Mysticism And Nature:

Nature Mysticism John Edward Mercer, 2019-11-26 In *Nature Mysticism* John Edward Mercer embarks on an intellectual exploration of the profound connections between nature and the human experience. The book is characterized by its lyrical prose and philosophical depth, weaving together elements of mysticism, ecology, and spirituality. Mercer draws upon a rich tapestry of literary traditions, from Romantic poets to contemporary environmental thinkers, to illustrate how nature can serve as a conduit for transcendental insights. Each chapter invites readers to contemplate their own relationship with the natural world, inviting an experiential understanding that transcends mere observation. Mercer, an accomplished essayist and scholar of comparative literature, has spent years studying the intersection of literature and environmental philosophy. His background in both Western and Eastern mystical traditions informs his writing, allowing him to synthesize complex ideas in a manner that is both accessible and thought-provoking. This dual perspective has led him to appreciate the timelessness of nature's influence on human consciousness and the essential role it plays in shaping our spiritual lives. For readers seeking a deeper connection with the natural world and a richer understanding of the mystical dimensions of life, *Nature Mysticism* is an essential read. Mercer's thoughtful examination challenges us to reconsider our place within the ecosystem, inspiring readers not only to reflect on their experiences but also to engage actively with the wonders of the world around them.

Mysticism Evelyn Underhill, 2002-01-01 The work of a noted British authority on mysticism, it is divided into two parts: the first provides an introduction to the general subject of mysticism and its relation to metaphysics, psychology, theology, magic, and symbolism. The second and longer part contains a detailed study of the nature and development of spiritual or mystical consciousness, including such topics as the awakening of the self, the purification of the self, voices and visions, introversion, ecstasy, and rapture, the dark night of the soul, and the unitive life. An interesting appendix provides a historical sketch of European mysticism from the beginning of the Christian era to the death of Blake. *Lectures on Mysticism and Nature Worship* Carl Henrik Andreas Bjerregaard, 2010 Nature Mysticism John Edward Mercer, 2015-09-07 A wave of Mysticism is passing over the civilised nations. It is welcomed by many, but more it is mistrusted. Even the minds to which it would naturally appeal are often restrained from sympathy by fears of vague speculative driftings and of transcendental emotionalism. Nor can it be doubted that such an attitude of aloofness is at once reasonable and inevitable. For a systematic exaltation of formless ecstasies at the expense of sense and intellect has a tendency to become an infirmity if it does not always betoken loss of mental balance. In order therefore to disarm natural prejudice, let an opening chapter be devoted to general exposition of aims and principles. The subject is *Nature Mysticism*. The phenomena of nature are to be studied in their mystical aspects. The wide term *Mysticism* is used because in spite of many misleading associations it is hard to replace. Love of nature is too general, cosmic emotion is too specialised. But let it at once be understood that the *Mysticism* here contemplated is neither of the popular nor of the esoteric sort. In other words, it is not loosely synonymous with the magical or

supernatural nor is it a name for peculiar forms of ecstatic experience which claim to break away from the spheres of the senses and the intellect It will simply be taken to cover the causes and the effects involved in that wide range of intuitions and emotions which nature stimulates without definite appeal to conscious reasoning processes Mystic intuition and mystic emotion will thus be regarded not as antagonistic to sense impression but as dependent on it not as scornful of reason but merely as more basic and primitive **Mysticism** Evelyn Underhill,1930 Mysticism in Nature Kelly Peterson,2002

Remaining a classic in its field this book explains first how mysticism relates to such things as vitalism theology psychology symbolism and magic This treatment may seem unusual for Christian mysticism but it relates widely to the world as we know it and the different practices therein Part Two explores the awakening purification and illumination of yourself and gives solid groundwork for such things as voices visions dreams and other mystical experience **Lectures on Mysticism and**
