African Myths J.K. Jackson, 2018-12-15 Sub Saharan Africa is a land of colourful contrasts and diverse cultures Despite the destructive influences of colonialism and the slave trade and the lack of early written records Africa has persevered with its powerful tradition of storytelling with tales of its history passed down in songs and stories through the generations Because of the huge diversity of lifestyles and traditions no real unified mythology exists in Africa but broadly speaking a number of beliefs ideas and themes are shared by African peoples So this collection offers a selection of descriptions and tales often those recorded faithfully by some of the first to put them to paper tales of the gods creation stories trickster adventures animal fables and stories which amuse and teach from Olukun's Revenge from the Yoruba people of west Africa to The Story of the Glutton from the Bantu speaking peoples of east Africa all brought together with the aim of providing an insight into the boundless and vibrant world of African myth

Iloanusi, 1984 The study of the myths of preliterate society is at times a painstaking venture because of the often rather unfortunate misinterpretation of these myths as false stories based on imagination But myth as a lived religious experience of a particular cultural society asserts the necessity for expression of transcendent realities which in turn are expressed in symbolic forms It governs the faith and controls the conduct of the people who live the myths in their ritual ceremonies As a narrative resurrection of primordial reality with normative influence myth satisfies deep religious needs fixes customs sanctions and modes of behaviour This work undertakes to show that religious myths of the preliterate society especially the myths of creation of man and the origin of death are not illusive stories concocted to deceive common mind but rather mental deductions of the preliterate mind of the history of his religion the knowledge of his

origin death and the hereafter *African Mythology, A to Z* Patricia Ann Lynch, Jeremy Roberts, 2010 The African continent is home to a fascinating and strong tradition of myth due in part to the long history of human habitation in Africa the diversity of its geography flora and fauna and the variety of its cultural beliefs African Mythology A to Z is a readable reference to the deities places events animals beliefs and other subjects that appear in the myths of various African peoples For the first time this edition features full color photographs and illustrations Coverage includes **African Myths & Legends** J.K. phase of European history When they began to arrive in sub Saharan Africa in the early 16th century Christian missionaries replaced established animist practices with the tenets of Christianity This was particularly true for the Catholics who offered a faith promising eternal paradise upon the simple confession of sin In an age of slavery disease and inter tribal warfare when life was unembellished brutal and usually short this was a particularly seductive message Add to this the ritual inherent in Catholic worship the drinking of blood and the eating of flesh and the susceptibilities of a society defined by elaborate religious rituals and the conversion succeeded with extraordinary ease It is also true that the Catholic spiritual hierarchy reflected the structure of African spiritual life The first line of African worship is composed of the spirits of passed ancestors whose relationship with the living remains direct and active This overlapped with the idea of a host of saints endowed with specific functions and responsibilities At a higher level the more remote ancestral spirits those of more than three or four generations past who have merged into the overall spirit of the nation formed a less definable but powerful presence in day to day life These spirits easily translate to angels while the almighty creator too vast and remote to be understood conforms to the notion of the one God The embrace of Christianity and Islam even today is not necessarily to the exclusion of ancestral spirits nor the essentials of witchcraft and sorcery The precarious security of albino people in east and central Africa whose body parts are sought after in traditional medicine is testimony to the fact that these superstitions are alive and well throughout Africa
