## **Mysticism East West:**

Mysticism East and West Rudolf Otto, 2016-09-30 This book attempts to penetrate the nature of that strange spiritual phenomenon which we call mysticism by comparing the two principal classic types of Eastern and Western mystical experience By means of this comparison and by explaining the individual features of one type by those of the other the nature of mysticism itself becomes gradually more comprehensible From the Foreword *Christian Mysticism East and West* Maria Jaoudi, 1998 Explores themes of transformation wholeness and healing as presented by both Eastern and Western mystics and how their ideas parallel the global insights found in Hinduism Taoism Islam and Buddhism **Mysticism East and West** Rudolf Otto, 1970 **East West Mimesis** Kader Konuk, 2010-09-21 East West Mimesis follows the plight of German Jewish humanists who escaped Nazi persecution by seeking exile in a Muslim dominated society Kader Konuk asks why philologists like Erich Auerbach found humanism at home in Istanbul at the very moment it was banished from Europe She challenges the notion of exile as synonymous with intellectual isolation and shows the reciprocal effects of German migr s on Turkey s humanist reform movement By making literary critical concepts productive for our understanding of Turkish cultural history the book provides a new approach to the study of East West relations Central to the book is Erich Auerbach s *Mimesis The Representation of Reality in Western Literature* written in Istanbul after he fled Germany in 1936 Konuk draws on some of Auerbach s key concepts figura as a way of conceptualizing history and mimesis as a means of representing reality to show how Istanbul shaped Mimesis and to understand Turkey s humanist reform movement as a type of cultural mimesis **The East-West Dichotomy** Thorsten J. Pattberg, 2009-08-18 The East West dichotomy is a philosophical concept of ancient origin which claims that the two cultural hemispheres East and West developed diametrically opposed one from the particular to the universal and the other from the universal to the particular the East is more inductive while the West is more deductive Together they form an equilibrium **Comparative Theology and the Problem of Religious Rivalry** Hugh Nicholson, 2011-04-08 In theological discourse argues Hugh Nicholson the political goes all the way down One never reaches a bedrock level of politically neutral religious facts because all theological discourse even the most sublime edifying and spiritual is shot through with polemical elements Liberal theologies from the Christian fulfillment theology of the nineteenth century to the pluralist theology of the twentieth have assumed that religious writings attain spiritual truth and sublimity despite any polemical elements they might contain Through his analysis and comparison of the Christian mystical theologian Meister Eckhart and his Hindu counterpart aSkara Nicholson arrives at a very different conclusion Polemical elements may in fact constitute the creative source of the expressive power of religious discourses Wayne Proudfoot has argued that mystical discourses embody a set of rules that repel any determinate understanding of the ineffable object or experience they purport to describe In *Comparative Theology and the Problem of Religious Rivalry* Nicholson suggests that this principle of negation is connected perhaps through a process of abstraction and sublimation

with the need to distinguish oneself from one's intra and/or inter religious adversaries Nicholson proposes a new model of comparative theology that recognizes and confronts one of the most urgent cultural and political issues of our time namely the return of the political in the form of anti secular and fundamentalist movements around the world This model acknowledges the ineradicable nature of an oppositional dimension of religious discourse while honoring and even advancing the liberal project of curtailing intolerance and prejudice in the sphere of religion *Philosophy of Education in Dialogue between East and West* Masamichi Ueno, 2023-07-31 This edited book opens a dialogue on theories and philosophies of education between the East and the West in the era of globalisation A great deal of research has been devoted to discussion of the ideas of Western theorists such as Plato Aristotle Locke Rousseau Kant Fribel Herbert Dewey Piaget and so on and their thoughts have had a tremendous impact on Japanese educational practices In addition the 21st century society has promoted international academic standardisation of knowledge skills and competencies for a knowledge based economy making great strides in educational development for globalisation On the other hand East Asia has retained its own unique insights and perspectives that cannot entirely be understood by Western philosophies of education alone The contributors to this volume offer the reader insights into how Japanese and East Asian theories and philosophies of education encounter those from the West by taking up heated and controversial issues such as education of caring morality nature catastrophe body and cultivation art language politics democracy and modernity The book will appeal to researchers teachers students policymakers and anyone interested in the theory and philosophy of education in the East or those who would like to reconsider education in a multicultural society This book won the Philosophy of Education Society of Australasia PESA Book Award for 2024 *Eschatology* Hans Schwarz, 2000-09-22 Schwarz guides readers through the range of opinions on the subject of the future telling how readers' understanding of eschatology has developed and laying out the factors that must be considered when speaking meaningfully about the Christian hope in the 21st century He surveys the teachings about the future in the Old and New Testaments and addresses the views of Christian and secular thinkers throughout history

Mysticism Jess Hollenback, 1996-11-01 This sweeping study of mysticism by Jess Hollenback considers the writings and experiences of a broad range of traditional religious mystics including Teresa of Avila Black Elk and Gopi Krishna It also makes use of a new category of sources that more traditional scholars have almost entirely ignored namely the autobiographies and writings of contemporary clairvoyants mediums and out of body travelers This study contributes to the current debate about the contextuality of mysticism by presenting evidence that not only are the mystic's interpretations of and responses to experiences culturally and historically conditioned but historical context and cultural environment decisively shape both the perceptual and affective content of the mystic's experience as well Hollenback also explores the linkage between the mystic's practice of recollection and the onset of other unusual or supernormal manifestations such as photisms the ability to see auras telepathic sensitivity clairvoyance and out of body experiences He demonstrates that these

extraordinary phenomena can actually deepen our understanding of mysticism in unexpected ways A unique feature of this book is its in depth analysis of empowerment an important phenomenon ignored by most scholars of mysticism Empowerment is a peculiar enhancement of the imagination thoughts and desires that frequently accompanies mystical states of consciousness Hollenback shows its cross cultural persistence its role in constructing the perceptual and existential environments within which the mystic dwells and its linkage to the fundamental contextuality of mystical experience

*Rudolf Otto and the Foundation of the History of Religions* Yoshitsugu Sawai, 2022-02-10 This book provides an up to date treatment of Rudolf Otto and his work placing him in the context of comparative religion theology and the philosophy of religion Yoshitsugu Sawai shows how Otto has three faces the Lutheran Theologian the Philosopher of Religion and the Comparative Religionist The book also shows how of these Otto saw himself primarily as a Lutheran Theologian and provides an account of Otto s engagement with India and the centrality that Hindu theology had on his thinking In Otto s theory of religion his well known concepts including wholly other and numinous constitute a multiple structure of meaning For example his concept of the wholly other *das ganz Andere* no doubt has the meaning of God in his Christian theological studies At the same time however from the perspective of comparative religion or the phenomenology of religion this same term semantically implies the ultimate reality of other religious traditions Brahman and God Isvara in Hindu religious tradition as well as God in Christianity

What Are They Saying About Mysticism? Harvey D. Egan, 2021-10-21 Fr Egan surveys the current scholarship on mysticism giving special attention to the works Carl Albrecht Hans Urs von Balthasar Richard Bucke Teilhard de Chardin Harvey Cox William James William Johnston Bernard Lonergan Thomas Merton Erich Neumann Karl Rahner Walter Stace Evelyn Underhill R C Zaehner and many lesser known authors The book covers a wide spectrum of modern thinking It presents authors who treat mysticism as a psychological phenomenon involving pathology and altered states of consciousness as well as others who understand it as stages of life toward union with the God of Love Fr Egan also highlights both those authors who have opened up Christian mysticism to the riches of the Eastern tradition and those critical of this Eastern turn Finally he explores the theological reflections of Karl Rahner and Bernard Lonergan for their ability to bring together mystical spirituality and academic theology These contemporary theologians offer a solid foundation for a new science of mysticism based on the Christian mystical tradition empirical sciences East West dialogue and contemporary theological pluralism

**The Cambridge Handbook of Western Mysticism and Esotericism** Glenn Alexander Magee, 2016-04-18 Mysticism and esotericism are two intimately related strands of the Western tradition Despite their close connections however scholars tend to treat them separately Whereas the study of Western mysticism enjoys a long and established history Western esotericism is a young field The Cambridge Handbook of Western Mysticism and Esotericism examines both of these traditions together The volume demonstrates that the roots of esotericism almost always lead back to mystical traditions while the work of mystics was bound up with esoteric or occult preoccupations It also shows

why mysticism and esotericism must be examined together if either is to be understood fully Including contributions by leading scholars this volume features essays on such topics as alchemy astrology magic Neoplatonism Kabbalism Renaissance Hermetism Freemasonry Rosicrucianism numerology Christian theosophy spiritualism and much more This Handbook serves as both a capstone of contemporary scholarship and a cornerstone of future research Literature of Mysticism in Western Tradition P. Grant,1983-09-01 **A Source Book in Indian Philosophy** Sarvepalli Radhakrishnan,Charles A. L. Macfie,2019-08-05 This Reader explores the extent of Oriental influence on European thought primarily in the period of the Enlightenment and the nineteenth century period of doubt and scepticism that followed it It is the first Reader to bring together in one place a series of specific historical and textual studies of Oriental influence upon European thinkers **Love in the Western World** Denis De Rougemont,1983-08-21 In this classic work often described as The History of the Rise Decline and Fall of the Love Affair Denis de Rougemont explores the psychology of love from the legend of Tristan and Isolde to Hollywood At the heart of his ever relevant inquiry is the inescapable conflict in the West between marriage and passion the first associated with social and religious responsibility and the second with anarchic unappeasable love as celebrated by the troubadours of medieval Provence These early poets according to de Rougemont spoke the words of an Eros centered theology and it was through this heresy that a European vocabulary of mysticism flourished and that Western literature took on a new direction Bringing together historical religious philosophical and cultural dimensions the author traces the evolution of Western romantic love from its literary beginnings as an awe inspiring secret to its commercialization in the cinema He seeks to restore the myth of love to its original integrity and concludes with a philosophical perspective on modern marriage **Teilhard Lexicon** Sion Cowell,2004-06-01 Written to enable researchers and students to better understand the specialised language of Teilhard s transdisciplinary approach which he found himself compelled to develop as a means of expressing that extraordinary vision of a universe in process of convergence towards a cosmic centre of unity he identifies with the Cosmic Christ *The Value of the Particular: Lessons from Judaism and the Modern Jewish Experience* Michael Zank,Ingrid Anderson,2015-04-14 In this tribute to Steven T Katz on the occasion of his seventieth birthday Michael Zank and Ingrid Anderson present sixteen original essays written by senior and junior scholars in comparative religion philosophy of religion modern Judaism and theology after the Holocaust fields of inquiry where Steven Katz made major contributions over the course of his distinguished scholarly career The authors of this volume specialists in Jewish history especially the modern experience and Jewish thought from the Bible to Buber offer theoretical and practical observations on the value of the particular Contributions range from Tim Knepper s

**The Secular Religion of Franklin Merrell-Wolff** Dave Vliegenthart, 2018-01-16 In *The Secular Religion of Franklin Merrell Wolff: An Intellectual History of Anti-intellectualism in Modern America* Dave Vliegenthart offers an account of the life and teachings of the modern American mystic Franklin Merrell Wolff 1887-1985 who combined secular and religious sources from eastern and western traditions in order to elaborate and legitimate his metaphysical claim to the realization of a transcendental reality beyond reason. Using Merrell Wolff as a typical example of a modern western guru, Vliegenthart investigates the larger sociological and historical context of the ongoing grand narrative that asserts a widespread anti-intellectualism in modern American culture, exploring developments in religious, philosophical, and psychological discourses in North America from 1800 until the present.

*Zen and the Unspeakable God* Jason N. Blum, 2015-09-21 *Zen and the Unspeakable God* reevaluates how we study mystical experience. Forsaking the prescriptive epistemological box that has constrained the conversation for decades, ensuring that methodology has overshadowed subject matter, Jason Blum proposes a new interpretive approach, one that begins with a mystic's own beliefs about the nature of mystical experience. Blum brings this approach to bear on the experiential accounts of three mystical exemplars: Meister Eckhart, Ibn al-Arabi, and Hui-neng. Through close readings of their texts, he uncovers the mystics' own fundamental assumptions about transcendence and harnesses these as interpretive guides to their experiences. The predominant theory, first path to interpretation, has led to the misunderstanding and misrepresentation of individual mystical experiences and fostered specious conclusions about cross-cultural comparability among them. Blum's hermeneutic invites the scholarly community to begin thinking about mystical experience in a new way through the mystics' eyes. *Zen and the Unspeakable God* offers a sampling of the provocative results of this technique and an explanation of its implications for theories of consciousness and our contemporary understanding of the nature of mystical experience.
