illustrated by case studies The Routledge Handbook of Research Methods in the Study of Religion is essential reading for students and researchers in the study of religion as well as for those in related disciplines

Religion and Retributive Logic Carole M. Cusack, Christopher Hartney, 2010 Garry Winston Trompf b 1940 in his outstanding academic career has inspired scholars in the fields of Studies in Religion and the History of Ideas In this volume his colleagues and students critique and expand upon the world of this outstanding academic The book is divided into four parts Melanesia Ancient World Studies Philosophical and Methodological Considerations and Historiography Authors address Trompf's research in works such as The Idea of Historical Recurrence in Western Thought Early Christian Historiography and themes of Melanesian religion that Trompf address in Payback No study in the religions of Oceania or ideas of millennialism should ignore this critical assessment of Garry Trompf's work

A Christian Pilgrim in India Harry Oldmeadow, 2007-11-28 This book provides a biographical account of the remarkable Benedictine monk Henri Le Saux 1910-1973 who spent the last two and a half decades of his life in India where he immersed himself in Hindu spirituality It traces the central themes of his prolific writings on religious and mystical topics

The Ethics of Sankara and Santideva Warren Lee Todd, 2016-03-23 Exploring the philosophical concerns of the nature of self this book draws from two of the most influential Indian masters a kara and ntideva Todd demonstrates that an ethics of altruism is still possible within a metaphysics which assumes there to be no independent self A new ethical model based on the notions of flickering consciousness and constructive altruism is proposed By comparing the metaphysics and ethics of a kara and ntideva Todd shows that the methodologies and aims of these Buddhist and Hindu masters trace remarkably similar cross cutting paths Treating Buddhism and Hinduism with equal respect this book compares and reinterprets the Indian material so as to engage with contemporary Western debates on self and to show that Indian philosophy is indeed a philosophy of dialogue

The Secular Religion of Franklin Merrell-Wolff Dave Vliegenthart, 2018-01-16 In The Secular Religion of Franklin Merrell Wolff An Intellectual History of Anti intellectualism in Modern America Dave Vliegenthart offers an account of the life and teachings of the modern American mystic Franklin Merrell Wolff 1887-1985 who combined secular and religious sources from eastern and western traditions in order to elaborate and legitimate his metaphysical claim to the realization of a transcendental reality beyond reason Using Merrell Wolff as a typical example of a modern western guru Vliegenthart investigates the larger sociological and historical context of the ongoing grand narrative that asserts a widespread anti intellectualism in modern American culture exploring developments in religious philosophical and psychological discourses in North America from 1800 until the present

A Phenomenology of the Devout Life George Pattison, 2018-11-10 A Phenomenology of the Devout Life is the first part of a three part work A Philosophy of Christian Life Rather than approaching Christianity through its doctrinal statements as philosophers of religion have often done the book starts by offering a phenomenological description of the devout life as that is set out in the teaching of Francois de Sales and related authors This is because for most Christians practice and life

commitments are more fundamental than formal doctrinal beliefs Although George Pattison will address the metaphysical truth claims of Christianity in Part three the guiding argument is that it is the Christian way of life that best reveals what these beliefs really are As the work is a philosophical study it does not presuppose the truth of Christianity but assumes only that there is a humanly accessible meaning to the intention to live a devout life pleasing to God This can be said to find expression in a certain view of selfhood that emphasizes the dimensions of feeling and will rather than intellect and that culminates in the experience of the annihilation of self This is a model of selfhood deeply opposed to contemporary models that privilege autonomous agency and the devout life is therefore presented as offering a corrective to extreme versions of the contemporary view

Gnosis Dan Merkur,1993-10-05 Gnosis traces the use of powerful gnostic visionary techniques from Hellenistic Gnosticism and Jewish merkabah mysticism through Muhammad the Ismaeilis and theosophical Sufism to medieval neoplatonism and renaissance alchemy

The Role of Revelation in the World's Religions Beverly Moon,2014-01-10 The human reception of divine messages known as revelation has often played a central role in world religions This study explores how spirituality and the personal experience of the divine has been expressed and preserved in various religious traditions The phenomenon of revelation is explored and interpreted through examples from across the religious spectrum and six different types of revelation are posited visions and voices divination spirit journey spirit mediation mystical union and divine incarnation

How to Do Comparative Theology Francis X. Clooney,Klaus von Stosch,2017-12-12 For a generation and more the contribution of Christian theology to interreligious understanding has been a subject of debate Some think of theological perspectives are of themselves inherently too narrow to support interreligious learning and argue for an approach that is neutral or on a more popular level grounded simply open minded direct experience In response comparative theology argues that theology as faith seeking understanding offers a vital perspective and a way of advancing interreligious dialogue aided rather than hindered by commitments theological perspectives can both complement and step beyond the study of religions by methods detached and merely neutral Thus comparative theology has been successful in persuading many that interreligious learning from one faith perspective to another is both possible and worthwhile and so the work of comparative theology has become more recognized and established globally With this success there has come to the fore new challenges regarding method How does one do comparative theological work in a way that is theologically grounded genuinely open to learning from the other sophisticated in pursuing comparisons and fruitful on both the academic and practical levels How To Do Comparative Theology therefore contributes to the maturation of method in the field of comparative theological studies learning across religious borders by bringing together essays drawing on different Christian traditions of learning Judaism and Islam Hinduism and Buddhism the wisdom of senior scholars and also insights from a younger generation of scholars who have studied theology and religion in new ways and are more attuned to the language of the spiritual but not religious The essays in this volume show great diversity in method and also over and again

and from many angles coherence in intent a commitment to one learning from the other and a confidence that one's home tradition benefits from fair and unhampered learning from other and very different spiritual and religious traditions It therefore shows the diversity and coherence of comparative theology as an emerging discipline today *The History of Religious Imagination in Christian Platonism* Christian Hengstmann, 2021-03-25 This collection provides the first in depth introduction to the theory of the religious imagination put forward by renowned philosopher Douglas Hedley from his earliest essays to his principal writings Featuring Hedley's inaugural lecture delivered at Cambridge University in 2018 the book sheds light on his robust concept of religious imagination as the chief power of the soul's knowledge of the Divine and reveals its importance in contemporary metaphysics ethics and politics Chapters trace the development of the religious imagination in Christian Platonism from Late Antiquity to British Romanticism drawing on Origen Henry More and Samuel Taylor Coleridge before providing a survey of alternative contemporary versions of the concept as outlined by Karl Rahner René Girard and William P Alston as well as within Indian philosophy By bringing Christian Platonist thought into dialogue with contemporary philosophy and theology the volume systematically reveals the relevance of Hedley's work to current debates in religious epistemology and metaphysics It offers a comprehensive appraisal of the historical contribution of imagination to religious understanding and as such will be of great interest to philosophers theologians and historians alike
