## **Myth Of The Militarynation Militarism Gender And Education In Turkey:**

*The Myth of the Military-Nation* A. Altınay, 2004-12-09 Altınay examines how the myth that the military is central to Turkey's national identity was created, perpetuated and acts to shape politics. Tracing how the ideology of militarism is maintained and its implications for ethnic and gender relations, she considers the challenges facing Turkey as it moves from being a plural to a pluralistic society.

*The Politics of Education in Turkey* Zühre Emanet, 2023-06-15 Control over education has been a keenly contested area since the Justice and Development Party (AKP) came to power in Turkey. Central to this contest has been the question of whose values would be passed down to future generations with the inculcation of gender segregation in primary schools, a key marker in ongoing cultural battles over Turkey's secularist founding principles and the growing dominance of Islamist political movements. This book offers an in-depth analysis of gender inequality in action in the Turkish schooling system by examining changes in education provision and culture in the years since 2012. Based on two school ethnographies conducted in an AKP-dominated district of Istanbul where the author worked as a teacher and researcher, it examines neoliberal education policies and their co-option by the AKP and other Islamist movements to promote their own agendas while also considering the effects of the struggle between rival Islamist groups. Grounding its theoretical approach with empirical evidence of ideology in action, it provides an important analysis of the way in which boys and girls are socialized in Turkey's public schooling system.

*The Right to Conscientious Objection to Military Service and Turkey's Obligations under International Human Rights Law* Ö. Çınar, 2014-07-25 This study examines Turkey's non-recognition of the right to conscientious objection to military service and locates this non-recognition within the context of international human rights law, specifically United Nations and European Union systems.

*Freedom of Religion and Belief in Turkey* Mine Yıldırım, Özgür Heval Çınar, 2014-08-20 The protection of the right to freedom of thought, conscience and religion is one of the most basic tenets of a democratic society. This right is not only crucial for those who believe but is also so for atheists, agnostics and sceptics who have no religious beliefs. It is also considered a cornerstone of a democratic society and is closely linked to pluralism, tolerance and open-mindedness. Turkey has been involved in an accession process in order to become a full member of the European Union (EU) since 2005. The Justice and Development Party (Adalet ve Kalkınma Partisi, AKP) which first formed a government after its election victory of 2002, pledged to introduce reforms and lift prohibitions. Hence, although the AKP has made significant progress towards meeting the political norms required for EU membership in its twelve years in power, there are many outstanding restrictions regarding the right to freedom of thought, conscience and religion which remain in place. This book provides an overview of recent developments pertaining to the protection of the right to freedom of religion and belief in Turkey, a country that in its constitution is defined as a democratic and secular state. As it is not feasible to examine all questions in one book, this study will confine itself to the most topical and urgent issues.

*Civil-Military Entanglements* Birgitte Refslund Sørensen, Eyal Ben-Ari, 2019-07-16 Military civilian

encounters are multiple and diverse in our times Contributors to this volume demonstrate how military and civilian domains are constituted through entanglements undermining the classic civil military binary and manifest themselves in unexpected places and manners Moreover the essays trace out the ripples reverberations and resonations of civil military entanglements in areas not usually associated with such ties but which are nevertheless real and significant for an understanding of the roles war violence and the military play in shaping contemporary societies and the everyday life of its citizens

**The Korean War in Turkish Culture and Society** Nadav Solomonovich, 2021-10-15 This book explores the important role that the Korean War played in Turkish culture and society in the 1950s Despite the fact that fewer than 15 000 Turkish soldiers served in Korea this study shows that the Turkish public was exposed to the war in an unprecedented manner considering the relatively small size of the country's military contribution It examines how the Turkish people understood the war and its causes how propaganda was used to sell the war to the public and the impact of these messages on the Turkish public Drawing on literary and visual sources including archival documents newspapers protocols of parliamentary sessions books poems plays memoirs cartoons and films the book shows how the propaganda employed by the state and other influential civic groups in Turkey aimed to shape public opinion regarding the Korean War It explores why this mattered to Turkish politicians viewing this as instrumental in achieving the country's admission to NATO and why it mattered to Turkish people more widely seeing instead a war in the name of universal ideas of freedom humanity and justice and comparing the Turkish case to other states that participated in the war

Turkey, Power and the West Ali Bilgic, 2016-09-29 During the leadership of Recep Tayyip Erdoğan and the AKP the Turkish government shifted from a reactive to an activist foreign policy As a result many in the West increasingly began to see Turkey as a key actor in the international relations of the region and indeed the wider international stage Turkey and the West offers a unique approach to this transformation and considers questions of Turkish national identity and its relations with the West through the lens of gender studies From the Ottoman Empire to the present day the book constructs an image of Turkish foreign policy as reflecting a gendered insecurity one of a non Western Turkish masculinity subordinated to a Western hegemonic masculinity and shows how Turkey's subordination has in turn been internalised by its own politicians Across a diverse range of sources Bilgic takes advantage of new theories such as critical security studies CSS to paint a picture of a Turkish republic anxious to make its mark on the world stage yet perennially insecure about its position as a global power Turkey and the West is essential for students and researchers interested in Turkish politics and the international relations of the Middle East as well as those with an interest in gender and identity studies

*Populism, Authoritarianism and Necropolitics* Ihsan Yilmaz, Omer Erturk, 2023-02-06 This book examines how Turkey's ruling party the Justice and Development Party AKP under the leadership of Recep Tayyip Erdogan produces and employs necropolitical narratives in order to perpetuate its authoritarian rule. In doing so the book argues that as the party transitioned from socially conservative Muslim democratic values to authoritarian Islamism it embraced a necropolitical narrative based on the promotion of martyrdom and of killing and dying for the Turkish nation and Islam as part of their authoritarian legitimation. This narrative the book shows is used by the party to legitimise its actions and deflect its failures through the framing of the deaths of Turkish soldiers and civilians which have occurred due to the AKP's political errors as martyrdom events in which loyal servants of the Turkish Republic and God gave their lives in order to protect the nation in a time of great crisis. This book also describes how throughout its second decade in power the AKP has used Turkey's education system its Directorate of Religious Affairs and television programs in order to propagate its necropolitical martyrdom narrative.

**Angry Nation** Kerem Öktem, 2012-02-07 Since its re-emergence as nation state in 1923 Turkey has often looked like an odd appendix to the West situated in the borderlands of Europe and the Middle East economically backward inward looking marred by political violence yet a staunch NATO ally it has been eyed with suspicion by both East and West. The momentous changes in the regional and world order after 1989 have catapulted the country back to the world stage. Ever since Turkey has turned into a major power broker and has developed into one of the largest economies in the world. In the process however the country has failed to solve its ethnic religious and historical conflicts peacefully. At this historical turning point Kerem Öktem charts the contemporary history of Turkey exploring such key issues as the relationship between religion and the state Kurdish separatism Turkey's relationship with Israel and the ongoing controversy over Turkey's entry into the EU. Readable but comprehensive this is the definitive book on the country's erratic transformation from a military dictatorship to a maturing if still troubled democracy.

**The Genocide of the Christian Populations in the Ottoman Empire and its Aftermath (1908-1923)** Taner Akçam, Theodosios Kyriakidis, Kyriakos Chatzikyriakidis, 2023-01-31 During the twilight years of the Ottoman Empire the ethnic tensions between the minority populations within the empire led to the administration carrying out a systematic destruction of the Armenian people. This not only brought 2 000 years of Armenian civilisation within Anatolia to an end but was accompanied by the mass murder of Syriac and Greek Orthodox Christians. Containing a selection of papers presented at The Genocide of the Christian Populations of the Ottoman Empire and Its Aftermath 1908-1923 international conference hosted by the Chair for Pontic Studies at the Aristotle University of Thessaloniki this book draws on unpublished archival material and an innovative historiographical approach to analyze events and their legacy in comparative perspective. In order to understand

the historical context of the Ottoman Genocide it is important to study apart from the Armenian case the fate of the Greek and Assyrian peoples providing a more comprehensive understanding of the complexity of the situation This volume is primarily a research contribution but should also be valued as a supplementary text that would provide secondary reading for undergraduates and postgraduate students *Education in Turkey* Arnd-Michael Nohl, Arzu Akkoyunlu-Wigley, Simon Wigley, 2008 This book represents a major study of the development and present state of education in Turkey Turkey offers a unique context for studying education because of the tensions that exist between secularization and Islam top down social engineering and democratization and economic growth and social justice Education in Turkey brings together some of the leading educationalists in Turkey as well as a number of scholars from other disciplines The topics covered include the development and structure of primary secondary vocational and adult education the role of education in shaping citizenship and national identity human capital economic growth and educational inequalities This significant volume will be of particular interest to policy makers as well as researchers and students in education economics politics and Turkish studies

Belong in Museums? Wolfgang Muchitsch, 2014-04-15 Presentations of war and violence in museums generally oscillate

between the fascination of terror and its instruments and the didactic urge to explain violence and by analysing it make it easier to handle and prevent The museums concerned also have to face up to these basic issues about the social and institutional handling of war and violence Does war really belong in museums And if it does what objectives and means are involved Can museums avoid trivializing and aestheticising war transforming violence injury death and trauma into tourist sights What images of shock or identification does one generate and what images would be desirable **Gender,**
