It presents the dialectic as a hermeneutic for the rise of the new ecclesial communities within the Roman Catholic Tradition and suggests it as the framework by which a trajectory for Christian holiness might emerge in the 21st century *Mysticism and Politics* Olivier Carré, 2003 This first critical study and selected translation from Arabic of an influential book provides precise information about current radical Islamic thought in line with extreme unorthodox minor traditions and also about current official Islamic orthodoxy both compared to the spiritual social and political main tradition

Between the 'Mysticism of Politics' and the 'Politics of Mysticism' David Ranson, 2013-08-31 Between the Politics of Mysticism and the Mysticism of Politics traces the dialectic of the mystical and the political from both a theological and an historical perspective It presents the dialectic as a hermeneutic for the rise of the new ecclesial communities within the Roman Catholic Tradition and suggests it as the framework by which a trajectory for Christian holiness might emerge in the 21st century *Between the 'mysticism of Politics' and the 'politics of Mysticism'*, 2014 *The Mystical State* Arthur Versluis, 2011 This is not just another book so much as a new way of seeing the world and our way of being in it Groundbreaking and profoundly optimistic this is the only book to investigate how mysticism can inspire cultural and political renewal At heart *The Mystical State* looks toward the future toward what is possible on the other side of the difficult times that confront us and how we can envision and encourage cultural emergence In *The Mystical State* Arthur Versluis delves into the origins of modernity and what led to the crises of our time But he also looks to the future and in particular to how spirituality can inform cultural and political life in new and illuminating ways Arthur Versluis's *The Mystical State Politics Gnosis and Emergent Cultures* asks a question long overdue in the study of mysticism what are the political implications of direct mystical experience and thinking His analysis ranges freely over both ancient and modern thought and experience His focus on Western thought ancient and modern is a welcome respite from the tendency to focus on Eastern meditation and philosophy among scholars of mysticism His exploration of the marginalized is especially important And by focusing on the road not taken when Gnosticism was repudiated long ago he dares to imagine what a new culture and state that's centered on the mystical might look like the end of gigantism the re framing of life and value and a form of political authority centered in value It is a courageous and thought provoking book and should open the door to a series of questions important in our struggling world Robert K C Forman author of *Mysticism Mind Consciousness* and numerous other books on mysticism It's simply amazing Each page is a feast to both my mind and soul Miguel Conner editor of *Voices of Gnosticism* A wonderful book fascinating I highly recommend that people buy it and read it as soon as possible I can't say enough about it William Kennedy Sphinx Radio Praise for Other Works by Arthur Versluis At a time when the religions of the world are meeting on a

Traces changing visions of mystical power and authority on the island of Pemba whose people s reputed resistance to outside rule has shaped the national narratives of both Zanzibar and Tanzania For two centuries Pemba the second largest island of Zanzibar has been known by East Africans and outsiders alike as rich in dangerous knowledge Despite Pembans reputation for piety and deep Islamic knowledge uchawi mystical work and power sometimes termed magic witchcraft or sorcery has long featured in diverse visions of their identity and as key to worldly power Today as traditional methods of securing agency are called into question and new ways proliferate the mystical world is an intensely conflicted realm where the nature of power ethical action and reality itself is continually reframed This luminous ethnography follows Pemban notions of invisible and worldly power through the Zanzibar Revolution of 1964 the trials of multiparty democracy the rise of Islamic revival and intensifying neoliberalism Through an exploration of rural imaginings of power it argues that nations and the grammars that underwrite them are made in and by their peripheries which give the centre shape Highlighting the intersections of mystical practices religion and politics as such on the Swahili Coast the book contributes new perspectives to studies of the imagination power and religious transformation in Africa the Indian Ocean and the larger Islamic world **Romain Rolland**

Poulson,Stephan van Erp,Lieven Boeve,2017-04-06 What role does could or should theology play in current discussions about our political realities Is there a place for theological worldviews in the public conversation about policy making Should theology critically unmask the underlying theological and metaphysical sources of contemporary politics The contributors to this volume reflect on new

questions in public and political theology inspired by the theology of Edward Schillebeeckx They discuss a variety of theological traditions and theories that could offer substantial contributions to current political challenges and debate whether theology should contribute to the liberation of communities of poor and suffering people **Hermeneutics, Politics, and the History of Religions** Christian Wedemeyer, Wendy Doniger, 2010-03-08 This volume comprises papers presented at a conference marking the 50th anniversary of Joachim Wach's death and the centennial of Mircea Eliade's birth Its purpose is to reconsider both the problematic separate legacies of these two major twentieth century historians of religions and the bearing of these two legacies upon each other Shortly after Wach's death in 1955 Eliade succeeded him as the premiere historian of religions at the University of Chicago As a result the two have been associated with each other in many people's minds as the successive leaders of the so called Chicago School in the history of religions In fact as this volume makes clear there never was a monolithic Chicago School Although Wach reportedly referred to Eliade as the most astute historian of religions of the day the two never met and their approaches to the study of religions differed significantly Several dominant issues run through the essays collected here the relationship between the two men's writings and their lives and in Eliade's case the relationship between his political commitments and his writings in fiction history of religions and autobiography Both men's contributions to the field continue to provoke controversy and debate and this volume sheds new light on these controversies and what they reveal about these two scholars legacies **The Relationship Between Mysticism and Politics in the Personality of Ayatollah Khomeini** Emad Bazzi, 2002 Knowledge and Politics Volker Meja, Nico Stehr, 2014-08-13 Karl Mannheim's *Ideology and Utopia* has been a profoundly provocative book The debate about politics and social knowledge that was spawned by its original publication in 1929 attracted the most promising younger scholars some of whom shaped the thought of several generations The book became a focus for a debate on the methodological and epistemological problems confronting German social science More than thirty major papers were published in response to Mannheim's text Writers such as Hannah Arendt Ernst Robert Curtius Max Horkheimer Herbert Marcuse Helmuth Plessner Hans Speier and Paul Tillich were among the contributors Their positions varied from seeing in the sociology of knowledge a sophisticated reformulation of the materialist conception of history to linking its popularity to a betrayal of Marxism The English publication in 1936 defined formative issues for two generations of sociological self reflection *Knowledge and Politics* provides an introduction to the dispute and reproduces the leading contributions It sheds new light on one of the greatest controversies that have marked German social science in the past hundred years Sufism in Morocco's Religious Politics John C. Thibdeau, 2023-07-25 This book outlines the role of Sufism in Moroccan politics in the twenty first century through a comparative study of contemporary Sufi organizations The author begins his analysis by highlighting the strategies employed by the Moroccan state over the past twenty years aimed at regulating and producing an authorized Moroccan Islam in the kingdom Despite these policies of spiritual security and spiritual diplomacy including the

state sponsorship of Sufi organizations the author argues that this has not decreased diversity nor produced a banal interpretation of Islam but rather given rise to diverse articulations and performances of this religiosity Through a comparative analysis of three Sufi organizations based on eighteen months of fieldwork two of which have never before been studied the author brings into relief the spaces of creative enactment of Sufism as an ethical tradition Ultimately it is argued that each Sufi organization reflects a different refraction of i s n a concept emphasising the cultivation of public piety which underpins the Moroccan state s formulation of Islam Focused on both theoretical contributions to Islamic studies and topical treatments of geopolitical issues like spiritual diplomacy the Western Sahara and Morocco Algeria the book spans multiple disciplines including anthropology religious studies sociology and political science **Knowledge and Politics (RLE**

Mysticism and Materialism in the Wake of German Idealism W. Ezekiel Goggin, Sean Hannan, 2022-03-30 This book argues that the rediscovery of mystical theology in nineteenth century Germany not only helped inspire idealism and romanticism but also planted the seeds of their overcoming by way of critical materialism Thanks in part to the Neoplatonic turn in the works of J G Fichte as well as the enthusiasm of mining engineer Franz X von Baader mystical themes gained a critical currency and mystical texts returned to circulation This reawakening of the mystical tradition influenced romantic and idealist thinkers such as Novalis and Hegel and also shaped later critical interventions by Marx Benjamin and Bataille Rather than rehearsing well known connections to Swedenborg or B hme this study goes back further to the works of Meister Eckhart Nicholas of Cusa Catherine of Siena and Angela of Foligno The book offers a new perspective on the reception of mystical self interrogation in nineteenth century German thought and will appeal to scholars of philosophy history theology and religious studies
