Myth Ritual And Religion 1901:

Myth, Ritual and Religion Andrew Lang, 1887 *Myth Ritual and Religion* is a classic mythology studies text by Andrew Lang. When this book first appeared in 1886, the philological school of interpretation of religion and myth, being then still powerful in England, was criticised and opposed by the author. In *Science as on the Turkish throne of old Amurath*, to Amurath succeeds the philological theories of religion and myth; have now yielded to anthropological methods. The centre of the anthropological position was the ghost theory of Mr Herbert Spencer, the Animistic theory of Mr E R Tylor, according to whom the propitiation of ancestral and other spirits leads to polytheism and thence to monotheism. In the second edition of 1901 of this work, the author argued that the belief in a relatively supreme being anthropomorphic was as old as and might be even older than animistic religion. This theory he exhibited at greater length and with a larger collection of evidence in his *Making of Religion*. Since 1901, a great deal of fresh testimony as to what Mr Howitt styles the All Father in savage and barbaric religions has accrued. As regards this being in Africa, the reader may consult the volumes of the *New Series of the Journal of the Anthropological Institute* which are full of African evidence not as yet discussed to my knowledge by any writer on the History of Religion. As late as May for July 1906, No 66, Mr Parkinson published interesting Yoruba legends about Oloron, the maker and father of men, and Oro, the Master of the Bull Roarer.

The Science of Religion in Britain, 1860-1915 Marjorie Wheeler-Barclay, 2010-10-21 Marjorie Wheeler Barclay argues that although the existence and significance of the science of religion has been barely visible to modern scholars of the Victorian period it was a subject of lively and extensive debate among nineteenth century readers and audiences She shows how an earlier generation of scholars in Victorian Britain attempted to arrive at a dispassionate understanding of the psychological and social meanings of religious beliefs and practices a topic not without contemporary resonance in a time when so many people feel both empowered and threatened by religious passion and provides the kind of history she feels has been neglected Wheeler Barclay examines the lives and work of six scholars Friedrich Max Müller Edward B Tylor Andrew Lang William Robertson Smith James G Frazer and Jane Ellen Harrison She illuminates their attempts to create a scholarly non apologetic study of religion and religions that drew upon several different disciplines including anthropology sociology the classics and Oriental studies and relied upon contributions from those outside as well as within the universities This intellectual enterprise variously known as comparative religion the history of religions or the science of religion was primarily focused on non Christian religions Yet in Wheeler Barclay s study of the history of this field within the broad contexts of Victorian cultural intellectual social and political history she traces the links between the emergence of the science of religion to debates about Christianity and to the history of British imperialism the latter of which made possible the collection of so much of the ethnographic data on which the scholars relied and which legitimized exploration and conquest Far from promoting an anti religious or materialistic agenda the science of religion opened up cultural space for an exploration of religion that was not constricted by the terms of contemporary conflicts over Darwin and the Bible and that made it possible to think in new and more flexible ways about the very definition of religion

Friedrich Max Müller and the Role of Philology in Victorian Thought John R. Davis, Angus Nicholls, 2019-05-16 The German comparative philologist Friedrich Max Müller 1823 1900 was one of the most influential scholars in Victorian Britain Müller travelled to Britain in 1846 in order to prepare a translation of the Rig Veda This research visit would turn into a lifelong stay after Müller was appointed as Taylor Professor of Modern Languages at Oxford in 1854 Müller s activities in this position would exert a profound influence on British intellectual life

during the second half of the nineteenth century his book length essay on Comparative Mythology 1856 inspired evolutionist thinkers such as Herbert Spencer and Edward Burnett Tylor and made philology into one of the master sciences at mid century his debates with Charles Darwin and his followers on the origin of language constituted a significant component of religiously informed reactions to Darwin s ideas about human descent his arguments concerning the interdependence of language and thought influenced fields such as psychology neurology paediatrics and education until the end of the nineteenth century his theories concerning an Aryan language that purportedly predated Sanskrit and ancient Greek led to controversial debates on the relations between language religion and race in the Indian subcontinent and beyond and his monumental 50 volume edition of the Sacred Books of the East helped to lay the foundations for the study of comparative religion M ller s interlocutors and readers included people as various as Alexander von Humboldt Darwin George Eliot Matthew Arnold Friedrich Nietzsche Ferdinand de Saussure Ernst Cassirer Mohandas K Gandhi and Jawaharlal Nehru This volume offers the most comprehensive and interdisciplinary assessment of M ller s career to date Arising from a conference held at the German Historical Institute in London in 2015 it brings together papers by an international group of experts in German studies German and British history linguistics philosophy English literary studies and religious studies in order to examine the many facets of M ller s scholarship This book was originally published as a special issue of the Publications of the English Goethe Society

European literary culture and its leading authors and personalities The Russian Folktale by Vladimir Yakovlevich Propp
 Vladimir Yakovlevich Propp, 2012-09-12 Vladimir Propp is the Russian folklore specialist most widely known outside Russia thanks to the impact of his 1928 book *Morphology of the Folktale* but *Morphology* is only the first of Propp's contributions to scholarship. This volume translates into English for the first time his book *The Russian Folktale* which was based on a seminar on Russian folktales that Propp taught at Leningrad State University late in his life. Edited and translated by Sibelan Forrester, this English edition contains Propp's own text and is supplemented by notes from his students. *The Russian Folktale* begins with Propp's description of the folktale's aesthetic qualities and the history of the term, the history of folklore studies first in Western Europe and then in Russia and the USSR and the place of the folktale in the matrix of folk culture and folk oral creativity. The book presents Propp's key insight into the formulaic structure of Russian wonder tales and less schematically than in *Morphology* though in abbreviated form and it devotes one chapter to each of the main types of Russian folktales: the wonder tale, the novellistic or everyday tale, the animal tale, and the cumulative tale. Even Propp's bibliography included here gives useful insight into the sources accessible to and used by Soviet scholars in the third quarter of the twentieth century. Propp's scholarly authority and his human warmth both emerge from this well balanced and carefully structured series of lectures. An accessible introduction to the Russian folktale, it will serve readers interested in folklore and fairy tale studies in addition to Russian history and cultural studies.

 Contributors to this volume strive to uncover architectural alternatives to simplistic models based on concepts of aesthetics, technology or sociology. Seventeen essays explore historical topics ranging from antiquity with a study of the Roman Colosseum through early Renaissance subjects such as the treatises of Luca Pacioli on architecture through to the modern era and explorations on topics ranging from seventeenth century Amsterdam to architectural insights that can be found in the works of the poet and mathematician Lewis Carroll. Authors examining contemporary issues seek to explicate the spatial poetics of architecture by invoking other artistic disciplines. Essays in this group include a discussion of the accomplishments of Gordon Matta Clark, a reading of Alfred Hitchcock's *Rear Window* and an analysis of the implications of ethical formal questions in the work of Ludwig Wittgenstein for architecture. Contributors include Caroline Dionne, Université de Québec, Montréal; Mark Dorrian, University of Edinburgh; Michael Emerson, University of New South Wales; Marc Glaudemans, University of Technology; George Hersey, emeritus, Yale University; Robert Kirkbride, design director, Studiolo; Joanna Merwood, doctoral dissertation, Princeton University; Michel Moussette, Ph.D. at the Université de Montréal; Juhani Pallasmaa, architect, Finland, emeritus, Washington University in St. Louis; Alberto Pérez Gómez, McGill University; David Theodore, McGill University; and Dorian Yurchuk, architect, New York City.
