Mystics Of The Renaissance:

Mystics of the Renaissance and Their Relation to Modern Thought Rudolf Steiner, 1911 *Mystics of the Renaissance and Their Relation to Modern Thought, Including Meister Eckhart, Tauler, Paracelsus, Jacob Boehme, Giordano Bruno, and Others* Rudolf Steiner, 1910-01-01

The matter which I am laying before the public in this book formed the content of lectures which I delivered during last winter at the Theosophical Library in Berlin I had been requested by Graf Brockdorff to speak upon Mysticism before an audience for whom the matters thus dealt with constitute a vital question of the utmost importance Ten years earlier I could not have ventured to fulfil such a request Not that the realm of ideas to which I now give expression did not even then live actively within me For these ideas are already fully contained in my *Philosophy of Freedom* Berlin 1894

Emil Felber But to give expression to this world of ideas in such wise as I do to day and to make it the basis of an exposition as is done on the following pages to do this requires something quite other than merely to be immovably convinced of the intellectual truth of these ideas It demands an intimate acquaintance with this realm of ideas such as only many years of life can give Only now after having enjoyed that intimacy do I venture to speak in such wise as will be found in this book Any one who does not approach my world of ideas without preconceptions is sure to discover therein contradiction after contradiction I have quite recently Berlin 1900 S Cronbach dedicated a book upon the world conceptions of the nineteenth century to that great naturalist Ernst Haeckel and closed it with a defence of his thought world In the following expositions I speak about the Mystics from Master Eckhart to Angelus Silesius with a full measure of devotion and acquiescence Other contradictions which one critic or another may further count up against me I shall not mention at all It does not surprise me to be condemned from one side as a Mystic and from the other as a Materialist When I find that the Jesuit Father Mller has solved a difficult chemical problem and I therefore in this particular matter agree with him unreservedly one can hardly condemn me as an adherent of Jesuitism without being reckoned a fool by those who have insight Whoever goes his own road as I do must needs allow many a misunderstanding about himself to pass That however he can put up with easily enough For such misunderstandings are in the main inevitable in his eyes when he recalls the mental type of those who misjudge him I look back not without humorous feelings upon many a critical judgment that I have suffered in the course of my literary career At the outset matters went fairly well I wrote about Goethe and his philosophy What I said there appeared to many to be of such a nature that they could file it in their mental pigeon holes This they did by saying A work such as Rudolf Steiner's Introduction to Goethe's Writings upon Natural Science may without hesitation be described as the best that has been written upon this question When later I published an independent work I had already grown a good bit more stupid For now a well meaning critic offered the advice Before he goes on reforming further and gives his *Philosophy of Freedom* to the world he should be pressingly advised first to work himself through to an understanding of these two philosophers Hume and Kant The critic unfortunately knows only so much as he is himself able to read in Kant and Hume

practically therefore he simply advises me to learn to see no more in these thinkers than he himself sees When I have attained that he will be satisfied with me Then when my Philosophy and Freedom appeared I was found to be as much in need of correction as the most ignorant beginner This I received from a gentleman who probably nothing else impelled to the writing of books except that he had not understood innumerable foreign ones He gravely informs me that I should have noticed my mistakes if I had made more thorough studies in psychology logic and the theory of knowledge and he enumerates forthwith the books I ought to read to become as wise as himself Mill Sigwart Wundt Riehl Paulsen B Erdmann What amused me especially was this advice from a man who was so impressed with the way he understood Kant that he could not even imagine how any man could have read Kant and yet judge otherwise than himself He therefore indicates to me the exact chapters in question in Kant s writings from which I may be able to obtain an understanding of Kant as deep and as thorough as his own Mystics of the Renaissance Rudolf Steiner,1911

Mystics of the Renaissance and Their Relation to Modern Thought - Including Meister Eckhart, Tauler, Paracelsus, Jacob Boehme, Giordano Bruno and Others Rudolph Steiner,C. K. Howard-Bury,2009-03 During the renaissance science was never separated from mysticism and alchemy Some of the finest minds such as Leonardo da Vinci and Isaac Newton were all heavily involved in what they would of called the mystic arts This is a fascinating guide to the less well known pioneers of scientific discovery including Meister Eckhart Nicholas of cusa and Giodarno Bruno Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions using the original text and artwork **Mystics of the Renaissance and Their Relation to**

Steiner,2019-03-25 There are certain magical formulas which operate throughout the centuries of Man s mental history in ever new ways In Greece one such formula was regarded as an oracle of Apollo It runs Know Thyself Such sentences seem to conceal within them an unending life One comes upon them when following the most diverse roads in mental life The further one advances the more one penetrates into the knowledge of things the deeper appears the significance of these formulas In many a moment of our brooding and thinking they flash out like lightning illuminating our whole inner being In such moments there quickens within us a feeling as if we heard the heart beat of the evolution of mankind How close do we not feel ourselves to personalities of the past when the feeling comes over us through one of their winged words that they are revealing to us that they too had had such moments We feel ourselves then brought into intimate touch with these personalities For instance we learn to know Hegel intimately when in the third volume of his Lectures on the Philosophy of History we come across the words Such stuff one may say the abstractions that we contemplate when we allow the philosophers to quarrel and battle in our study and make it out to be thus or so mere verbal abstractions No No These are deeds of the world spirit and therefore of destiny Therein the Philosophers are nearer to the Master than are those who feed themselves with the crumbs of the spirit they read or write the Cabinet Orders in the original at once they are constrained to write them out along with Him **MYSTICS OF THE RENAISSANCE AND THEIR RELATION TO MODERN THOUGHT**
